

After the Bao family was out of the picture, the three families rose up and everything actually became more balanced.

But they all knew well that nobody was willing to let their share go and everyone wanted more.

The economy in China was doing well and many corporations had plans to expand overseas. That was good business for them, and this as a business that made money without them doing anything.

But if the reputation of the Chinese Chamber of Commerce went down because of the Li family, then who was going to make up for this loss?

So the heads of the Cheng and Bai families came to look for Li Zhengshang not only to put pressure on him, but also to take away the Li family's share!

"We must minimize this bad effect," said Bai Feng. "Zhengshang, we've worked together for so many years, you shouldn't be so selfish."

Li Zhengshang had an unpleasant look on his face.

What could he say now?

Things had happened to the Li family and he couldn't hide it from them.

These two wily old foxes had come looking for

him together, and Li Zhengshang knew they were after his share.

“Then what do you two want to do?”

Li Zhengshang’s expression had also darkened.

Cheng Ruo was right. They had to think of a way to minimize the effect of this matter on their reputation, otherwise the ones who would lose out wouldn’t just be the Cheng and Bai families. The Li family would stand to lose even more!

These two families were here to put him in a spot!

“It’s not too difficult. We’ll just need the Li family to temporarily back out of the Chinese Chamber of Commerce and leave the running to us during this period of time.”

Bai Feng quietly sighed. “This is for the good of all three of us.”

“That’s right!”

Before Li Zhengshang could say anything Cheng Ruo cut in, “This is for the good of all three of us. We can’t allow the problems of the Li family to affect the rest of the Chinese Chamber of Commerce. Zhengshang, I’m sure you’re very aware of this.”

If the other two families were the ones with a problem, Li Zhengshang would use this method on them too.

This was the only way to salvage the situation. The only problem was that if he wasn't involved with the Chinese Chamber of Commerce for a period of time and even completely back out for the time being, then it would be hard for him to come back or have enough power in his hands to negotiate for anything.

"The Li family will come back into the picture, but before that, you have to settle your own problems first."

Cheng Ruo continued, "As for who is making trouble for the Chinese Chamber of Commerce, the Bai family and I will settle it. The Li family doesn't have to worry about this."

Li Zhengshang didn't say anything.

He sat on his chair and clutched the arm rests as he closed his eyes slightly. His heart was fuming away, but he showed none of it on his face.

"I need to think about it," he finally said after a long time as he turned to look at the other two.

"Of course, the Chinese Chamber of Commerce will be my priority, you don't have to worry," he said in a serious tone.

"Fine, you can think about it. Make a decision quickly. The longer you drag this out, the greater the loss will be to the Li family, so you'd better think about it carefully."

Cheng Ruo and Bai Feng stood up and exchanged glances. They both knew that Li Zhengshang would definitely agree because he had no other choice.

The two of them didn't say anymore. They left to arrange for other matters and quietly waited for the Li family to back out temporarily.

As long as the Li family was willing to back out, then that would probably become more than just a temporary arrangement.

Not long after the two of them left, Li Genhong returned to the house. He didn't care that he looked a mess or that his hair resembled a beggar's.

He hurriedly ran to his father and fell to his knees with a loud thud.

"Dad! I was wrong! I was wrong!"

"I offended the wrong person! I really offended the wrong person!"

Li Genhong's voice was trembling and his face was void of color.

Li Zhengshang was really about to blow up. He looked at his son and tried to stop himself from killing him as he said with an icy voice, "What on earth is going on?"

"I...I've offended someone! Someone we can't

afford to offend!”

Li Genhong knelt on the floor and his entire head was filled with Jiang Ning’s name. He felt like he could even see how the Bao family and Qing Sect had been massacred...

“Go and beg him! Beg him to be merciful to us and let us off!”

“What on earth are you talking about?!”

Li Zhengshang was already in a bad mood. Now that Li Genhong was blithering away, he slapped him hard and shouted, “Speak properly!”

“It’s Jiang Ning!” Li Genhong couldn’t be bothered with how swollen his cheek was. He shouted loudly, “It’s him! He’s the one who destroyed the Bao family!”

“He’s the one who exterminated Qing Sect!”

Li Zhengshang’s brain instantly went blank.

“What did you say?”

He couldn’t really believe it and was confused for a moment.

What had this got to do with the Bao family and Qing Sect?

“That Lin Group! Jiang Ning is one of Lin Group’s! The Bao family had a feud with Lin Group back in China and so Jiang Ning wiped them out!”

“He didn’t even leave Qing Sect behind!”

Li Genhong continued to shout away, “Tang Gong was nearly frightened to death when he saw Jiang Ning, so when I told him to kill Jiang Ning, he ended up turning on me instead...”

Li Zhengshang shuddered and nearly lost his

balance.

The Bao family?

Qing Sect?

They had all been destroyed by Jiang Ning?

The person that Li Genhong had offended was Jiang Ning!

He spun around violently and glared at Li Genhong as he really wished he could slap his son to death right now.

Of all the people to offend, he had to offend that terrifying fellow!

“Are you and that Jiang Ning in a bitter feud?” asked Li Zhengshang anxiously.

“No...I don’t think so, just a few disagreements.”

Li Genhong thought about it and figured they wouldn’t be considered a matter of life and death.

Besides, the one on the losing end had always been him and the one who made losses was the Li family. Surely Jiang Ning didn’t have to kill him too, right?

“Dad, think of something! Think of something!”

Li Genhong started to feel scared.

A powerful family like the Bao family had turned to dust, and even the century old power that had been dominating for years like Qing Sect had been completely eliminated by Jiang Ning.

What was the Li family to a man like him?

“Think of a way? How am I supposed to think of anything?”

Li Zhengshang kicked Li Genhong and sent him flying.

He was already having a big enough of a headache.

He sat down and roared at Li Genhong, “Come here! Tell me exactly what happened from the very beginning!”

Li Genhong didn't dare to hide anything from his father, and immediately recounted everything that happened to Li Zhengshang.

After listening to everything, Li Zhengshang frowned and looked upwards as he sighed.

“You are an idiot! This is a fight between the Ceyrankas and Lin Group, so why did you go and become a tool in the process?”

He was going to die from his fury soon.

Li Genhong didn't dare to speak.

He quietly knelt on the floor and didn't dare to speak anymore.

But now that he thought about it, given Amelia's identity and position, if she wanted to help Lin Group, why would she need to go through him?

She could have looked for the three heads who controlled the Chinese Chamber of Commerce.

But she didn't do that because if Li Zhengshang was the one who heard these words, he would have immediately smelt a rat and wouldn't have fallen for this trap.

But Li Genhong was too young and rash, and wasn't steady enough in the first place.

He only thought about how he could prove himself in front of Amelia and never thought about where this Lin Group came from or why Amelia was so bothered by them.

This stupid idiot didn't even think about how Lin Group couldn't possibly be an ordinary company since the princess of the Ceyranka family took notice of them.

"What are we going to do? You're asking me now? How the hell do I know?!"

Li Zhengshang had two people in his heart right now.

One of them told him to kill this stupid boy, this

fellow who couldn't get anything right!

The other one agreed.

If he didn't only have this one son, Li Zhengshang really wanted to just kill him on the spot. He didn't even mind if Jiang Ning killed him off for him.

Li Genhong hung his head and didn't say anything.

He didn't dare to speak at all. He was afraid that if he said anything, Li Zhengshang would grab a knife and slit his throat right away.
