

When His Eyes Opened by Simple Silence Chapter 1703

Hayden hung up the phone and looked up at the door of the operating room.

After Avery got off the plane, he went directly to the hospital and entered the operating room.

Her medical records were sent when she was in Aryadelle.

Everything here is ready, just waiting for her to come.

“Did Gwen call?” Mike asked.

Hayden: “Well.”

Mike walked to the bench and sat down, took out a box of chewing gum from his pocket, put two in his mouth, and then handed the box to Hayden.

“Why don’t you go back and rest first! I’ll just wait here.” Mike chewed his gum with a calm face, “Your mother will be fine. The doctor who operated on her is an expert ophthalmologist in Bridgedale.”

Hayden shook his head. He wanted to wait here for his mother’s operation to be over.

Mike looked at him, and said, “You have to report to the new school tomorrow. Do you want to go to school with two dark circles under your eyes? You signed a five-year contract with the school this time, and within five years, you cannot transfer schools.”

“Do you think it’s possible for my mother to be with that b*stard?” Hayden sat down beside Mike.

“I didn’t say anything about Elliot. Your mother said that when her eyes recover, she will still go back to Aryadelle. That’s her hometown, her best friends are there, she can’t live in Bridgedale. Even if you settle down, it’s only a short-term settlement.” Mike kept talking, the chewing gum in his mouth suddenly fell onto Hayden’s arm.

Mike was stunned.

Hayden was also stunned.

Before Hayden could react, Mike quickly picked up the chewing gum on his arm and put it back in his mouth.

Hayden: “...”

Mike was chewing gum with a smile on his lips, but he didn't dare to continue speaking.

Hayden glared at him with disgust, and then quickly walked to the bathroom.

Avery's surgery took two hours.

After the operation, she was sent to the ward.

Her eyes were wrapped in white gauze, she didn't speak, and she didn't know if she was awake.

Mike looked at the time and said to Hayden, "Go back first! Your mother doesn't know when she will wake up. When she wakes up, I'll call you. Go back to the room and rest."

After Hayden left, the attending doctor entered the ward, walked to the bedside, and asked Avery, "How are you feeling now? If it hurts very much, I can give you painkillers."

Mike was shocked: "Avery, are you Awake? I thought you weren't awake under anesthesia! You heard me talking to Hayden just now, why didn't you say anything?"

Avery: "I'm afraid that Hayden won't leave if I speak."

Mike: "Okay. Well, how are you feeling now?"

"It's okay. It hurts a bit, but it's acceptable." Avery couldn't sleep because of the pain, and she couldn't see anything now, which was a bad feeling.

But she has to get used to it.

Mike: "Then you have a good rest. I have something to call the nurse. I'll get off work first."

Avery: "Thank you."

Mike: "It's okay."

After the doctor left, Mike sat down in front of the hospital bed and asked her, "After this operation, you will be able to recover?"

When His Eyes Opened by Simple Silence Chapter 1704

Avery replied: "No."

"Why? Do you need another operation? Why is it so complicated? Is the doctor confident to cure your eyes?" Mike became anxious.

She thought she would recover after the operation. Unexpectedly, it can't be.

Avery said, "If the recovery is good after this operation, the cornea will be replaced later. After the cornea is replaced, the light can be restored. As long as there are no major problems with this operation, the subsequent operation will be very simple."

"Oh... cornea replacement... Where can I find corneas? Does the hospital have a cornea bank? Is there any specific requirements for corneal transplantation?"

"Mike, don't be nervous." Avery's tone was calm, "The hospital has a cornea bank. The doctor will help me find it. These are all trivial matters. Now wait for the operation to see how the recovery is going!"

"You will definitely recover very well." Mike encouraged her, "You can't see anything right now, aren't you scared? Don't worry, I'll stay by your side every step of the way."

"I asked you to hire a nurse for me, did you?" Avery asked.

It's inconvenient for Avery to do anything now, and since she and Mike are different from men and women, it's more convenient for her to ask a carer.

Mike: "Please, do I need to call the nurse now?"

"How much medicine do I have?" Avery is infusion now.

Mike: "There is still a small bottle."

"When the medicine is over, call the nurse in. The nurse will be with me. You can go back and rest." Avery said.

"What are you thinking. How can I trust a stranger to look at you? I must be here with you." Mike replied without hesitation.

Avery: "Hayden is at home alone, how can I rest assured?"

Mike reassured her, "There are bodyguards to accompany him. It really doesn't work, I'll hire another nanny to serve him. You can recuperate now and don't think about anything. And there's Layla, don't worry too much. Layla is almost ten years old, she should be stronger."

Avery pursed her lips and didn't answer.

For Layla and Robert, she is very apologetic. But now, she really can't take care of them.

Mike comforted her, "I asked Hayden to make a video call to Layla every day. If you want children, you can call them. When your illness is cured, you can go back to Aryadelle to take care of the children at any time. Elliot didn't say that you would not be allowed to take care of the children, right? "

Avery: "He's not so heartless."

Mike gave her a advice, "If Elliot doesn't show you Layla and Robert, you won't show him Hayden. Besides, he can control Robert now but can't control Layla."

"Don't think about it so much." Avery's eyes were particularly painful, and the wounds in the eyes involved the nerves in the whole head. I couldn't bear the pain if I didn't want to, and it would hurt even more if I wanted to be sad."

It felt like everyone was going to explode.

"Would you like a nurse to give you painkillers?" Mike asked.

"No need... just get over it after a while." Avery couldn't forget how Layla broke down and cried when she left.

No matter how painful Avery is now, she can't make up for the debt she owes to her daughter.

.....

Aryadelle.

Starry River Villa.

3:00 in the morning.

Elliot was not sleepy. He came out of the bedroom and walked towards his daughter's room.

Tonight, Mrs. Cooper took Robert to sleep in Layla's room.

He didn't need to worry about it at first, but he was thinking about his daughter, and he always felt that her daughter was too sad this time, and she might not be able to sleep well at night.

He pushed the door of the room lightly open –

only the orange warm light was on inside, and the sound of Layla's sobbing could be heard clearly.

Mrs. Cooper sat next to Layla and coaxed her in a low voice: "Your brother and I will accompany you, we will always be with you."

Elliot strode into the room and saw the antipyretic sticker on Layla's forehead, her brows taut. She frowned and asked, "Does Layla have a fever?"

Mrs. Cooper saw Elliot coming in and immediately replied, "Well, I took her temperature and it didn't exceed 38.5 C., so I just put a fever-reducing patch on her."

Layla saw Elliot, the switch of the lacrimal gland seemed to be turned off.

"I don't want you! Go away! You're a badss! You badss dad! I hate you!" Layla exclaimed suddenly.

Robert, who was on the bed next to him, was awakened instantly.

After Robert was woken up by the screams, he cried with a 'wow'.

In an instant, the cries were endless and deafening.

Mrs. Cooper looked embarrassed and didn't know whether to coax Robert or continue to coax Layla.

Elliot said to Mrs. Cooper, "Take Robert away. I'll talk to Layla."

Mrs. Cooper, "Okay...Sir, be patient, Layla is sick now..."

Elliot: "Yeah."

After Mrs. Cooper carried Robert away, who was crying, only Layla's cry was left in the room.

Layla cried so hard today that her voice was hoarse.

In addition, she was ill at the moment, and her face looked flushed, not only the skin on her face was red, but her eyes were also red.

Elliot stood in front of the bed and looked at his daughter helplessly: "Layla, I'm sorry. Dad didn't mean to separate you from your mother. Your mother insisted on divorce from me, I have no other choice."

"It's all yours. Wrong! You made a mistake and my mom divorced you!" Layla looked at him with broken eyes and shouted, "I hate you!"

After the last sentence, Layla coughed violently.

Elliot listened to her heavy breathing and felt that she might be seriously ill.

He reached out to touch Layla's forehead, but before he could touch her, she slapped his arm hard.

"Don't touch me!" Layla looked like an angry little lion. "If you don't give me back to my mother, I won't eat again! I'll starve to death!"

"Layla, dad will take you Hospital first. You have a bad burn."

When Elliot stretched his hand and patted her arm just now, he felt that his daughter's arm was hot.

"I want my mother! If you don't send me to my mother, let me die!" Layla hugged her little pillow and cried very sadly.

Elliot looked at his daughter's grievance and grief. His heart was as hard as a rock, but also softened.

"Okay, I'll call your mother. But don't cry yet." Elliot compromised.

Layla stopped crying immediately and looked at him with tears in her eyes.

Elliot went back to his room to get his phone.

Layla got out of bed quickly and followed him.

When Elliot arrived at the door of the master bedroom, Elliot heard a 'bang' behind him. He immediately turned around and saw Layla fell to the ground.

"Layla!" The blood in his body boiled violently.

He quickly picked up his daughter. Her hot body temperature seemed to burn at any moment.

He carried his daughter back to the room, called ambulance with his mobile phone, and then carried his daughter downstairs.

The ambulance came quickly.

After Elliot took his daughter to the ambulance, he turned on his mobile phone, found Avery's number, and dialed it.

His mental defenses collapsed. He wants custody of the child, the main purpose is to prevent Avery from leaving. But Avery would rather give up the custody of the child and leave now, he seems very passive.

Besides, Elliot didn't want to see his daughter in such pain. If his daughter is really on a hunger strike and is clamoring to go to Avery's side, he can only let go.

Elliot listened to the cold system prompt sound, and his mind went blank.
