

When His Eyes Opened by Simple Silence Chapter 1266

Elliot looked at her on the ground with an indifferent expression. His aloof and mighty appearance reminded her of the first time they met many years ago. At that time, he had just woken up from a vegetative state, and he had a cold and ruthless attitude towards everyone. Exactly the same as now.

Why does Elliot do this? Elliot treated Avery like a stranger who had nothing to do with him. No, he didn't treat her like a stranger. He took her as an enemy.

He thought she had caused everything he lost. He said he would make her pay a heavy price.

She was suddenly curious how he would make her pay a heavy price.

His cold gaze was withdrawn from her, his long legs moved away, and he passed by her, bringing a gust of wind.

The fanning night wind was like a slap on her cheek, Make her feel hot.

Avery thought sadly, if she was about to die now, She is afraid Elliot wouldn't look at her more.

After a while, the bodyguards came and helped Avery up from the ground.

"Boss! Why did you fall? you should have listened to Dr. Jenkins and won't let you come." The bodyguard picked her up and hugged her, "Didn't you agree with Elliot? I think he went to his new wife's side again. It's over."

Avery sighed in pain and cried in a hoarse voice: "Elliot seems to have changed..."

"It's like a man has a new love." The bodyguard hugged her and quickly left the Jobin's house, "I have to take you to the hospital first. Dr. Jenkins will definitely not let you come out again when he sees you like this."

"I don't understand...how could Elliot fall in love with another woman so quickly..." Avery said.

The bodyguard carried her to the car, fastened her seat belt, and shoved the tissue box into her hand.

"Boss, I think it's more important for you to get medical treatment now. You fell to the ground just now, can't you get up?" The bodyguard was very distressed when he remembered how she was helpless on the ground just now.

Elliot's heart is too cruel.

This chapter is provided by . Visit for daily update.

In order to show his loyalty to Kyrie, he even treated his ex-wife like this.

Avery had a splitting headache, not knowing whether it was because of her heartbreak or because of her illness. She hugged the tissue box and closed her eyes in tears.

Everything, everything was disrupted. She lost Elliot. Totally lost.

Even if she brought Shea to him, it wouldn't change the situation.

She and Elliot were completely dead.

Jobin family.

Kyrie was very satisfied with Elliot's performance tonight.

"Elliot, I read you right. You are indeed a person worthy of trust." Kyrie patted Elliot on the shoulder, "I am completely relieved that Rebecca will follow you in the future."

Elliot lit a cigarette, Between his fingers: "The surgery is really useful. I can't remember what happened with Avery. I have no interest in women now."

"That's how men should be focus on career." Kyrie took Elliot with him and walked towards the hall, "Your family is stable now and your health has recovered. I have an important job for you to do. As long as you do it well, I will slowly hand over the business to you in the future."

Elliot followed Kyrie and entered the golden hall.

.....

Hospital, inpatient department.

After Avery lay down on the hospital bed, she couldn't sleep.

Elliot's reaction tonight was too weird.

It didn't look like Elliot's being threatened anymore.

When His Eyes Opened by Simple Silence Chapter 1267

But Elliot has indeed changed. Become unfamiliar and cold-blooded. It doesn't make sense to reason with him, and he refuses to talk to him about old feelings.

Avery felt like a stone was blocked in her heart, heavy and painful.

Perhaps, letting go of obsessions is the only way out.

The next morning.

Avery decides to go to Bridgedale with Xander for surgery. It's not that surgery can only be performed in Bridgedale, but it is meaningless for her to stay in Yonroeville.

Elliot was determined to say goodbye to the past completely and start life anew. She stayed here just to get in his way.

When packing her luggage, Avery was holding a black notepad and was dazed. This was Elliot's thing and should be returned to him.

"It seems that the amnestic technique was really good. Elliot didn't remember his ex-wife at all. I heard that his ex-wife went to him last night, but she was overthrown by him..."

"Then don't our hospital want to It's on fire? After all, the vice president personally gave Elliot the chief knife." A conversation sounded into Avery's ears.

Avery was shocked and walked out the door immediately. She quickly caught up with the two nurses who were talking just now, and grabbed the arm of one of the nurses.

"What kind of amnesiac? How can there be an operation to clear memory in this world?" She exclaimed sharply, "Who is your vice president?"

The two nurses recognized Avery and panicked.

"Ms. Tate, haven't you been discharged from the hospital? Why haven't you left?"

"Yes, I do plan to leave the hospital. My friend has gone to help me with the discharge procedures." Avery took them both into her ward, "you guys tell me now, what happened to the amnestics? Why did Elliot do this surgery? Was he forced to do this surgery?"

"No! It was done voluntarily by Elliot. Ms. Tate, since you are his ex-wife, why don't you ask him in person?"

This chapter is provided by . Visit for daily update.

"Didn't you say that he did amnestics, and he didn't remember me at all." Avery wanted to cry, but the corners of her mouth twitched, "No wonder he seemed to be a different person last night. It was because of this."

“Ms. Tate, I know you are very injured now, but this operation was really done voluntarily by Elliot. He wants to forget you. So he did this operation. This operation can only be done in our hospital, because it is a brand-new technology developed by our vice president. I tell you this, I already know everything. Please don't trouble with our vice president.”

Facing the nurse's prayer, Avery suddenly released the nurse's arm. The two nurses ran away immediately.

After a while, Xander completed the discharge procedures and returned to the ward.

“Xander, I'm not out of the hospital. I have to stay here.” She looked apologetic.

Xander looked at a loss: “What happened? Why did you change your mind?”

Avery walked to the door of the ward and put the door closed.

“Have you heard of amnestics? I've never heard of it before, but today, I heard about it.” Avery told Xander what the nurse told her just now.

After hearing this, Xander was very surprised: “There is actually such an operation? I have never heard of it. Who researched it?”

“The vice president of this hospital. I will find a way to meet this vice president someday.”

Xander was amazed, “Take me with you when you meet vice president. It's amazing. Elliot had this operation, so he didn't remember you at all?”

Avery nodded: “If he still remembers me, he won't be so indifferent to me last night. Kyrie must have said a lot of bad things about me in front of him, so he now treats me as an enemy. If I don't care about him, he will definitely be turned into a puppet by Kyrie. I Don't let Kyrie's tricks succeed.”

Xander understood her feelings of wanting to save Elliot, but...

“You better do the surgery first. I'll make an appointment for the operating room.” Xander said back to business.

“No, if I do the operation now, it will take a long time to recover after the operation... I don't have that much time to delay.” She made a choice without thinking, “My tumor is not too big, and it can be done again. Delay for a while. I want to help Elliot recover his memory. When he recovers his memory, I will have an operation immediately.”

When His Eyes Opened by Simple Silence Chapter 1268

Xander frowned when he heard the words. As a doctor, the health of the patient comes first.

As an old classmate, Avery's condition is also on top of her relationship with Elliot.

Xander asked her, "What if it takes Elliot a long time to recover his memory? What if he can't recover his memory? Are you going to keep dragging it on? Your tumor is not big now, when it gets bigger, say It may deteriorate rapidly, and then..."

"I will review it regularly. Once the tumor gets bigger, I will immediately undergo surgery. Xander, I will not joke about my life." Avery looked at him and said, "Elliot has just performed amnestics, and now is the easiest time to awaken his memory. Give me a month first, let me try it."

"One month." Xander's Adam's apple rolled, "If after a month, he still doesn't have any feelings for you, then you must operate immediately."

"Okay." Avery thanked him very much for his understanding, "Xander, I can't delay you for so long. Go back to work first. I'll call you back when I decide to have an operation."

Xander shook his head: "I haven't been on vacation since I started working. Now I'll take my vacation from the past few years together. If I don't perform the operation for you, I will Don't worry. You are Professor Hough's most proud student. If something happens to you, Professor Hough will definitely be heartbroken. Although his old man has passed away, he has always lived in my heart."

Xander's remarks made Avery burst into tears.

"Xander, I owe you a favor. When you need me in the future, I will definitely be there."

"You are serious. If our identities change, you will also help me." Xander frowned, "I think you're a little irrational. Although Elliot has lost his memory now, he is healthy. It's the same if you go to him after the operation."

Avery shook her head: "it's different. It will take at least a month for me to recover from surgery. There are too many variables in this month. You don't know what kind of person Kyrie is. He asked Elliot to do this surgery, Just to turn Elliot into his pawn. I can't let Elliot fall into the quagmire."

After listening to her detailed explanation, Xander probably understood why she was so anxious to wake up Elliot's memory.

"Can you approach him now?" Xander asked.

“Difficult.” Avery lowered her eyes, but her eyes were firm, “but this matter can’t trouble me. As long as I want, I will definitely find a way to see him.”

Xander nodded: “I’ll wait for you. If you feel uncomfortable, you must tell me. I will find a way to see the vice president these days to see if there is a way to restore Elliot’s memory quickly.”

“Thank you, Xander.”

“You’re welcome.”

.....

Avonsville.

Ben Schaffer called Chad and Jun out to drink and relieve the boredom.

“Has Avery called you?” Ben Schaffer looked at Mike.

Originally, he didn’t call Mike, but Chad brought Mike here.

It’s like he didn’t call Tammy, but Jun’s general Tammy also brought him.

“Hit.” Mike shrugged, “Every time she glanced at Robert, asked about Hayden, and then hung up the video. She didn’t talk to me at all.”

“Did you ask her about Elliot?” Ben Schaffer still Concerned about the whereabouts of Elliot.

“I said it all, she doesn’t talk to me too much.” Mike said here, the conversation changed, “But I checked the news of Yonroeville every day, and finally found Elliot. He is not only alive, but also alive and well.”

Ben Schaffer pricked up his ears.

“He is married to Kyrie’s daughter Rebecca. I’ll ask you, are you awesome?” Mike poured a glass of wine and took a sip, “Avery refuses to come back, probably because he wants to win his heart. I think Avery was kicked by a donkey in the head, a sc*mbag like Elliot, what do you want him to do? Isn’t it dirty?”

When His Eyes Opened by Simple Silence Chapter 1269

Everyone was silent.

Only Tammy snorted coldly: “You men don’t have a good thing.”

Ben Schaffer was stimulated by this sentence: "It's boring for you to say that."

"I heard that you made Gwen's belly bigger and still Don't want to be responsible? Is there such a thing?" Tammy blocked his words, "I really sympathize with Gwen. Why did I meet you, a big sc*mbag?"

Jun bumped her with his elbow, Let her stop talking.

"Don't let people talk about it? Even if Elliot is here, I dare to call him a sc*mbag in front of him." Tammy came here today to vent Ben Schaffer.

"I didn't say I'm not responsible for Gwen. I went to her, and she said she found the man who took over. What the h-e-l-I can I say? Am I going to have a showdown with the pick-up man? It's ridiculous." Ben Schaffer held up wine glass, drink it up.

Chad immediately poured wine for him.

"Then you should reflect on it, why Gwen would rather live with the man than with you. It's not because of you." Tammy gave him a hard blow.

Ben Schaffer's eyes were scarlet, and he was scolded and dumbfounded.

Tammy said, "Although I haven't met Gwen, Avery told me that Gwen is a very poor girl. She has been neglected since she was a child and lacks love. Now as long as she is nice to her, she will be very obedient. You must be very bad to her."

Ben Schaffer said in a snarky manner: "How can you be good to her when you say that you are good to her? Marry her? I can't do it. She and I are like people from two worlds."

"Then why are you distressed? Just let Gwen and the man live together. You don't have to be responsible. After the child is born, it has nothing to do with you." Tammy blinked her apricot eyes, "Still, you don't want Gwen, but want a child?"

Ben Schaffer: "..."

Tammy: "Scmbag! Although Elliot is a scmbag, he didn't rob Avery for the child."

This chapter is provided by . Visit for daily update.

Ben Schaffer: "..."

Mike couldn't bear to see Ben Schaffer's face turning red: "Ben Schaffer, don't you really want a child?"

“Nonsense. Of course I want my own child. Don’t you want it when you have a child?” Ben Schaffer retorted.

Mike blinked innocently, “I won’t have a child. If you want a child, you can’t have a child’s mother, right?”

“I said, she has already found a pick-up man. I originally had a good discussion with her, but the discussion couldn’t go on.” Ben Schaffer picked up the wine glass and slammed the wine into his stomach.

It was the first time Ben Schaffer had encountered such a headache in all his years of life.

“If I told you that the man you were talking about was someone you knew…”

“Who?!” Ben Schaffer threw the wine glass down with a ‘bang’.

“The man lives in Avery’s house.” Mike’s reminder was clear enough!

“F*ck! She’s on good terms with Avery’s bodyguard?”

Everyone: “…”

“In your eyes, Hayden is not that man?” Mike saw him pitiful, so he pointed it out.

“You said that the man is Hayden?” Ben Schaffer’s face changed from purple to pale, and from pale to peach red, “Hayden wants to help her raise a child? How embarrassing is this? He is still a child himself.”
