

Chapter 696

Who would have thought that those poisonous spiders would be harmless to Darryl! No matter how many times they bit him, Darryl was not poisoned.

Not long ago, in ZhaoYun's ancient tomb, Darryl had killed the Red Eye King Scorpion and drank its spirit, he became invincible!

Therefore, even though the poisonous spiders bit him, all he felt was the pain. Its poison did not even bother him!

Since the establishment of the Acheron Tower, many elites had been trapped in it. After the spiders bit them, they were paralyzed by the poison. Then, a few hundred spiders would pounce on them and bite them to death. Within two to three days, those spiders would consume their whole body.

That explained why every time someone was pushed into the Acheron Tower, their screams would be heard from the outside, and it would last for about two to three days.

However, Darryl was invincible! The rope on his body was bitten off, so he immediately summoned

the Blood Drinking Sword to slash the spiders.

Flop! Flop!

He waved the Blood Drinking Sword around, and a few more spiders were stabbed to death!

Darryl was shocked to see a green bead every time he killed a spider.

The bead had a faint trace of light.

Darryl was extremely excited to see the beads!

Internal Alchemy Elixir?

Those spiders had Internal Alchemy Elixirs in their bodies?

The Infinite Elixir Manual recorded that some insects and beasts that had lived for thousands of years would have absorbed heaven and earth's spiritual energy to form the Internal Alchemy Elixir in their body.

The Internal Alchemy Elixir contained the spiritual energy of heaven and earth! After those spiders died, the Internal Alchemy Elixir fell from their body.

The Internal Alchemy Elixir was very precious! Darryl did not overthink it; he picked up a green bead and stuffed it into his mouth.

The Internal Alchemy Elixir melted in his mouth,

and within just a short time, Darryl felt his internal strength improved a little!

Darryl was delighted. He felt as if his body was full of strength, and he felt energized. He held the Blood Drinking Sword in his hand as he desperately slashed those spiders!

Patter! Patter!

Every time a spider was killed, an Internal Alchemy Elixir fell off their body.

Darryl took all of the elixirs. Every time he killed a spider, he immediately picked up the Internal Alchemy Elixir and popped it into his mouth.

If there were a second person in the tower, they would definitely be shocked.

When other people had been thrown into the Acheron Tower, they died miserably. On the contrary, Darryl enjoyed the killing spree.

Half an hour had passed.

Then, another hour went by.

After some time, Darryl had killed all the spiders on the first level; he had eaten thousands of Internal Alchemy Elixirs!

Those Internal Alchemy Elixirs contained heaven and earth's spiritual energy. Darryl had a vague

feeling that he was about to break through—he would rise to Level Five Martial Marquis soon!

At the same time, he was puzzled. If the first level had spiders, what would be on the second level?

He might as well ploughed it through. He took the sword and stepped onto the second floor!

The Acheron Tower was like hell to other people, but for Darryl, it was heaven to enhance his strength.

Chuck! Chuck!

Chuck! Chuck!

As soon as he arrived on the second floor, there were crawling sounds all around him. Darryl smiled after he fixed his gaze on the creatures.

They were poisonous lizards. Those lizards were about three feet long, and their skin looked like hard armor. Compared with the spiders on the first floor, those lizards were much more poisonous, and they attacked even more fiercely.

However, Darryl did not panic at all. He was a Level Five Martial Marquis. How could those lizards hurt him easily?

"Give me all of your Internal Alchemy Elixirs!"

Darryl held the Blood Drinking Sword and slashed

at the lizards!

Bam! Bam!

As soon as those lizards were dead, their Internal Alchemy Elixir fell out of their bodies. Their Internal Alchemy Elixir was much purer than those on the first floor!

After Darryl ate a few of them, he felt his inner energy grew rapidly!

Chapter 697

On the other side of Donghai City, at the Wishing Star Tower.

The New World Continent's 200,000 armies had attacked the Wishing Star Tower!

The Elysium Gate and the six major martial sects had fought each other only moments before that. The New World army took advantage of the chaos and attacked them; their action had taken the World Universe by surprise.

The Elysium Gate and the six major sects never thought that the New World army would take the opportunity to attack them.

When the enemy attacked, the Elysium Gate and the six major martial sects had to put their grievances aside temporarily so that they could join forces to ward off the New World army.

However, they were not prepared for the sudden ambush. They struggled to defend the tower. Nonetheless, none of them flinched. They gritted their teeth and ploughed through!

All the major sects that if the Wishing Star Tower fell into the enemy's hand, the entire Donghai City

would be trounced in no time at all and that would bring down the whole continent!

Clang! Clang!

Soldiers from both sides continued to fight each other; the sound of weapon collisions and roars echoed throughout the mountain range! Corpses were strewn all over the Wishing Star Tower!

Abbess Master Serendipity was in a fierce battle; she held her long sword and swung it hard!

"Argh!"

A dozen New World soldiers had died!

The Abbess Master kept a straight face as she yelled at Zephyr, who was not far away, "Zephyr, this is Elysium Gate's fault. If you didn't have to save Darryl's parents, the New World army would not be able to take advantage of this chance to attack us."

The Abbess Master said in an icy tone, "If we lose the Wishing Star Tower, Elysium Gate will be blamed for that. And you, Zephyr, will be the greatest sinner!"

"You're full of sh*t!"

Zephyr's eyes were blood-red as he shouted angrily, "Abbess Mother, the six major sects had violated the community's principle. All of you

bullied an unarmed old couple. If we are not in the plight of the enemy attack, I would have sought justice for them!"

Zephyr was covered in blood!

He was injured in the fierce battle between Elysium Gate and the six major sects. The New World army had made a sudden attack, and his body was covered with wounds from the battle!

"Go!"

Several New World soldiers roared and charged toward Zephyr.

Zephyr held his steel saber; he was fearless. He greeted the enemies head-on!

The Sect Master had ordered them to defend Donghai City.

Even if he were killed in the battle, he would never let Donghai City fall into the hands of the enemy!

...

On the other side, in the Acheron Tower at Fuyao Palace.

Darryl sighed as he ascended to the ninth and last floor.

In the Acheron Tower, one floor was more

dangerous than the previous floor. On the eighth floor, Darryl had encountered a dozen poisonous hedgehogs.

Each of those poisonous hedgehogs was about two feet long!

Darryl was at the Martial Marquis level, but he was unable to keep himself unscathed. He was stabbed a few times by the poisonous hedgehogs.

Fortunately, he was not troubled by the poison. He merely felt some pain after he had been stabbed a few times. The hedgehogs' Internal Alchemy Elixir was exceptionally nutritious.

Darryl walked up the stairs with a wide grin on his face and opened the door to the ninth floor.

Darryl was very curious about the poison on the last floor.

The moment he opened the door, he was stupefied!

He saw two behemoths rushed toward him!

Those were two beetles that were more than ten feet long! Two sharp fangs stuck out of their bared venomous mouth!

F*ck!

Darryl's head buzzed. A beetle that was more than a dozen feet long? Who would have believed it if they

did not see it with their own eyes?

Whoop! Whoop!

Darryl was still shocked, but the two beetles flapped their wings and flew toward him!

Darryl had no time to think; he immediately put the Blood Drinking Sword in front of him!

Boom!

The impact of the two beetles was too strong. After the collision, Darryl felt the blood in his body churned as his body flew up and hit the wall hard!

Pfft!

A mouthful of blood spurted out from Darryl's mouth!

"Very interesting." Darryl laughed and climbed to his feet. He held the Blood Drinking Sword tightly and charged forward again!

Clang! Clang!

Darryl brandished his Blood Drinking Sword and barrelled into the fangs of the two beetles.

The carapace of those two beetles was unbreakable; even the Blood Drinking Sword could not pierce through it!

Chapter 698

In the beginning, Darryl was a little anxious about those two giant poisonous insects. However, gradually, he became more at ease. Even though the two poisonous insects had hardback armor, their belly was incredibly soft.

Pfft!

Finally, Darryl grabbed the opportunity and laid on the ground. Then, he stabbed the beetle's abdomen with his sword.

The beetle struggled a few times before it froze.

A smile appeared on Darryl's face and after he fought another beetle for a few minutes, he found the opportunity to use the same method to stab its abdomen with his sword.

Patter! Patter!

The next second, as the two beetles died, two Internal Alchemy Elixirs fell from their bodies.

Those two Internal Alchemy Elixirs were bigger than the previous ones!

Darryl was quick. He grabbed the elixirs and stuffed them down his throat.

Hum!

Darryl swallowed the two Internal Alchemy Elixirs and felt an incomparably tyrannical force merged into his energy field and then filled his limbs!

Darryl had eaten more than two thousand Internal Alchemy Elixirs! The elixirs in each level were purer than the level before that!

After he swallowed the two beetles' Internal Alchemy Elixirs, Darryl suddenly landed on the ground. His inner energy spiraled upward from his energy field!

He had to wait at least two or three days to fully absorb all the Internal Alchemy Elixirs' goodness!

Darryl closed his eyes. He was in the process of cultivation.

...

On the other side, at the Wishing Star Tower.

The confrontation between the two continents had lasted one day and one night!

It was indeed an unprecedented battle! Blood flowed down the stairs to the bottom of the tower!

The major sects did not lose their ability to resist. They gritted their teeth and went on with it! What

else could they do? Did they want to wait for Donghai City to collapse?

The martial sects' elites knew that if they were to fall, the World Universe Continent would be in a catastrophe! They had no choice but to fight with their lives!

Clang!

A few New World soldiers surrounded Henry Bi-General with long sabers in their hands.

They spat out mouthfuls of blood. They were extremely weak! The war had lasted one day and one night, and they were all heavily wounded! They were burnt out!

...

Two days later, at the Hundred Flowers Hall in Fuyao Palace.

The seven fairies sat together. Several men knelt in front of them, and they held plates of fruits in their hands.

Little Fairy picked up an orange and whispered softly, "Sister, when we were on our way back, Donghai City was already surrounded by the New World army. If the army attacks, Donghai City would probably be conquered in no time at all." Little Fairy frowned and commented, "Why don't

we send someone to help them? If we send our support, Darryl would be able to rest in peace."

Little Fairy looked at Cindy hopefully; a trace of expectation gleamed in her eyes.

Darryl was imprisoned in the Acheron Tower, and he would definitely die. Little Fairy had always felt uneasy in her heart. After all, the fairies had promised Darryl to send their support to defend Donghai City. They had gone back on their words.

Cindy's expression did not change in the slightest bit. She refused her suggestions coldly. "What has it got to do with Fuyao Palace if the World Universe collapses? Don't forget our rules— even if the sky were to fall, it is none of our business. Little Sister, are you attracted to Darryl, the scumbag?"

Boom!

After Cindy said that, a loud noise was heard!

It was like the sound of thunder!

Cindy's face changed, and she frowned. "What's the matter?"

A female disciple came hurriedly with a panic expression, and said to Cindy, "Palace Master, it's not good at all. The Acheron Tower... collapsed..."

What?

The Acheron Tower had collapsed?

Cindy frowned. "What nonsense!"

The Acheron Tower had stood tall for thousands of years. How could it possibly collapse so suddenly?

"Palace Master, it's true!" the female disciple with a pale face said.

Cindy put the teacup down and frowned. "Go! Let's go and see."

The seven fairies hurried to the tower to have a look.

As soon as they stepped out of the Hundred Flowers Hall, the seven fairies were stunned!

Not far away, the Acheron Tower, which had stood tall for thousands of years, had collapsed! It had turned into complete ruins! The area was filled with clouds of dust and smoke.

Above the dust and smoke, a silent figure was suspended mid-air.

The figure sat cross-legged, and he floated in the air with his eyes closed. It was Darryl!

Darryl was in the midst of meditation. His body continuously surged with powerful internal energy; it was terrifying! The waves of internal energy were the one that destroyed the Acheron Tower into

ruins!

Little Fairy bit her lip as she looked up in the air.
She was shocked! Her body trembled
uncontrollably!

She realized that Darryl had become extremely
powerful!

Chapter 699

Darryl—did he not die?

The seven fairies were in incredible shock!

How was it possible? For thousands of years, people thrown into the Acheron Tower had died no matter how strong they were! No one could escape it!

Not only did Darryl survive, but his body's internal energy had also surged, and it had caused the Acheron Tower to collapse!

Who would have believed it if they did not see it with their own eyes?

For some reason, Little Fairy was inexplicably joyful to see Darryl alive.

"Palace Master!"

Then, they saw a figure stumbled over. It was Leroy!

Leroy had been living in one of Fuyao Palace's guest rooms. He had no strength and nowhere to go, so Cindy made an exception and let him stay for a few days.

Of course, Leroy had heard that Darryl was trapped in the Acheron Tower! He thought that he had

wreaked his vengeance on Darryl. He had never expected Darryl to survive the tower and even destroyed the building!

Leroy was anxious. He said to Cindy, "Palace Master, he is not dead! How could this be? What should I do?"

Leroy gritted his teeth and looked at Darryl with a bitter expression on his face.

Cindy sighed as she stared at Darryl, who was suspended in mid-air, in disbelief.

'What's the matter with this scumbag? Why is he not dead?'

Cindy looked at Natalia and ordered in a cold tone, "Third Sister, go and kill him."

Natalia nodded. She tapped the ground with her toes and flew toward Darryl.

Whoosh!

Natalia gripped the long sword tightly. Driven by her internal energy, her long sword shot a dazzling beam of light, its power was unstoppable!

Suddenly, Darryl opened his eyes!

Buzz!

Darryl cracked a smile. After three days of

meditation and cultivation, his body had absorbed more than 2,000 Internal Alchemy Elixirs!

Darryl was a Level Two Martial Saint!

He was already extremely powerful at the Martial Saint level. He was able to float in mid-air with his internal energy.

"Huh..." Darryl exhaled; he felt refreshed!

His internal energy was many times stronger than before that! Darryl smiled faintly when he saw the third fairy, Natalia, flew toward him with a sword. "Third Darling, can't you let me go?"

Darryl was daring enough to tease her so openly!

He was a Level Two Martial Saint. Besides, he had the Pure Energy internal energy. Why would he be afraid of Fuyao Palace? Even if the seven fairies of Fuyao Palace joined forces, they were still not his match. If he wanted to escape, none of them could stop him.

"Bastard, how dare you blabber away!" Natalia was furious; her sword went straight for Darryl's chest!

"Third Darling, calling your husband a bastard is not good. Should I spank you?" Darryl teased with a smile. The next moment, his internal energy erupted, and he waved his hand gently!

Hum!

Majestic internal energy whizzed out!

Natalia felt a violent force crashed down on her in an instant! She was almost too late to react; she lost her balance and was thrown backward.

Natalia's body plummeted downward. Then, she felt a large hand supported her waist.

Chapter 700

It was Darryl to her rescue!

"Go away! Don't touch me!" Natalia said coldly.

"Third Darling, how could I stand and watch you fall to the ground," Darryl said with a grin as he held her waist.

"You—you have got a death wish!" Natalia's body trembled. She bit her lips angrily; the long sword in her hand almost pierced Darryl's chest.

However, before she could deliver the stab, Darryl grabbed her wrist!

"What are you doing? Do you want to murder your husband?" Darryl deliberately angered her.

Natalia blushed! How could the bastard be so thick-skinned? Natalia wanted to kill him, but she was unable to beat him. She was in Darryl's full control; she could only be angry!

The other six fairies were flabbergasted!

Darryl hugged Natalia, and they slowly landed on the ground. He put away his smile and said solemnly, "Palace Masters, let's talk. You promised to send support to defend Donghai City, but you

went back on your words. Please come with me to Donghai City now!"

Even though Darryl was keen to tease them a little more, it was a matter of urgency to deal with the enemies!

Cindy wore an ugly look on her face as she said coldly, "Darryl, you bastard! Just give up on your hopes. We would never get involved with society's affairs. The conflict between the two continents has nothing to do with us."

Darryl sneered angrily, "Fuyao Palace may be regarded as a big sect, but I had never expected that you'd go back on your words so brazenly. What a shame!"

Darryl got angrier and angrier. "Even though I was a little disrespectful to your sisters back in the camp, I did it for their safety! First, you people came to assassinate me and then, you threw me into the Acheron Tower. Then you turned back on your words. You're not one to honor your promise! All of you from Fuyao Palace are real renegers!"

The fairies flushed.

Darryl laughed and said, "If you still have a cultivator's sense of righteousness, send support to Donghai City and protect the safety of the people there! If cultivators like us do not care about the

world, why do we even cultivate? Decide that on your own!"

When he said that, Darryl turned and went down the mountain!

He was anxious about Donghai City's situation and did not want to waste time at the Fuyao Palace.

The seven fairies looked at each other. Darryl's words echoed their minds.

It was true; they were martial arts practitioners, and if they no longer cared about the world, why should they continue to cultivate?

...

Darryl had left Fuyao Palace, and when he reached the foot of the mountain, he was in trouble.

He was promoted to Level Two martial Saints. He could fly in the air, but it was not quick enough. He was still thousands of miles away from Donghai City. Had he tried to fly, how long would it take for him to get there? Would he get there in time to rescue Donghai City from its plight?

Just as Darryl was anxious, he felt a vibration. Then, a snow-white figure flew down from the sky.

It was the Snow Eagle!

When Darryl was in the New World camp, Snow

Eagle had settled down near the camp.

When Darryl was captured by the six fairies and taken to Fuyao Palace, Snow Eagle followed them because it was worried for its master's safety.

Snow Eagle was very spiritual and smart. It went near the Fuyao Palace and noticed that it was filled with many elites. It was a dangerous situation, so it hid in the nearby woods.

It greeted Darryl happily when it spotted the man.

"Snow Eagle, you are too good to me."

Darryl was overjoyed. With a leap, he jumped onto the Snow Eagle's back and caressed its head.

Snow Eagle gave a cheerful cry and soared to a thousand feet; it quickly flew toward Donghai City.

Chapter 701

On the other hand, at the Wishing Star Tower at Donghai City.

At that moment, the floor was covered with fresh red blood at the area near the Wishing Star Tower. The members of all the major sects, fell one by one in a pool of blood!

The two worlds had been in battle for three days and three nights!

During those three days, members from the major sects had suffered injuries and deaths. They had more than 200,000 people initially; however, there were only about 5,000 members left after three days of battle!

The New World had also lost half of their men, but they still had 100,000 people left!

Five thousand people against one hundred thousand people, that was as if one would throw an egg onto a stone!

The major sects could barely hold on any longer! Even though there were only 5000 of them left, they still clenched their teeth and hung in there!

The major families in Donghai City were there to

support them too—the Brandon and Abby siblings, the Darby family, the Lyndon family, Justin Quinn from the Quinn family, Kent Hough's family and others as well. Most of the families were there to provide their support.

Owner of Moonlit River—Samson Facey!

President of Black Tiger Real Estate—Felix Blakely!

All those people were leaders in the entrepreneur world. Their bodyguards were also on the battlefield too!

However, although there were many families there, it had complicated the situation.

In the eyes of the New World army, who practised strict military discipline, the World Universe had only ordinary people in their forces. They never cared about them.

Besides, among those families, not all of them were there to protect Donghai City. Many of them were only there for show.

For example, William and others from the Lyndon family dared not even take a step forward. They merely acted brave, with swords in their hands.

As for Florian from the Darby family, he ordered his family to form the Big Dipper Formation. It looked intimidating, but they dared not move forward too.

They merely hid at the back; they did not even battle the army of the New World at all.

Even with the major families' support, the situation did not turn favorable; the number of injuries and death continued to rise!

After another two hours of battle, the World Universe had only about 3000 people left.

They stood proud and high as they battled against the New World's 100,000 armies!

Given the situation, the winners and losers had almost been determined. However, none of them gave up. They continued with clenched teeth; they defended the city with their lives.

All of them knew in their heart.

If they were to be defeated, that would be the end of Donghai City—the end of everything!

At that moment, the sun shone brightly in the middle of the sky; it looked as if it was covered with fresh red blood.

In front of the Wishing Star Tower, the battle between 3,000 and 100,000 people continued to rage.

Amid the chaos, there was an exceptionally brave shadow!

It was Zephyr!

At that moment, Zephyr was covered in blood— from head to toe—there was not a single part of his body that was not injured. He sustained from more than one hundred wounds; he looked like a bloodied human!

Countless New World army surrounded—it was impossible to kill all of them.

Zephyr's hands were weak, his blade was almost blunt, but he clenched his teeth and continued to hang on until his last breath.

Zephyr, Henry Bi-General, and the Ten Heaven Masters battled until their last energy; they could barely stand up straight. However, all of them looked determined; they did not show any sign of surrender. All of them still held onto their weapons.

Most of the major sects suffered significant losses! It was the same with Elysium Gate too. From a few hundred thousand members, they were left with about 30 people.

Not far from the battlefield, Abbess Mother Serendipity, Master Leonard and other sect masters had retreated. All of them had sustained severe injuries, and at that moment, they were in the hills not far away. They cultivated to regenerate their

internal energy.

As they regenerated her internal energy, Abbess Mother Serendipity and the rest kept their eyes on the battlefield; all of their faces looked worried.

"Argh!"

At that moment, a painful shout was heard from the middle of the battlefield.

Zephyr sustained another blade injury.

There was more and more energy around Zephyr! One of the New World armies went behind Zephyr with a long spear. He pierced it at Zephyr's abdomen!

The spear went through Zephyr's abdomen!

Fresh blood immediately gushed out!

Bang!

Zephyr felt as if the energy in his whole body had been released. He was weak as ever, and he dropped to a kneel on the ground.

Chapter 702

Simultaneously, a few other New World armies seized the opportunity to attack Zephyr with the long sword in their hands.

Bang! Bang!

Zephyr's mouth was filled with blood! His body had been pierced so many times that it looked like a beehive!

Slap!

At that moment, Zephyr gathered his internal energy. He held his breath in his abdomen and pulled out all the long spears in his body. At the same time, he raised his other hand and threw his opponents into the air!

"Argh!" Zephyr roared loudly as he stood weakly. Even though his face was pale, he was still fearless as he faced the New World army in front of him!

"What else have you got? Come one!" Zephyr's eyes were all red, as he shouted with all his strength!

The New World army looked at each other; all of them started to worry.

Was he not afraid of death?

How could he still stand after he sustained so many injuries?

Abbess Mother Serendipity, Master Leonard and other sect masters were amazed when they saw that.

That was the Elysium Gate! They were willing to sacrifice their lives to protect Donghai City. Even though they were seriously injured, they did not retreat!

"Zephyr!"

"Master!"

Levin and his other siblings were stunned when they saw Zephyr's body was covered with blood. They shouted at him!

When they yelled, Levin wanted to rush forward to help Zephyr. However, there were too many enemies, and they could not move forward. There was no way for them to run in to help him!

At that moment, the badly injured Zephyr was already surrounded by the enemies. His eyes were red, and he looked crazy as he shouted at the sky. "People from the New World, listen up! As long as the Elysium Gate is here, don't even think about stepping into Donghai City!"

Once he was gone, the steel blade on Zephyr's hand

flew outward and injured dozens of the New World armies!

By then, Zephyr had used the last bit of his energy; he had relied on his last breath to stand.

The next second, dozens of the New World armies with long guns in their hands, roared and charged closer.

Zephyr no longer had any energy left; he could not avoid them. The long swords pierced through Darryl's body.

Zephyr could not hold it anymore, and fresh blood oozed from his body!

"Warlord Zephyr!"

"Master!"

Everyone's heard clenched. The Dixon siblings' eyes were red as they shouted crazily. Their tears flowed continuously and uncontrollably!

Zephyr had used all of his energy; he wiped the blood from his mouth and smiled weakly. "Dear brothers, I can't take it anymore. You must continue to defend Donghai City. Protect its people. Don't shame Brother Darryl, and also, never be ashamed of Elysium Gate!"

After he spoke, Zephyr looked to the sky and

shouted, "Defend our country, die on the battlefield —I, Zephyr, would die with no regrets!"

Roar!

The high spirit roared toward the cloud in the sky!

"I won't let you die!"

At that moment, a bright, loud voice was heard. Then it was followed by the appearance of a snow-white eagle in the sky.

On the eagle's back, there was a shadow of a person; he stood tall and proud.

Shiny tears hid in his eyes.

It was Darryl.

"Brother Darryl!"

"Brother Darryl is here!"

At that moment, Henry Bi-Generals and others started to shout!

However, the other elite members of the other major sects furrowed their brows.

"Darryl, you are a traitor! How dare you appear here!" Abbess Mother Serendipity shouted as she pointed at Darryl. "You must be so happy now that Donghai City is almost defeated! I am badly injured today. Otherwise, I would definitely kill you,

bastard!"

**Darryl, that traitor! How dared he appeared there!
The Six Sects clenched their teeth. They still
thought Darryl was the traitor who had joined New
World.**
