Currently, Cynthia was so nervous she can sob. She incoherently briefed Alex on the scenario

.

Cynthia had adhered to Isla to the Harriet Gambling enterprise to fulfill up with Owen Donald. Owen was disturbed that Cynthia came with Isla.

She observed from a distance that a waitress had brought drinks to the area where Isla was and can not get into the space. The person guarding the door obtained the beverages, put a small blue pill right into one of the mixed drinks, and also gave it a mild shake.

It immediately struck her that the pill was most likely the like the one she had actually obtained for Isla formerly. That drink was also most likely intended for Isla.

Cynthia knew that she can not save Isla on her very own, so she did not act crazily and made believe that she had actually not seen anything. She after that swiftly went to the bathroom to call Alex's number ...

After she briefed Alex on the circumstance, she included, "Alex, hurry! Anything can happen at any moment now!".
