

Chapter 125

"Don't, don't don't don't, Mr. Ling, calm down your anger, I was wrong, can't I be wrong?" Huo Jianshan got up from the hospital bed in a panic and was about to get out of bed, but accidentally touched the wound.

"Oh!" Huo Jianshan hugged his crotch in pain, his legs softened, and he kneeled in front of Suzi and Joan involuntarily.

Joan sneered proudly: "Exemption."

Huo Jianshan: "..."

Watching Joan put his arms around Suzi, and walked out of the ward in a magnificent manner, Huo Jianshan violently beat the bed gang with hatred.

"I'm afraid of whom!"

All the brothers under his hand did not dare to say anything.

Huo Jianshan made his fortune from a side door, and there are indeed a lot of people on the road. I thought that in Nancheng, no one would dare to challenge him Huo Jianshan.

But he never thought that for a while, he was exiled by the illegitimate son of the Fu family, and Arron, who was not well-known, had given up most of his Huo Jianshan's property.

The reason why Arron did not fully annex Huo Jianshan, Arron said to him: "Huo Jianshan, I kept half of your family property to make you make money for me. Five years later, based on the industry you currently own, give me a translation. Five times the profit. Then I will collect the profit."

Huo Jianshan was furious, and a mouthful of old blood spewed out.

But he can only knock off his front teeth and swallow it in his stomach.

He is less cruel than Arron, and this shame can only be endured, but now even Arron's little cousin, Joan, came to him to shit on Huo Jianshan's head!

Tell him how to swallow this breath!

Picking up his cell phone, Huo Jianshan called Jarod: "Lao Lin! You gave me the idea for that little lady of Suzi! Not only did that little lady give me the root of my life, I still have it. Even if you offend Joan, you must think of a perfect solution for me!"

Jarod here was extremely shocked. This D*mn wicked barrier!

What a evil star!

"You can rest assured Huo Lao, I will give you a fair." Jarod said on the phone with fear and sincerity.

As soon as the thread was closed, Moira couldn't wait to ask him: "What? Huo Jianshan didn't succeed?"

Jarod: "That evil barrier hurt Huo Jianshan."

Moira: "..."

"What should I do now?" Lanita asked her father impatiently: "Huo Jianshan must be very annoyed by us. After all, Suzi was introduced to him by his mother. If Huo Jianshan's old immortal thing goes crazy, he will do everything. Of."

"You go to Arron." Jarod said to his daughter.

Lanita: "...". At this time, she didn't dare to go.

Even if she has the child in her belly as a bargaining chip, she dare not go.

Arron handled the funeral for his mother. All the dignitaries in the city went to the scene to express their condolences, but the Lin family was not qualified to be a director. As a quasi-in-law, as Arron's true father-in-law, Jarod called Arron in advance to express his condolences, but was Arron refused mercilessly.

How embarrassing Jarod must be.

At this moment, he let his daughter Lanita go again, how dare Lanita?

After Jarod whispered a few words in Lanita's ear, Lanita became scared and happy.

This afternoon, Lanita, who was dressed in black and especially Zhuang Su, came to Shanna's hall alone. When Arron saw her, he couldn't help frowning, and said impatiently, "Why are you here!"

Lanita's expression was very worried: "I... Fourth Young Master, you are in danger, I must tell you."

Chapter 126

Seeing Arron looking at her with a cold and gloomy expression, Lanita couldn't help showing aggrieved expression.

"Four young master, I was worried that you ran over in spite of your warning. I know that your mother's funeral is too big. I shouldn't bother her old man's undead, but Huo Jianshan..." Lanita said Half of it, half of it stayed.

Hearing Lanita's mention of Huo Jianshan, Arron's eyes changed extremely sharply.

It's Huo Jianshan again!

Before the death of his mother, Arron had seen Huo Jianshan and Suzi dragging him outside of his mother's hospital, and now it is Huo Jianshan again.

"Say!" Arron's tone was extremely cold.

"Can I say Suzi?" Lanita asked.

"Hmm!"

Lanita was overjoyed.

Mom and Dad were right. Now that Arron's mother has passed away, Arron no longer needs Suzi, so now is the time to slander Suzi in front of Arron.

Suzi, your death date has come!

Hehe.

"Before you never let me say it, and I dare not say that Suzi's life was chaotic when she was in college, my father controlled her and she refused to accept my father's discipline, saying that my father is not her father.

My father gave her more living expenses every month than he gave me, but she spent less than ten days before she was squandered, so she often hooked up with men outside during school.

That Huo Jianshan..."

After a pause, Lanita looked at Arron, and said cautiously: "Suzi is pregnant with Huo Jianshan's child. Because Huo Jianshan is declining now, she can't get any oil from Huo Jianshan, so she thought of dumping Huo Jianshan and stabbing Huo Jianshan. He was hurt. Now Huo Jianshan couldn't find Suzi because of his anger, so he called Shen's house.

Don't think that Suzi has Arron's protection now that she can ignore Huo Jianshan.

Huo Jianshan also said that if he is anxious, he..."

Having said this, Lanita stopped deliberately and stopped talking.

"Say!" Arron's eyes deepened a few more degrees.

"He said, he will clean up with you." Lanita carefully raised her eyes to look at Arron: "Four young masters...Huo Jianshan used to rely on the side door to start his business, and now your power is greater than his. Many, but if he secretly attacks you, I'm afraid you...you have to guard against him."

"Come to me just for this?" Arron looked up and down Lanita and asked.

Because Lanita didn't want to leave an unsightly impression on Arron, she deliberately dressed herself up when she went out, and because she felt that Arron's mother was going to die, she wore a black windbreaker to show her solemnity.

However, Arron could still see from her rosy lips, she put on heavy makeup, and the delicate yellow sweater under her coat, all of which enhanced her complexion.

However, in front of the undead, it looks so dazzling!

Lanita nodded shyly: "People are worried that you are in danger."

Speaking of this, Lanita thought that Arron would leave her behind and let her meet with the guests of condolence, so that the guests would know the identity of her Lanita, anyway, after the funeral, she and Arron must be handled. It's getting married.

Take this opportunity to make her public, how great!

However, Arron said coldly: "Go back!"

Lanita: "..."

"You are pregnant, and your fetal breath is unstable a few days ago, so you shouldn't come here!" Arron said to Lanita mercilessly.

He has no feelings for Lanita.
