

Chapter 5278

Claire's head was as big as a bucket, and she quickly helped her up, and then whispered to the Buddha:

"Buddha, I'm sorry... I have no excuses, please forgive me..."

Saying that she hurriedly helped Elaine out.

Elaine had no choice but to follow Claire and limped out.

When her mother and son came outside the hall, Maria had disappeared. Elaine originally wanted to find her to quarrel with her,

But she looked around and saw no one, so she could only follow Claire. Out of the temple, ready to go down the mountain.

And when they started to go down the mountain, Maria appeared not far behind them again, silently watching their backs, and then looked at her mobile phone.

On the phone, there was the photo of Claire helping Elaine out of the gate of the temple, which was secretly taken by Maria hiding behind the crowd just now.

Later, she sent this photo to Ethan, and sent another message: "Mr. Sun, find a way to help me check this mother and daughter, I want all their information!"

Although the information about Claire and Elaine has not been encrypted, it is not easy for Ethan to find out all the identities of the two through a candid photo.

At the very least, it is still difficult to find out in a short time.

So, Ethan called Maria and reported on the phone: "Miss, do you have any other information about these two people? If you have other information, it will be relatively easier to investigate."

Maria thought for a while and said: "I don't have any information here. That girl may be Charlie's wife, but Charlie's information is encrypted. We don't know Charlie's current ID number."

Ethan replied: "Since Charlie's information is encrypted, we will use Charlie as the entry point, even if we call out all the relevant information about the woman who married Charlie, there won't be the person you are looking for."

Then, Ethan said: "But with the photo you sent, we can try to use the portrait comparison system to run first, but because the angles of the photos are not standard, so if you put them into the system for fuzzy comparison, at least

thousands of similar people will be found, and then you can manually compare the results.”

Maria thought of something and said: “Oh, by the way, although I don’t know the information about the two of them,”

“I heard them mention a woman named Horiyah. This young girl calls Horiyah her aunt. Horiyah must be there Over 50 years old;”

“In this way, you don’t need to look up the photos, first help me look up all the women in Aurous Hill named Horiyah who are over forty-five years old and under sixty-five years old.”

“Check the social relations of Horiyah to see if anyone can match these two people. One hand is probably enough for those who meet the requirements.”

“Okay!” Ethan said without hesitation: “Miss, don’t worry, I’ll arrange it now!”

Previously, Maria only gave Ethan photos of Claire and Elaine but did not have any other information, so it would take at least a few days or even dozens of days to find someone.

But with the clue of Horiyah, everything became much easier.

As Maria said, there are not many people with the surname Qian, and there are only more than thirty people whose first name is pronounced Horiyah in Aurous Hill. Moreover, the age span of these “Horiyah” ranges from a few years old to more than seventy years old.

Then filter out those who are not of the age required by Maria, and there are only four people who meet the requirements.

It is too simple to check the social relationship between these three people.

All of them are ordinary people without any hidden information. Just click on her social relationship in the system, and the system will immediately generate a tree table, listing and displaying all her three generations of blood relatives.

Since the young girl Maria wanted to investigate was called Aunt Horiyah, Ethan first looked at the blood relationship of the three Horiyah to see who had a brother-in-law, and there was a daughter in the family of the brother-in-law.

The first one, Horiyah, is sixty-two years old. Although she is already married and has raised two children, her husband has no younger brothers at home, only an older brother and a younger sister.

The second Horiyah, forty-nine years old, is already married and has a son. Although her husband has a younger brother, that younger brother has two sons and no daughter, so what Maria said the situation does not match.

The third Horiyah, fifty-five years old, married thirty-three years ago and gave birth to a pair of twin sons. The husband has two younger brothers, both of whom have daughters. Ethan obtained the information about the two daughters. After posting the message, he found that the photo did not match the one sent by Maria.

Then, the fourth Horiyah jumped into view.

This Horiyah, fifty-five years old this year, married a man named Noah Willson 31 years ago, gave birth to a son 30 years ago, and gave birth to a daughter 27 years ago.

And Noah has a younger brother named Jacob Willson.

Jacob married a woman named Elaine Ma twenty-nine years ago and gave birth to a daughter named Claire Willson twenty-eight years ago.

In this way, it is basically consistent with the names, age ranges, and kinships of the characters mentioned by Maria.

Afterward, Ethan checked the file information of Elaine and Claire, saw their ID photos, and compared them with the photos sent by Maria, he immediately confirmed that these two people were the ones Maria asked him to investigate.

When Maria returned to Zijin Villa, Ethan had already obtained all the information about these two people. When he saw Maria, he respectfully said: "Miss, it just so happened that you came back. I have checked the two people you asked me to check. The information is here."

Maria happily asked: "So fast? Show me!"

Ethan handed the phone to Maria with both hands, and said respectfully: "Miss, please take a look."

Maria glanced at Elaine's photo, this photo was left by Elaine when she changed her ID card a few years ago.

Although she is younger than now, her facial features have not changed much, so Maria recognized her at a glance,

And said with a smile: "That's right! That's the person I'm looking for."

Speaking, she didn't look at Elaine's information anymore but directly looked at Claire's column.

While looking at it, she said: "This shows that Claire is married. Can I use her to find information about her husband?"

"Yes." Ethan hurriedly said, "But I didn't call Claire's info just now. Wait a moment."

Maria handed back the phone to him, and Ethan inquired about Claire's spouse in that special software.

And this information is Charlie's identity in Aurous Hill.

Although his identity at this level has been encrypted, according to the logic of encryption,

Once someone checks him from Claire's level, the authority of this road is unblocked,

So Ethan can easily check Charlie's current level. information about identity.

And the reason why Leon left this channel after Charlie and Claire got married was that he was afraid that Claire would find something when they bought a house, got a loan, or carried out other social activities that required access to data files.

Moreover, Leon also believes that if someone wants to investigate Charlie and find out about Claire, there is no need to hide Charlie's identity in Aurous Hill, after all, Claire is his current identity if hides it deliberately, it will be self-defeating.

Maria looked at this piece of Charlie's identity information, and said excitedly: "The preliminary work of finding Charlie has been completed, I really didn't expect it to go so smoothly..."

After that, she couldn't help sighing: "The person who hides his identity is really smart, and his techniques are sophisticated and logical. After Charlie disappeared, he even arranged for him to enter the orphanage, and re-did the same for him on the collective account of the orphanage. A new identity!"

"He can make so many articles in the orphanage, which proves that the orphanage must be under his complete control, and it is very likely that all the staff of the orphanage are under his command!"

Maria sighed: "No wonder so many people started looking for Charlie from Aurous Hill, and they couldn't find him after twenty years of searching. It turns out that he has been hiding in Aurous Hill all the time! And he was perfectly hidden by a special orphanage. This method has flawlessly deceived everyone who wants to find Charlie!"

Ethan said with a smile: "Miss, this trader is indeed very powerful, but he still failed to deceive you! You have only come to Aurous Hill for only two days. Today, all the information you wanted to investigate is out, and with all due respect, I have never seen anyone smarter than you, Miss."

Maria shook her head and said seriously: "The reason why I can find Charlie quickly, my personal cleverness can only account for one-third at most, the other third is due to Charlie's misjudgment of me in Norway, and the remaining third is due to luck!"

"If I don't know who Charlie Wade's name is, if I only rely on one chance, I may not be able to find him in twenty years;"

"If I didn't come to Aurous Hill University on the first day, I just happened to see him I'm afraid I'll have to look for Claudia's identity information in Aurous Hill for a long time;"

"If I didn't happen to meet his wife and his mother-in-law today, I wouldn't be able to find out his current identity information so quickly... "
