I am a quadrillionaire chapter 2093-The dialogue between Azul and Eira immediately attracted the attention of David, Sid, Zenon, and others.

'What are they talking about?'

Before they could clarify, the Blue Light that enveloped Eira and her sisters began to change.

It was supposed to be treating their injuries, but now, the light was devouring and absorbing them. Meanwhile, the expressions of the four of them gradually became more and more pained, but they all endured it and did not make a sound.

The first thing to disappear was their skin, then their flesh, and finally their bones.

The whole process lasted only ten seconds.

The people who were still alive just now were completely gone, leaving only a pile of clothes.

'What...'

Such a terrifying scene sent chills down the spine of those who saw it.

Lorraine even covered her mouth with her hands, unable to believe her eyes.

This was too cruel.

They could only watch helplessly as the four living people were slowly devoured by the Blue Light.

Everyone here had killed, and some of them even had a lot of blood on their hands, including David.

He killed countless people, but it was still frightening to see this unknown and cruel technique.

David rejoiced in his heart.

Fortunately, he used his Divine Power to scatter the Blue Light that was wrapped around his left hand.

Otherwise, it might have even swallowed his left hand.

Of course, this was only a possibility.

After all, some parts of his body had transformed into the Divine body.

Since the Blue Light was afraid of the Divine Power, then the effect it would have on the Divine body would not be too great.

Everyone stared at the four balls of Blue Light.

After devouring the sisters, the four balls of Blue Light converged into a large group, disappeared, and flew towards Azul. The speed was so fast that it went in front of Azul in an instant and entered Azul's body.

Then, Azul's original seriously injured body changed slowly after the Blue Light entered his body.

His weak energy started to gradually strengthen as his injured internal organs also recovered rapidly.

Even his right arm which was cut off by David grew back very quickly.

His severely injured and broken body almost fully recovered in the blink of an eye.

Everyone present was stunned.

'What was that?

'It was simply amazing!

'It works far better than any miracle potion.'

Azul felt relieved temporarily when the injuries on his body healed by 70% to 80%. Then, he also breathed a sigh of relief.

After recovering, he finally regained some confidence.

Although he was still unable to fight against the four partial Pre-Deities, at least he was not helpless.

If he fought with everything he had, he could still make the enemy pay a heavy price.

The process from the Blue Light devouring and absorbing the four sisters, to Azul using the Blue Light to recover from physical injuries and grow a right hand, was very short.

Everything was done in about half a minute.

David witnessed the whole process.

He could have stopped it, but he did not.novelxo

He wanted to see what exactly Azul was trying to do.

Even if Azul returned to his prime, David could still kill him if he wanted to.

His three clones were not ordinary partial Pre-Deities, but three partial Pre-Deities that would risk their lives for David.

This meant that David's three clones were three partial PreDeity Rank death warriors who would only obey his every order.

What was this concept?
