

Chapter 144

The boss was still in a daze, but another shop assistant ran over in a panic and yelled, "Boss, bad news, bad news."

The boss was a little numb at the moment. His eyelids twitched and he asked, "What happened again?"

The clerk said, "Boss, a group of people came to the door of the restaurant. They said they were from Long Enterprise. They surrounded the door of the restaurant and scared the guests. The guests do not dare to come in."

"What? Long Enterprise? Isn't that Uncle Wei's man? Why are they here? We've just personally greeted them awhile ago?" The boss said in panic.

The clerk did not know why, but said, "Boss, they said that their guests were treated unfairly in your restaurant. They wanted justice. Uncle Wei said it himself."

"Uncle Wei's guest!" The boss was really stunned. Then, he turned his head with difficulty and looked at Fade Chen.

At this time, when he looked at Fade Chen's indifferent smile which reminded him of Fade's statements just

now, he couldn't help but tremble in his heart and he was extremely terrified. He forced a smile and said to Fade Chen, "Sir, it is really a huge misunderstanding. I, I can..."

Fade Chen waved his hand and interrupted the boss coldly, saying, "There's no need to explain. Your restaurant chose to treat customers like this. It has to bear the corresponding consequences."

After that, Fade Chen took Yuri Zhang's hand, paid the bill, and left the restaurant directly.

The boss behind him was very disappointed. He almost collapsed to the ground.

At this moment, Lincoln Xie, who was next to him, saw this and was puzzled. He said to the boss, "Boss, isn't he just a kid? What threat does he have to you? When you cooperate with our Xie Family, we can guarantee that your restaurant business will be prosperous."

"That b*stard dared to attack me, I will let him pay the price!" Lincoln Xie looked at Fade Chen as he left and snorted.

"You are from Long City. Don't you know who I have just offended? That is Uncle Wei's distinguished guest, my business will be screwed. How can I cooperate with you now?" The restaurant boss was very regretful. This time, in order to please Young Master Xie, he had offended a big shot. This was

really a trouble."

However, the boss did not dare to say these words in front of Lincoln Xie, so he could only nod and thank him for his generosity.

Lincoln Xie didn't want to eat anymore so he left without paying the bill. Seeing this, the boss's face turned gloomy and he was upset, almost to the verge of crying.

He turned around angrily and immediately saw the waitress standing next to him in a daze.

Suddenly, the boss was angry and scolded the waitress angrily, "Have you got eyes? I have warned you many times not to judge people by their looks. But now you have offended a big shot, and my restaurant is going to be ruined. Can you bear the responsibility?"

"Boss, I...Young Master Xie just said, I..." The waitress still wanted to defend herself, hoping that the boss would not fire her for Young Master Xie's sake.

However, when the boss heard the name of Young Master Xie, he was even angrier. He directly waved his hand and shouted, "Get out, get out of here. You are fired."

The waitress was stunned and reluctantly walked to the door.

However, after a few steps, the shopkeeper behind

him suddenly shouted, "Stop!"

The waitress suddenly had an idea. She thought to herself, "Did Young Master Xie's words work just now? The boss wants me to stay!"

However, just as she was fantasizing, the boss walked over with a cold face and snatched the 10,000 yuan in her arms. He said coldly, "My restaurant is going to closed down, and you have a great responsibility. This 10,000 yuan will be your compensation to the shop."

"No, the money is mine, I..." The waitress still wanted to explain, but the boss waved his hand and called the security guard. She was scared and dared not say anything more. She lowered her head and walked out of the restaurant in disgrace.

As soon as she came out of the restaurant, she was shocked when she saw dozens of men with dragon tattoos at the door. She was terrified and said, "Who on earth is that guy just now? He actually has such great power. He closed down our boss' shop with just a phone call, he is not even afraid of Young Master Xie. If I had been kind to him just now, I wouldn't have offended him, I might have..."

For a moment, the waitress's heart was full of regret.

At the same time, Lincoln Xie, who left the restaurant, suddenly felt unhappy when he thought of the slap by Fade Chen. He took out his mobile phone and made a phone call, saying, "Young Master Zhang, I am

Lincoln. I have something to ask you to help me. Do you know a guy, he..."

Half an hour later, Howard Zhang and Leonard Zhu appeared in a western restaurant simultaneously. Lincoln Xie was sitting opposite them.

As the rich young masters in Bay City, they certainly knew Lincoln Xie's identity. They knew that this young master is the son of the Xie family from Long City. Although Lincoln Xie was not a real young master in the Xie family, the Xie family was much more powerful than the Zhang family and the Zhu family. Therefore, Howard Zhang and Leonard Zhu were very respectful towards Lincoln Xie, even with a hint of flattery.

Lincoln Xie complained about what he had just encountered in the restaurant to Howard Zhang and Leonard Zhu and asked them to investigate who the guy was. After all, he was beaten in Bay City, so he had to find out his identity.

Hearing Lincoln Xie's description, Howard Zhang and Leonard Zhu didn't need to ask people to investigate. They had already guessed the identity of the man.

Suddenly, the two looked at each other and couldn't help smiling bitterly. They couldn't say anything.

The losses they suffered in Fade Chen's hands were much more than that of Lincoln Xie. In addition, in recent days, their companies had lost a lot of

business under the joint attack of Fei Enterprises Holdings Inc and the Galaxy Plaza Enterprise, which made the elders in the family very dissatisfied with them.

It was all because they offended Fade Chen that they started the series of revenge.

Thinking of this, the two of them was too heartbroken to cry.

Lincoln Xie looked at their expressions and was confused. He frowned and said, "Why? Is that guy very powerful? You guys can't even deal with him?"

Leonard Zhu nodded and wanted to speak out Fade Chen's identity. He also advised Lincoln Xie not to make trouble with this guy because those who got into trouble for him would eventually lead to greater troubles.

But just as Leonard Zhu was about to speak, Howard Zhang's eyes suddenly lit up. He thought of something, so he secretly pulled the corner of Leonard Zhu's clothes under the table.

Leonard Zhu was a little confused, but he still closed his mouth in time. He just sighed and did not speak.

Chapter 145

Seeing this, Lincoln Xie became more curious and said, "Master Zhang, Master Zhu, why? Is that guy so powerful that you are so afraid to mention anything?"

Leonard Zhu did not understand Howard Zhang's meaning, so he kept quiet and he looked at Howard Zhang.

Howard Zhang sighed and said to Lincoln Xie, "Master Xie, in fact, that guy is powerful, but not that powerful!"

The descriptive words made Lincoln Xie even more curious and puzzled. He slammed the table and said, "Master Zhang, just tell me whatever it is. I'd like to see how powerful that kid is. Our Xie family has never been afraid of a person from a small town."

Howard Zhang's eyes glimmered, and then he stated, "Master Xie, since you have promised, I will go all out and tell you the truth."

Then, Howard Zhang said, "Master Xie, that fella's name is Fade Chen. A few months ago, he appeared in our lives, I don't know where he came from. I also don't know why he has a relationship with Quin Lin."

"Later, that guy concocted some kind of Life Elixir Wine at the retirement banquet for Mr. Wu, our former

mayor of Bay City. Suddenly, he became famous among the citizens here. Countless people, from the rich and powerful, competed against each other to buy the Life Elixir Wine, but the supply was very limited. With the Life Elixir Wine, he got to know many elites in Bay City. In the whole of Bay City, you can regard him as someone of great influence."

"Isn't it just a bottle of wine? Is it really that powerful?" Lincoln Xie didn't believe it.

Hearing Howard Zhang's words, Leonard Zhu immediately realized something and nodded at Howard Zhang. Then, he immediately turned to Lincoln Xie and explained, "Master Xie, the Life Elixir Wine is indeed something extraordinary. Those who have tasted it couldn't get enough of it. For the sake of the elixir, rich and influential people like Mr. Wu have developed a very good relationship with Fade Chen."

"It's also because of this, that Fade Chen has become more and more arrogant recently. He has boldly declared that he has no opponent in Bay City and no one dares to touch him. Even the business of my family and Master Zhang's family has been crushed by that kid and Quin Lin. But because of those connections, we dare not do anything to him! Alas!"

Lincoln Xie frowned upon hearing that, "Is it really that amazing? He became the master of Bay City with just that bottle of wine?"

Howard Zhang immediately said, "Master Xie, you may not know this but the wine is really good. Moreover, Fade Chen's business is growing exponentially. Not only in Bay City, but he's ready to penetrate the surrounding urban areas, including other districts."

Lincoln Xie's brows furrowed and the muscles on his face twitched.

Howard Zhang immediately winked knowingly at Leonard Zhu.

Leonard Zhu understood and immediately continued to exaggerate, "Fade Chen boasted that within a year, his elixir would break through Bay City and occupy 80% of the market in the district capital. In three years, it will become the biggest wine company in the south. In the beginning, we all thought he was talking nonsense, but now it seems that it could really be possible with the interpersonal connections he has!"

Lincoln Xie's face darkened and his hands on the table clenched into fists.

Howard Zhang and Leonard Zhu exchanged a satisfactory smile.

The two of them knew that the Xie Family had a large business empire and involved in a lot of industries. Amongst them, Lincoln Xie's father was in charge of the alcohol business. The Xie family's beverage business occupied 70% of the market share in the

district capital, an absolute market leader.

The two deliberately exaggerated the significant effects of Fade Chen's Life Elixir Wine and made up all kinds of bold stories in order to give pressure to Lincoln Xie, so that he would secretly develop hostility towards Fade Chen.

Now, looking at Lincoln Xie's expression, they knew that their plan had worked.

Sure enough, after a moment of silence, Lincoln Xie looked up at them and said, "I would really like to have a look at the so-called powerful Life Elixir Wine."

Howard Zhang had been prepared. He snapped his fingers and asked the waiter to bring him a bottle of the elixir.

Leonard Zhu took the initiative to pour Lincoln Xie a glass of the wine. When the slightly yellowish wine was poured out, a whiff of fruity fragrance filled the air. Lincoln Xie's eyebrows twitched in surprise.

"Master Xie, please!" Leonard Zhu and Howard Zhang raised their glasses for toast.

Lincoln Xie nodded and took a sip of the wine. Instantly, he felt a cooling liquid slipping down his throat all the way to his stomach. Then he felt refreshed as if all his limbs and bones had been cleansed. The tiredness of his body suddenly disappeared, and he suddenly energized.

"This wine..." Lincoln Xie's eyes lit up and then he downed the glass of wine in a go.

Subsequently, he poured himself another glass of the Life Exlixir Wine and drank it up.

Just like that, a small bottle of wine was finished in no time.

At this time, Lincoln Xie still hadn't had enough, he put the wine glass on the table and sighed, "This wine is amazing. It tastes very refreshing and delicious, and it rejuvenates the mind and strengthens the body. No wonder the rich and powerful in Bay City are so addicted to it!"

Howard Zhang and Leonard Zhu looked at each other and then sighed.

"That's right. With such amazing wine, other wine and even beverage companies won't stand a chance. I'm afraid that Fade Chen will soon take over the beverage market in Bay City."

"Not only in Bay City, but some wealthy people in the surrounding cities who heard about the wine, have also come here to buy the wine."

Then they looked at Lincoln Xie. As expected, Lincoln Xie's face changed, as if thinking about something.

A few seconds later, Lincoln Xie said, "Master Zhang, Master Zhu. Although this wine is amazing, it shouldn't be a problem for you two to crack the

concoction with your wealth and then sell the goods to take over the market!"

What Lincoln Xie meant was to test the composition of the liquid and create a copycat.

Truly a man from a family of wine business to have thought of this method in an instance.

Howard Zhang turned and sighed, "We have also thought of this method and have sent people to try to do it, but all had failed in the end. Later, after inquiring about it, we learned that the exclusive formula of this elixir seemed to have come from an elusive master. The composition is very unique and can't be replicated. Fade Chen seems to be the only one who has the company's formula. So, there isn't a way!"

"Can't be cracked, only one formula!" Lincoln Xie pondered over these words.

Then, he made an excuse to go to the bathroom. He took out his mobile phone and called the elders of the family, "Dad, I am in Bay City. I have discovered a huge business. As long as our company can take down this business, we can absolutely..."
