

Chapter 4388

Everyone was instantly shocked by this shout,

And all of a sudden, everyone gathered around the hospital bed.

Nicolas's attending doctor spoke up at this time,

"We can't put on the defibrillator, in his current condition,"

"The defibrillator will only cause him to suffer harm for nothing before he goes,"

"His body has reached its limit"

That doctor saw the electrocardiogram almost close to pulling into a straight line,

And asked in a panic: "Doctor, really no resuscitation?"

The director looked at the old lady and said very seriously,

"Madam, if we still resuscitate the old man now, we can only delay it for a few seconds or even a few minutes at most,"

"Whether it is a defibrillator or chest compressions,"

"It will only make the old man's death more painful at the last moment.

The old lady nodded gently, wiped away her tears, and choked,

"You all go out, let me and the children stay with him for the rest of the day."

When these words came out, several children and grandchildren of the An family,

As well as a group of grandchildren, immediately bowed their heads and cried bitterly.

The director knew that the old lady had made up her mind and nodded slightly with great understanding,

Gave a nod to several medical staff around her,

And then said to the old lady, "Ma'am, we will go out first."

Seeing that the old man was nearing the end of his life,

Sara hurriedly said at this time, "Grandma, I have a medicine that might be able to save Grandpa's life... .."

The old lady gave a bitter smile and said gratefully,

"Good child, thank you, your grandfather really can't get over this hurdle this time,"

"No medicine can possibly save him, let him go quietly and peacefully."

Saying that, she added very seriously, "Good child, you are Charlie's fiancée,"

"In my eyes, you are my own family, if you are not afraid, stay here with grandma."

Sara hurriedly took out the Blood Dispersing Heart Saving Pill,

Given to her by Charlie and said very eagerly,

"Grandma, this medicine is Blood Dispersing Heart Saving Pill,"

"My father got it by chance when he was suffering from advanced pancreatic cancer,"

"He was completely cured after taking only one of this medicine,"

"There is still this last one left, he let me carry it around for emergencies,"

"This medicine is really very effective, you Let Grandpa try it!"

"Blood dispersing and heart saving pills?"

When the An family heard this, they couldn't help but look at each other.

In fact, except for the old lady and Marshal,

The rest of the An family did not believe that there was any magic pill.

Just now, Tianshi took out the Life-sustaining Pill that had been treasured for many years,

And everyone witnessed that this kind of pill really had little effect,

So at this time, Sara took out the Blood Dispersing and Heart Saving Pill,

And everyone naturally instinctively thought that this thing,

Like the Life Renewing Pill just now, would not have any substantial effect.

So, the old lady saw that Nicolas's breathing had become extremely weak,

And the ups and downs of his chest were barely visible, so she cried bitterly and politely declined,

"Child, you should keep this medicine for yourself."

Sara said anxiously, "Grandma, this medicine is really different from ordinary medicine,"

"My father was treated for pancreatic cancer in the United States,"

"Exhausted all the high-end medical means available,"

"But there was no effect, and finally this elixir saved him!"

Sara said, afraid that they would not believe, and hurriedly said:

"By the way, when my father was sick, many domestic media reported his affairs,"

"And even several unscrupulous media released fake news of my father's death,"

"And later he recovered, in the country, it triggered a lot of media attention and discussion,"

"If you do not believe, you can search online the related news, my father's name is Philip Gu!"
