

Chapter 85

Felicity's heart skipped a beat.

She had long predicted that the Bai family would end up in this despairing state.

Earlier on, the Bai Family had been receiving and accepting countless deals and orders since the day Felicity became famous overnight in Qena City.

However, they had to pay deposits for all those orders in advance.

Moreover, the return was slow, and the profit could not cover the operational cost for this dealership this time.

"We still need 150 million yuan. What do you think we should do?" Yasmine asked, still staring at Felicity.

Steven took the cue and answered, "Grandma, since you've trusted me so much, I'll mortgage my house. I can also get at least a few million yuan."

Yasmine was very satisfied with Steven's response. She nodded and questioned, "How about the others?"

Everyone could tell that Steven must have discussed it with Yasmine before the meeting. They were just putting on a show.

Under Yasmine's pressure, some of the Bais did not have choice but replied, "Then let's mortgage our houses too..."

After that, they all looked at Felicity.

Steven commented scornfully, "It seems that someone is reluctant to make a contribution. Well, well. I guess she only wants to enjoy the glory and wealth of the Bai family. She never intends to share the burden with us."

Felicity suppressed her anger and said, "You already sold our house previously. Although I don't know why the buyer has yet to come to get the house, isn't our sacrifice enough for the Bai Family?"

"Hmph, do you really think so? Do you seriously think you've already done your very best? Don't you still have a villa?" Steven added.

Felicity's heart missed a beat!

Sure enough!

This group of people had been eyeing her house from the beginning!

William had put in so much effort in lending money to buy her that villa. It was her birthday gift, and also a wedding gift for her.

Didn't these people have any conscience at all?

Felicity's face turned red and hissed, "You're right, that villa is mine. But what will the mysterious

man who gave it to me think if he learns that you guys mortgage the villa? He will be enraged."

At this moment, she was ready to fight back!

She decided to use the mysterious man whom the Bai had been talking about to stop their daydream.

Everyone's face froze.

Yasmine pounded her fist on the table and stood up!

"You're threatening me!"

Felicity had already made up her mind. "Grandma, I can draft up a contract saying that you will be fully accountable if something goes wrong. If you dare to sign that contract, then I will not hesitate to sell the diamond necklace Old Master Hugo gave me and the Southern Sea Pearl from Mr. Harper! Oh ya, and the car too!"

Her words made everyone descend into deafening silence!

She just name-dropped some of the big shots in Qena City as her way to defense herself!

D*rn it!

Steven was so outraged that he stamped his feet. "Felicity Bai! You resent us, don't you? Grandma doesn't trust you with anything, so you're taking revenge on us, huh? You don't deserve to be a member of our family!"

However, Felicity continued righteously, "I resent you? I just want you to sign the contract. But, look how agitated you are! Or perhaps, you guys have been scheming it from the beginning? If anything weird happens, you all would push the blame on me, wouldn't you? Do you deserve to be in our family then?"

Her statement made sense and was indeed very reasonable. Everyone was speechless.

Xena was sitting beside Felicity. Seeing Felicity being under heavy fire once again, Xena could no longer hold it in. She interrupted, "Let's not talk about it anymore. We can't lay our finger on her belongings. Even if she sells off everything she has, we still can't get enough money out of it. We will have to find another way."

"Then tell me, what good idea do you have?" Steven shouted, making Xena the next target to chastise.

Xena was furious. Steven was indeed a useless man; he was practically a waste of space on earth.

He could not do anything right. All he had was a bad temper!

Xena frowned and pondered for a moment. Suddenly, an idea flashed through her mind!

"By the way, can't we borrow money from those groups that offer investment funds? The threshold

of those groups should be lower than that of the bank, right?" Xena said without hesitation. She had thought of someone.

Investment funds?

Everyone was stunned.

Then, a glimmer of hope shone in their eyes.

"Yes, we can find a company that can sponsor us. It doesn't matter if the interest is higher as long as we can make up enough profits to cover our previous orders. As for the Genuine Care Medical Center, we can try to negotiate a lower price..." Rebecca said excitedly.

Yasmine also did not expect that Xena would make such a workable suggestion. She thought for a while and said, "Do you know anyone that provides investment funds in Qena City?"

Xena said, "I met Baxter from North Wind Fund once—"

"Baxter? I know him very well! He's my drinking buddy. We grow up together!" Hearing this name, Steven immediately interjected her, afraid that Xena would take this chance to snatch the credit.

Xena frowned and wanted to say something, but she held back.

"Do you really know Baxter?" Yasmine's heart trembled.

"Yes! Not only do we know each other, but we are

also each other's good friend! Let me handle it! Moreover, I have already thought of a perfectly flawless plan. Grandma, just wait for me to bring back good news!" As he spoke, he took out his cell phone and walked out of the house to make a call. Everyone remained rooted on the spot. They did not know if Steven was going to play a trick, but he sounded so confident.

Xena was worried. She knew that Baxter just had a conflict with her brother-in-law that night.

Now that the Bai family was involved with Baxter again, was it truly a coincidence?

After more than an hour, Steven came back in high spirits and exclaimed proudly, "It's done! I've talked this through with Baxter! He's willing to lend us 20 million yuan! Here's the contract!"

As he spoke, he placed a loan contract on the table.

The crowd all gasped at the sight of it!

The ignorant, incompetent Steven had really accomplished this task!

However...

"The interest is a little high." Felicity couldn't help but say, "It's a lot higher than we see in the market."

Yasmin glared at Felicity and roared, "Shut up! What we need now is the money! We don't need to

consider the interest! If we are all as cowardly as you, how can we achieve great things like Steven? Steven, you've done a great job! I will remember your contribution today!"

Xena helped Felicity out again. "But we're still short of 100 million yuan."

All of a sudden, Steven laughed maniacally again.

"Didn't I say that I have a perfect plan? Since I got Baxter's loan contract, I'm already halfway there!"
