

Chapter 30

"What? Isn't William the new boss of the Genuine Care Medical Center? He was on the stage just now..." What Felicity said really took everyone present aback.

Felicity continued, "The new boss of the Genuine Care Medical Center is William's friend. William was entrusted by the actual owner, thus he went up the stage to help him out."

She explained to them everything that happened, including the part where William put on the Bluetooth earphones to become his friend's spokesperson.

The faces of all the Bai family members darkened at once.

They thought that William was the new boss of the Genuine Care Medical Center.

Therefore, when they begged Felicity for her help a while ago, they didn't even dare to look at William.

They were afraid that they would get on William's nerves again.

However, he was not the new boss of the Genuine Care Medical Center.

Instead, he was only acting as one as per his friend's instruction.

Very well!

William, he was indeed a dog!

He had chosen to become a dog of the Genuine Care Medical Center and betrayed the Bai family.

What he did a while ago had left them in a state of stupefaction.

Even though they were infuriated at this moment, they felt relieved at the same time as well.

They had been cracking their heads to figure out how William became the new boss of the clinic.

Now that they learned the truth, they all breathed a sigh of relief.

Indeed, this was the most reasonable explanation.

"William, you're a backstabber! How dare you join hands with the Genuine Care Medical Center and frame us? I'll beat you to death!" Steven's eyes were bloodshot. He was going to swallow William alive.

Felicity instantly stood in front of William and stared at Steven with an indifferent look. "Steven, what do you want to do?"

Steven immediately retreated to his seat under Felicity's glare.

The Bai family exchanged glances with Felicity and William. A tinge of awkwardness filled the air.

Yasmine's face had turned ashen, her whole body was shaking violently.

The purpose they had come all the way to here was to ask Felicity's help to plead with William.

Therefore, Yasmine did not even mind about her image when she was begging Felicity a while ago. She had lowered herself to apologize to her granddaughter. She was even prepared to kneel down to her.

She was enraged to discover the fact that William had no say in this matter. He could not offer any help to them at all.

She gained nothing despite being humiliated.

Yasmine's body was trembling in anger at the thought of this.

She felt as if the reputation she had protected all this while had vanished while she apologized to Felicity a while ago.

She couldn't wait to drive both of them out of the house again.

However, she had already given them her word that she would never chase them out again.

If she went back on her word, they would never trust her again.

"These two b*stards! I won't let you off the hook!" Yasmine thought.

At this very moment, Rebecca's phone rang.

She fished it out from her pocket and saw Fernando's name on the screen.

She picked up the phone before Fernando's angry voice blasted out from the other end. "F*ck! We're all fooled by that b*stard! He is not the new boss of the Genuine Care Medical Center. Just now, a man named Quinton Zhang, just made a statement and claimed that he is the actual boss of the Genuine Care Medical Center. William is just a person he used to confuse us and divert our attention. He says that he will sue us soon."

Rebecca gnashed her teeth. "We're here with both of them. We just found this out too. You're right! He's a dog who puts on a show! What should we do now?"

"We don't have time to deal with that b*stard now. Hurry up and get the money ready. We have to apologize to them before they sue us," said Fernando.

Rebecca hung up the phone and scowled at William.

All of them were fooled by him.

At this moment, William's lips curved into a smirk.

Melissa never let him down. She spread the news so quickly.

That so-called Quinton never existed.

The wrinkles on Yasmine's old face became much apparent. "Steven, Xena, how much money do you have in your companies that can be used now?"

Xena immediately answered, "I have around four million left."

Rebecca was delighted. "That's a lot, Xena! I don't know that you're so capable."

"Steven, what about you? Your company is doing better than Xena. I think you should have around five million yuan, right?" Yasmine asked.

Steven felt a rush of blood from his neck up to all his facial muscles.

Five million yuan?

Where could he get that much money?

He lowered his head and mumbled, "I only have two million..."

"What?" All the Bai family members looked at Steven in disbelief.

Their gaze made Steven so ashamed of himself that he dared not lift up his head.

"My goodness! You have to explain it to me! If you can't give me an acceptable explanation today, I will drive you out of the Bai family!" Yasmine was so furious that she picked up her walking stick and knocked on Steven's head.

Steven let out a groan. "Didn't I just sign a contract with the Rx Pharma before? I had spent a lot of money to get on good terms with them." He explained, feeling wronged and upset.

Fury roared through Yasmine at once. Her vision

turned blurry and she almost passed out. She hit Steven's head hard twice until it bled.

"You're such a disappointment! I have been wondering how you manage to secure these problematic orders from the Rx Pharma. It turned out that you were playing tricks. Now, we have lost the contract along with the money. You've even offended the Genuine Care Medical Center. You have brought disasters to the Bai family! I'm going to kill you!" Anger grew in Yasmine like a tumor.

All of them knew that there was no way they could turn back time.

The only way was to raise money.

"Who else here has some spare money?" Yasmine looked at Felicity.

Felicity bit her lower lips and muttered, "You all know how my company is doing. I can only take out one million yuan at most."

"One million, two million, four million. There are only seven million in total. We are still short of three million. I have one million in my private account. What about you guys?" Yasmine glanced at everyone present.

Everyone shelled out all the money they had. In the end, they only had nine million yuan at most. They still had to look for one million yuan.

Yasmine glowered at all the members of the Bai family. She was enraged and saddened by the fact

these people could never contribute much to the family.

Back then, they were a huge and prestigious family.

Everyone respected them.

However, at this moment, they had to resort to crowdfunding to cough up ten million yuan.

On top of that, they couldn't even fork out this sum of money.

What a bunch of useless trash!

Rebecca called Fernando and asked carefully if they could contribute nine million yuan only.

Without hesitation, Fernando rebuked, "Ten million yuan is the minimum. Besides, this is just a rough estimate of mine. They will definitely ask for more. It is going to be more than ten million."

Everyone in the Bai family looked at each other in dismay. Yasmine glanced at Felicity's wrist and asked, "Didn't you say that this bracelet is worth more than one million yuan?"

A wave of fury crashed through Felicity when she heard this. "Grandma! This is a gift from William for me!"

"C'mon Felicity! Don't you know what's happening right now? This is an extremely urgent situation. Do you still care who's the one who gives you that bracelet? Everyone should contribute to our family

at times like this!" Yasmine was being domineering again. Realizing Felicity trying to keep the bracelet to herself, Yasmine could not help but look at Felicity with disgust.

Felicity was furious. Before she roared back at Yasmine, she was stopped by William.

William's lips curled into a grin and said sarcastically, "Well, it's true that the bracelet is worth more than one million. But, unfortunately, it's broken now. It's not going to be worth that much."

All the people in the Bai family were dumbfounded.

Yes, the bracelet was broken.

"D*mn it! Fernando, you b*stard!"

He had ruined the last resort they were left with.

All the members of the Bai family went mad and reprimanded Fernando.

Xena glanced at William with a smirk. She did not expect that her brother-in-law was so good at roasting others.

Yasmine looked at Felicity, a hint of fierceness flashed across in her eyes.

"If that's the case, we could only do this now."

Yasmine then glanced at Rebecca and said, "Rebecca, sell the house that you're staying now. We need to get the money immediately."

Chapter 31

"What? Mom, you want me to sell the house? I can't do this. Where are we going to stay if we sell the house?" Rebecca rebuked.

All the Bai family members were stunned at this very moment.

Yasmine was truly merciless.

She looked at Rebecca and replied coldly, "Your house belongs to the Bai family. Our family is in trouble now and we need your house. Do you have a problem with that?"

"This house belongs to my father..." Felicity mumbled, her eyes turning moist.

The house was bought by her father back then.

Although it was only a house, it contained a lot of memories she cherished so much.

The memories of her father and she.

There were memories shared between William and she in this house too.

If the house was sold, then her home would be gone.

Rebecca's face blushed crimson as she stammered, "Mom, why do you want to sell our house? Why not..."

"Because you contribute the least. You guys are the ones who bring this upon our family! Do I have to make myself clearer? Can't I make a decision on such a trivial thing?" Yasmine roared.

Rebecca was at a loss of words, feeling disheartened.

No one in the Bai family dared to disobey Yasmine.

Selling this house...

She would not have to do this if it weren't for this b*stard!

Rebecca glared at William as if she was about to eat him alive.

Yasmine was pleased to see Felicity's teary eyes and her upset face.

Since Yasmine couldn't chase Felicity and William away, she decided to take away everything they received from the Bai family. One by one, she planned to snatch away every single asset they had.

In the Bai family, she was the one who made the decision and held the most power.

They would only hurt themselves if they wanted to go against her.

Felicity looked at William as if she was seeking help. However, he did not show any trace of emotions. She could not help but feel dejected.

"William, I'm sorry. I feel so sorry for you. You've suffered a lot for being with me," Felicity mumbled apologetically.

William shook his head and replied, "Don't mention it. It's just a house. We will have our own house in the future eventually."

The anger in Yasmine began to smolder again when she saw the two of them acting all lovey-dovey in front of her. "Contact the real estate agent immediately and sell this house!"

She glanced at Felicity and added, "I must get the money before today ends."

"What? Today? Mom, we probably won't be able to get a reasonable deal if we try to sell off the house by today. I don't know how low the price of this house will be..." Rebecca did not want to give in yet.

Yasmine sneered at Rebecca's reply.

"Hmph, so what?" Yasmine did not care about the price of this house at all.

What she wanted at the moment was not the one million yuan.

All she wanted was to see that b*stard and the b*tch become homeless and wander on the streets.

Yasmine said, "Steven, I'll give you a chance to redeem yourself. Make sure this is done right

away."

Steven was overjoyed when he saw that Yasmine still trusted him.

He glanced at William as if he was trying to provoke William before he turned around and left the house to make a phone call.

The house, which was worth two million yuan initially, was listed out by Steven at one million and five hundred thousand yuan.

Everyone in the Bai family sat still on their seats while staring at each other with their eyes wide open.

The Bai family was so heartless. Felicity couldn't help but tell William, "William, I don't know if I have made the correct decision to return to the Bai family..."

William rubbed Felicity's head and said dotingly, "It's okay. I will always be with you. I won't let you go without a roof over your head."

Rebecca glared at William and snorted, "Hmph, stop talking nonsense! We end up selling our house because of you! You're just a dog of our family!"

Felicity immediately replied, "Mom, why did you put the blame on William? Think about it, the whole thing has nothing to do with the Bai family. It was us who decided to stick our nose into it. It has nothing to do with William."

"Hmph, are you suggesting that I am the one who insists to act impetuously without listening to your advice? Do you want to replace me and be the head of this family?" Yasmine roared.

Felicity held her tongue instantly and lowered her head, her face like a wet weekend.

At this very moment, Steven's phone rang. Everyone's eyes were fixed on him.

He picked up the phone. When he heard what the man said on the other side of the phone, his face lit up at once.

The Bai family was elated. Did Steven receive some good news?

As expected, after Steven hung up the phone, he exclaimed excitedly, "Grandma, it's done! I've found a buyer who is willing to pay 1.5 million yuan immediately!"

Yasmine was so excited to receive this news.

To buy or sell a house was a huge event in one's life.

They were already mentally prepared that they might not be able to get this amount of money on this very day. However, it seemed that God had been helping them.

The house was sold at 1.5 million yuan. The buyer did not even negotiate with them nor ask for any bargain.

They really couldn't understand the world of the rich.

Yasmine couldn't help but say, "Steven, you've done a good job on this matter. You've proven yourself. That's great! How much money do we have now?"

Steven was so proud of himself after being approved and praised by Yasmine.

Felicity was dismayed to hear this news. She felt as if her heart was covered with a layer of frost.

The house that she stayed at for more than twenty years was sold...

At this moment, William grasped her wrist.

For some strange reason, the frost covering her heart was blown away by a wave of warmth from William's hand.

She found this warmth so familiar. It seemed that she had felt this warmth somewhere before...

"Don't worry. Trust me," William whispered softly.

All of a sudden, Steven exclaimed excitedly, "We have 9 million yuan. Now we have another 1.5 million yuan. Therefore, it will be 10.5 million yuan in total. We've enough money now."

Yasmine burst into laughter. "Haha! Ten million yuan is just a piece of cake for the Bai family! I'll give this extra 500,000 yuan as a reward to Steven for selling the house!"

Steven couldn't hold back his laughter. This money was practically a gift from heaven! This felt so good! It was true that every cloud had a silver lining.

Steven looked at William and thought, "Thank you so much, William!"

"You must be so dejected, right? Hahaha!"

Rebecca almost fainted after hearing this. "Mom! This money belongs to us! You should not show favoritism! Where are we going to stay in the future?"

Yasmine glanced at Rebecca indifferently and replied, "We will talk about this later. If you make the correct decision, the Bai family will never mistreat you. As for those who turn their back on us..." Yasmine looked at William intentionally and snorted, "Hmph!"

Everyone could tell who she was referring to.

Rebecca glared at William with an even more sinister look.

Yasmine asked Steven to take the property ownership certificate to the real estate agency as soon as possible. Besides, she also contacted Fernando before they sped to the Genuine Care Medical Center.

They requested to meet the new boss, Quinton.

However, the person who greeted them was

Melissa.

Melissa looked at them who were as bad as a bunch of scumbags and sneered, "I know the purpose of your visit. My boss has entrusted me to be the person-in-charge of the clinic at the time being."

"I see. Please show some mercy on us," Yasmine muttered.

"Well, all matters could be resolved with money. If you guys can present us with an acceptable amount of money, we will surely consider your request. Don't you think so?" Melissa grinned from ear to ear.

Everyone was dumbfounded.

As expected, they wanted money...

"Name your price. We are willing to pay it if you can let us off." Fernando wanted to settle this matter as soon as possible.

Melissa answered with a smile, "Great to hear that! Ten million yuan from the Lin family then."

It was within Fernando's expectation. He didn't even bother to bargain with her.

Melissa's answer brought a smile to Yasmine's lips. "Sure, ten million yuan. Rebecca, transfer the money now!"

However, at this very moment, Melissa's mouth curved into a menacing smirk.

12:10 

"As for the Bai family, we demand 10.5 million yuan."
