

Chapter 381

Otherwise you know the consequences! "

Linda's calf was weakened from fright. She cried and said, "Director, I...you asked me to take out one hundred thousand yuan at once. Where can I get it? My boyfriend just went with me. After breaking up, he won't provide living expenses, so I have to pay off my car loan and house loan. I don't have enough money to spend 20,000 yuan a month. Where can I save money."

The design director gave Linda an angry look.

Think about it if this matter is not resolved, the entire design department will be implicated. The designer sighed fiercely, then gave Linda a blank look, and then said to Suzi, "Suzi, last week. I'm wronged. In this way, Linda will give you 100,000 yuan, but Linda has no money to give you now. You have to go to the company with me. I personally go to the company's finance department and tell the finance department to pay 100,000 yuan first. Here you are. How is it?"

Suzi said calmly: "Yes."

She doesn't care.

As long as you can get the money decently.

It's not that she can't help in vain. It mainly depends on who to help.

She worked in this company for two days in total. During these two days, she was squeezed everywhere. Now she has been expelled. She wants to help the company solve problems, so naturally she has to be paid.

"Well, trouble you... think of a solution, how to solve it?" the director asked.

"Yeah! You should have said it now, how to solve it? Don't tell that you can't help it!" Linda said sharply to Suzi.

Everyone looked at Suzi.

Especially many people in the design department are thinking that if Suzi can't solve it, the people in the entire design department can strip Suzi alive!

Suzi smiled calmly and said: "This matter is very simple, as long as the hollow brick part is replaced with a solid bearing capacity, it can be more than half, so that the half of the fault can reduce the bearing capacity of the half. This is half the solution.

And the other half, as long as the wrong side is at a ninety-degree angle, and two fixed piles on both sides are added to strengthen it, it can be solved. "

This situation is generally not used on large construction sites, so the construction personnel on the large construction sites could not think of this, but now that there is a problem, they can only make up for it in this way. And Suzi spent six years in a small town like Quxian, where the miniature There are countless small buildings.

Where does the architect of the small building come from? They are built anytime, anywhere.

Basically, problems are solved at any time at any time, so in Suzi's view, this is not a problem at all.

However, if Suzi were to draw the design drawings, she would definitely think about it in advance because of her experience in this area and avoid it in advance.

In this way, the tricky things that made everyone are solved, let Suzi downplay it, and even the design director sighed.

The design director grabbed Suzi's hand and thanked him again and again: "Suzi, I really didn't see that your architectural accomplishments were so deep. It's because we have no eyes."

Suzi smiled calmly: "In fact, it's nothing. I just spent a long time on the construction site. I have more actual experience. That's it. The director, money..."

"Oh, money, come with me to the company to get it." The design director is thinking about how she can keep Suzi in the company.

After solving the problem, the group returned to the company again. This time, Suzi did not sit in the bus, but in the design director's private car.

As soon as he got off the car at the door of the company, a high-end sports car suddenly stopped in front of Suzi.

"Suzi, did your design department go to dinner together?" Lenny, who got off the bus, asked Suzi enthusiastically.

Chapter 382

At this moment when he saw Lenny, Suzi felt a little disgusted in his heart.

To put it bluntly, the reason why she has only worked here for two days, and she couldn't do the job, in fact, a large part of the reason is because of Lenny.

Had it not been for Lenny to be too enthusiastic about her, she would not have been jealous of her by the female staff of the company, and Rayna would not have been jealous enough to push her a broken chair.

Because of this Lenny, Suzi caused a lot of trouble.

In Suzi's eyes, Lenny is nothing more than the same as Joan six years ago. He is full of bloated intestines and aesthetic fatigue of playing with women. He suddenly came when he saw an honest and rustic man. Interest.

But Suzi will never be like six years ago.

She sees a man like Lenny, she is not surprised at all.

Therefore, at this moment, when Lenny was talking to Suzi, Suzi didn't want to care about Lenny at all.

She looked very cold towards Lenny.

The design director who was so cold that he got off the car kept reminding Suzi: "Suzi, Mr. Jun looks at you differently. This is a great opportunity. How many girls in the company want to have a meal with Mrs. Jun. Shao protects you in the company. No one will dare to give you half a finger in the future. Even if Rayna comes back to work in the future, as long as Mr. Jun covers you, Rayna will not dare to trouble you."

Suzi: "I have been fired from the company. I came here to get my one hundred thousand yuan reward."

Design Director: "..."

When she was about to persuade Suzi again, she saw that the five or six female designers in the design department who got off the bus behind her saw Lenny at the same time, and they all couldn't hold back their expressions.

"Ah, Master Jun, are you here waiting for our beautiful Linda? You know, you promised two weeks ago to invite our beautiful Linda to dinner, you haven't invited it yet.

Master Jun..."

"Sao Jun, do we have a share when we invite the beautiful lady Linda to dinner?"

"Young Master..."

Lenny looked at these vulgar fans impatiently.

He was disgusted by the smell of the inferior perfume.

It's better for Suzi. There is a faint, unpredictable taste on his body, but it is very comfortable and attentive.

It is a natural fragrance.

Where did Lenny know that the perfume on Suzi was specially customized for her by Arron. A small bottle of five milliliters costs more than 100,000 yuan.

Lenny could not see the female designers including Linda, and he looked at Suzi with a smile like a spring breeze: "Suzi, Rayna has been fired by me. In the future in this company, no one will harass you anymore. Now you should be very happy working in the company, right?"

Behind them, Linda and her female colleagues were stunned with jealousy!

They all looked at Suzi, only to see that Suzi's expression was still calm.

Suzi said mercilessly: "Master Jun, even if we don't know each other at all, I'm sorry, please don't harass me in the future, okay?"

Besides, I don't do this job anymore. I am here to get my compensation from the design director. I'm sorry, please let me. "

Lenny: "..."

Why is the taste of rejection so fragrant?

It was the first time that he was rejected so mercilessly by a girl. Every time in the past, whenever a woman saw him, she couldn't help but move forward. This was really the first time Lenny was rejected.

Lenny actually laughed.

He was about to go forward and talk to Suzi again. At this time, a person came out of the gate.

That person is Galia.
