

The Charismatic Charlie Wade Chapter 2636

Chapter 2636

He never dreamed that none of his three sons actually belonged to him.

He couldn't help holding his face in pain: "I...what evil did I do? I...all my life is exhausted to raise sons and grandchildren for others... .."

After speaking, he completely collapsed and lay on the ground all of a sudden, crying loudly.

Pollard was also taken aback.

He always thought that Charlie was deliberately angry with the old man, but he didn't expect Charlie to become a revealer.

He hurriedly asked Charlie, "Charlie...this...what is going on..."

Charlie shrugged helplessly, "That's how it is. Judging from his face and hexagrams, he shouldn't have a son. In the end, he has three more. That's obviously wrong, but The case is solved now, he really does not have a son."

Pollard couldn't help asking, "Is it so accurate to see the truth? Isn't this amazing?"

Charlie stood up, and while pulling Pollard into the distance, he whispered: "Uncle, I actually teased him on purpose just now. I didn't expect that my crow's mouth was even right... .."

"Ah?!" Pollard said dumbfounded: "This... can this also be said?!"

Charlie smiled and said, "Did the blind cat hit a dead mouse! What's impossible."

Pollard asked again, "Then what do you say about the difficult things in the autumn?"

Charlie waved his hand: "It's all lies, so don't worry about it at all."

Pollard breathed a sigh of relief when he heard this.

He also discovered that the old fortune-telling man was indeed a big fool.

Therefore, the tension in his heart was immediately relieved a lot.

Charlie remembered the hexagram he had just made, and said to Pollard: "Uncle, if you have time in the afternoon, pay more attention to the news about the situation in Syria. Melba joined the government forces in military operations, so I believe their safety is also guaranteed. If there is an accident, there should be some relevant clues in the news."

Pollard nodded in agreement and said, "What you said makes sense, so I will pay more attention to the news. I have some good friends in the media, and they can speak well in major media companies. Several large media outlets should have war correspondents and news networks. I let them help me pay attention to first-hand information."

Charlie hurriedly said, "If you have any information, please tell me as soon as possible."

"Yeah, sure I will!"

Charlie checked the time and said: "Uncle, you can go back to school, I'm leaving too."

Pollard pointed to the old man lying on the ground crying in the distance, and said with some sympathy, "What about this old man?"

Charlie said helplessly, "I can't help it. He has no son in his life. I can't change him. Let him digest this matter slowly."

Pollard sighed helplessly, and said, "That's OK, then I'll leave first. We must keep in touch today. No matter who has any information, we will exchange it as soon as possible."

“No problem.”

Watching Pollard cross the road, Charlie couldn't help but sighed, and muttered sadly: “I think that Melba's accident is imminent and there is not much time left for her, but how can I save her? I don't know. Where exactly is she, I don't know how to go to Syria...”

“It is civil war in Syria! The situation is too turbulent. There is no direct flight to this country from any city in the country.”

“There are even messages on the Internet that the Syrian civil aviation system has long been completely stopped. Maybe I have to fly to a neighboring country first, and then find a way to enter the country by land...”

“In that case, the time spent on the road is at least 24 hours or more. If there is any danger, this time I will have no time to react...”

Chapter 2637

On the way to Shangri-La by taxi, Charlie was still worrying about Melba.

In order to prevent Melba from having the accident and no time to rush over, Charlie even wanted to set off now, but the situation in Syria was so special that he didn't know what way to go there.

When he thought that Issac had strong resources in all aspects, Charlie was ready to find him to come up with ideas.

It just so happened that he had to discuss with him how to deal with the Su family next?

After Charlie arrived at Shangri-La, he went directly to Issac's office.

At this time, in the Shangri-La Hotel, Zynn was still waiting for the opportunity to establish contact with Ito.

However, because he sneaked into Shangri-La quietly, so far he has stayed in the room and dared not show his head.

His wife Liona, eldest daughter Zhiyu, and illegitimate daughter Ruoli also live in this hotel.

It's just that none of these three parties knows, the other two are in the same building.

Charlie came all the way to Issac's office. As soon as they met, Issac hurriedly reported to him: "Master, you let me send someone to monitor the two men. My people have begun to watch them secretly. Let me tell you at once."

Charlie nodded, and said in a serious tone: "These two people were sent by the Su family, and I think they are likely to look for clues to find me, so you must keep an eye on them, and also keep an eye on the recent People who come to Aurous Hill."

As soon as Issac heard this, he immediately said with outrage: "Master, these two people dare to be against you. If you ask me, let's get them first and kill them!"

Charlie waved his hand and said faintly: "This old man and his grandson are supposed to be Feng Shui masters, and they still have some moral integrity. First, save their lives and see what they plan to do next.

Issac hurriedly said, "Okay, Master, I see."

Charlie nodded and asked him, "By the way, do you know anything about the situation in Syria?"

"Syria?!" Issac said embarrassingly, "Master, why do you suddenly care about this place where birds do not sh!t?"

Charlie chuckled and said, "I'll go where the birds don't poop."

"What?" Issac exclaimed and blurted out: "Master, you are not kidding me, are you going to Syria?"

Charlie nodded: "Yes, and maybe the sooner the better."

"This..." Issac thought for a while and blurted out: "The place is now under war, and the civil aviation system is not navigable... What are you going to do? If it doesn't matter, I still advise you not to go!"

Charlie said helplessly: “There are some unexpected emergencies, I have to go, and time is running out, please help me to find out if there is a more reliable route that can allow me, in the fastest time, All the way to Damascus, the capital of Syria.”

Chapter 2638

Upon hearing this, Issac no longer persuaded Charlie, but immediately took out his mobile phone and made several calls.

After the call, Issac said to Charlie: “Master, I consulted my friends and also inquired about some overseas channels. Now if you want to go to Syria, the more common route is to fly to Turkey or Iraq first and then from these two countries. Enter Syria by land.”

After speaking, Issac said again: “But what is more embarrassing is that Turkey is in the north of Syria and Iraq is in the east of Syria, but the capital of Syria, Damascus, is in the southwest of Syria. That is to say, whether it is from Iraq or Turkey. To reach Damascus one has to pass hundreds of kilometers of land.”

“Furthermore, the terrain in the Middle East is complex and the transportation is not very convenient. It takes at least 20 hours for this journey alone.”

Charlie frowned and said, “If I remember correctly, the west of Syria should be bordered by Lebanon? And the capitals of the two countries are very close. The straight-line distance is not even 100 kilometers, so fly to Lebanon first. Would it be easier to enter Syria from Lebanon?”

Issac nodded and said, “Master, I asked about this just now.”

“In theory, of course, Lebanon is closer to Damascus, but if civil aviation flies to Lebanon from the country, the route will pass through Syria.”

“Now the Syrian government forces and the opposition are fighting like rotten pears, and both sides have ground-to-air weapons. Therefore, the civil aviation of any country dare not fly into its airspace and avoids its airspace.”

“According to the route of civil aviation, once it has to bypass Syria, the flight distance will increase by nearly two thousand kilometers.”

“As a result, our business jets will not be able to fly in a single breath. We must find a stopover airport midway to refuel.”

“In this case, it will be necessary to coordinate the stopover and supply airports, and then take off after landing, refueling, and regular inspections. There will be a delay of one or two hours.”

“And when you arrived in Lebanon, there is still big trouble. Because it is too close to Syria, the border has been temporarily closed in order to avoid the war spill. If you want to travel from Lebanon to Syria, you can only sneak across the borderline...”

Charlie nodded, and said solemnly, “Even if you want to sneak across the border, a straight distance of less than 100 kilometers will save a lot of time.”

Issac hurriedly said: “Master, crossing the border is not a joke. Both countries are heavily guarded. In an extraordinary period, if someone illegally crosses the border, either party has the right to shoot directly. Moreover, now Syria is not only governed by the Syrian government forces but the opposition forces as well. The situation is too complicated and it is difficult to penetrate into it!”

Charlie waved his hand and said calmly, “This is actually not a problem. I have my own way to cross the border.”

With that, Charlie said a little annoyedly: “The most important thing is that the flight time is too long. It was originally necessary to fly for at least nine hours. If it takes a detour, it will take another two or three hours to fly. The key is There will be another stop in the middle, and another hour or two will be added. After this calculation, it will take at least thirteen or four hours to fly to Lebanon. It’s too long. The lives of people over there are too precious. I’m afraid things won’t last so long. time.....”

Issac also fell into deep thought. He pondered for a long time, and suddenly thought of something, and blurted out: “Master, at present, there is an only solution that will allow you to fly from Aurous Hill to Lebanon in four and a half hours! It’s just that I can’t do this plan, only you can try it yourself.”

Charlie hurriedly asked: “What plan?!”

Issac hurriedly reminded: “Master, do you remember that when you went to Changbai Mountain to ambush the eight heavenly kings in advance, I told you that your grandfather spent a lot of money on a Concorde airliner?”

“The flight speed of the Concorde is 2.5 times that of a civil aviation aircraft. Moreover, the Concorde that your grandpa bought has also been specially modified and upgraded, which reduces the carrying capacity and increases the fuel capacity of the aircraft. A single refueling can exceed Flying 10,000 kilometers at the speed of sound, there is no need to land and refuel in the middle. It will take you to Lebanon in more than four hours!

Chapter 2639

Concorde was once the only supersonic airliner in the world that was truly put into commercial operation.

For many young people, they may not know this aircraft at all, but they have to admit that this aircraft has written a strong fortune in the history of civil aviation.

Looking at the law of development of human science and technology over the past few decades, an interesting phenomenon will be discovered, that is, people have been relatively conservative in the development of science and technology in recent years.

However, during the Cold War from the 1960s to the 1980s, it was a golden age when human technology thrived and developed wildly and rapidly.

The people of that era showed unprecedented enthusiasm and radicalism in the field of science and technology.

In the era when the computing power of computers was not as good as the Cassidy Learning Machine, the Soviet Union sent astronauts to space and the United States sent astronauts to the moon.

Also in that era, people lost interest in ordinary subsonic civil aviation aircraft and began to step into the supersonic era with their heads high.

In 1975, the Concorde airliner that could reach twice the speed of sound was officially put into use. At that time, people had already enjoyed the supersonic airliner at 2,150 kilometers per hour.

Now, it takes nearly two hours to fly from Eastcliff to Aurous Hill, but if you take the Concorde, it only takes 25 minutes.

It is a pity that although this aircraft is extremely fast, its fuel economy is extremely poor, so with the arrival of the economic crisis and a serious flight accident, this aircraft withdrew from the civil aviation stage in 2003 and has since disappeared from the world.

Today, most people don't even remember the existence of this aircraft, but several of these aircraft have been well preserved.

And, without exception, all became the exclusive cars of the top rich.

Charlie's grandfather Zhongquan has one.

His Concorde airliner was bought and spent huge financial resources on transformation and maintenance. Up to now, it costs tens of millions of dollars in basic maintenance costs every year.

However, Zhongquan spent so much money on this plane, but it is difficult for him to fly once a year.

However, for the top big families, this kind of aircraft is equivalent to the nuclear weapons of a big country. It can be kept in storage at ordinary times and will not be used for several years or even decades, but once a major event requires it, it can be put into use immediately.

Therefore, Issac thought of this method. As long as Zhongquan is willing to lend this Concorde to Charlie, Charlie will be sent to Syria within four and a half hours, nothing to say!

However, Zhongquan valued this aircraft very much. He hadn't used it for anyone except himself. Even his children did not have the opportunity to use it.

And Issac was just a spokesperson for the Wade family in Aurous Hill. He couldn't even get in touch with Zhongquan directly, so Charlie could only talk to Zhongquan about this matter.

Charlie was instantly awakened by his words.

He couldn't hide his excitement and blurted out: "It's great! If there is a Concorde, you can save more than half of your time at once!"

As he said, he immediately took out his cell phone and said, "I will call him, and I will borrow this plane anyway!"

Issac said with some worry: "Master, it is said that your grandfather has very precious thoughts about this plane. He has never loaned it out or let anyone other than himself use it. I am now worried that he will not be willing to lend it to you."

Charlie said solemnly, "No matter what, please give a call first and try!"

After speaking, he hit his grandfather Zhongquan.

Chapter 2640

The phone rang only twice and was immediately connected.

Zhongquan asked happily, "Charlie, why did you remember calling grandpa today?"

Charlie went straight to the topic and said, "I have something I want to ask you for help."

Zhongquan said without hesitation: "Oh, what is there to be polite about you and grandpa? Just talk about anything, as long as grandpa can do it, it's absolutely unambiguous!"

Charlie said: "I'm in a hurry. I have to go to Lebanon immediately. I heard that you have a Concorde airliner. I want to borrow it."

“By Concord?” Zhongquan hesitated for a while. After a while, he smiled and said, “Charlie, in fact, if you want to borrow a private jet, grandpa has a very, very luxurious Boeing business jet. It only costs the internal modification. Hundreds of millions of dollars, it is not an exaggeration to say that it is a palace in the sky, or should I lend you that plane?”

Charlie said firmly: “No, I only borrow what I named.”

Zhongquan sighed and said, “Oh, that airplane is really too old. It was manufactured in 1985. To be honest, it’s a lot older than you. You know, the older the airplane, the less it will be its safety.”

Charlie didn’t expect Zhongquan to play around the bush with himself here, so he couldn’t help it. He blurted out, “You don’t want to lend me the Concorde, but at least you have to lend me a plane that allows me to do this. The plane flew from Aurous Hill to Lebanon in less than half an hour.”

“This...” Zhongquan said embarrassingly, “The requirement of four and a half hours is too high, can you be a little more relaxed...”

Charlie asked him back: “If I can borrow it, I can give me a good word. If I can’t, then I won’t be overwhelmed.”

Speaking of this, Charlie said coldly: “However, I may have to reconsider the ancestor worship ceremony. Besides. I think since even borrowing a plane is so troublesome to do such a small thing, I will no longer bother the Wade family in the future.”

When Zhongquan heard this, he gritted his teeth and said without hesitation: “Oh, Charlie, don’t be impulsive! Isn’t it just borrowing a plane? Grandpa lends it to you! I will ask the crew to prepare and fly directly to Aurous Hill! I have two sets of the crew on standby at the airport in two shifts, ready to take off at any time! Are you satisfied now?”

Charlie’s voice eased, and he said, “In this case, I won’t break my promise regarding the ancestor worship ceremony.”

Zhongquan breathed a sigh of relief and smiled: “Charlie, you often go home and have a look when you have time. I, your uncle, and your aunt miss you!”

Charlie agreed casually and said, "Okay, after the ancestor worship ceremony, I will visit you often."

Zhongquan hurriedly said, "That's good, that's good!"

After speaking, he asked again: "Charlie, what are you going to do in Lebanon? Do you need help from grandpa?"

Charlie thought of the question he had just talked with Issac, and asked: "I wonder if you can help me to clear the relationship so that I can leave for Lebanon and go to Syria?"

"Are you going to Syria?" Zhongquan asked in surprise, "There is a war going on over there. What are you going to do there?"

Charlie said calmly: "I have some personal affairs that I need to deal with."

Zhongquan thought for a while and said, "I have some contacts in Lebanon!"

"Well, I'll clear it up for you, and promise to help you get this done before you arrive in Lebanon."

"I guarantee that after you arrive in Lebanon, you can go directly to Syria."
