Chapter 1283 Blood Poison

That day, however, he could not hurt Jared at all. In fact, he could not even break through Jared's Golem Body. "You can't even break my Divine Safeguard. How are you planning on killing me?" Jared scoffed coldly.

David gritted his teeth and screamed, causing a cloud of blood mist to form in the air. Quickly, the blood mist gathered in David's palms.

David's palms were blood-red as if he had just dipped his hands in a pool of blood.

That was David's ultimate skill—Bloody Hands.

David then jumped into the air and charged toward Jared.

Seeing that, Jared activated the Power of Dragons, and his palms started glowing.

No matter what, David was still a legendary Martial Arts Marquis. Since Jared had just achieved Martial Arts Marquis, he did not dare to underestimate David's ability.

"Sacred Light Fist!" Jared shouted, and a ray of light shot out from his palms.

The light was so bright that it could be compared to the brightness of sunlight.

Boom!

Upon impact, David stumbled a couple of steps backward.

Jared, on the other hand, remained still. In fact, he did not even shake.

Just like that, the gap of strengths between the both of them was exposed.

The crowd was staring at Jared in disbelief.

"Wow! Jared is scary!"

"He's still so young, yet he has the upper hand against a legendary Martial Arts Marquis! This is incredible!"

"Gifted! Jared is truly gifted!"

The crowd voiced their opinions. None of them expected Jared to dominate David completely.

Initially, they thought Jared and David were about the same strength, and they would witness the battle of the century.

In fact, they thought the battle would last over a hundred rounds.

However, as of the moment, they realized they were wrong.

David's expression turned grim. Based on that move, I can feel how much he has grown. His strength has possibly grown more than tenfolds!

Since Jared had broken through a level entirely, it was only normal for his strength to grow that fast.

Somewhere nearby, Skylar's expression also turned gloomy when he saw how David had been knocked back by Jared's move. When will I be as strong as Jared?

Right then, a hoarse and croaky voice rang out in Skylar's mind. This kid is gifted all right, but don't you worry. I'll make you gifted as well!

Upon hearing that voice in his mind, Skylar flashed a smile.

Although David was staring at Jared with a grim expression, he did not attack Jared. It was as if he was waiting for something to happen.

Seeing that David was not attacking, Jared decided to make his move.

The moment Jared moved, he felt something was wrong.

The golden scales on Jared's body were all turning red because of the blood mist.

At the same time, the blood mist had also invaded Jared's body, and his body was turning red as well.

Upon seeing that, the crowd was stunned.

Suddenly, David laughed and said, "Jared, you've indeed gotten stronger. However, I've used Blood Poison on you, and you're going to die soon!"

Apparently, the blood mist David summoned was poisonous. Although people were not allowed to use poison in a combat challenge, no one cared because it was life-or-death combat.

Jared stared daggers at David. He did not expect the latter would resort to using poison.

"Stop looking at me like that, will you? Weren't you very confident in yourself? Didn't you say I won't be able to kill you?" David was filled with satisfaction.

Jared did not say a word in response. Instead, he utilized Focus Technique and absorbed Blood Poison into his body.

When David saw Blood Poison getting absorbed into Jared's body, he secretly heaved a sigh of relief. Once Blood Poison gets into his body, not even God can save him!

However, what he did not know was that Jared had turned the Blood Poison into his own resource.

When he utilized Focus Technique on Blood Poison, it transformed into spiritual energy and was stored in Jared's elixir field.
