I'm A Quadrillionaire chapter 1031

I'm A Quadrillionaire chapter 1031

According to Mia's inquiries and understandings, this chamber of commerce was already at a dead-end. It was about to run out of business, so it needed to be transferred away.

The price was definitely inflated. If David wanted to take over, he should be able to lower the price.

David's enthusiasm instantly dropped by half. He thought about it and decided not to ask for a lower price.

'Whatever, 200 billion is fine.

'It'll still be 2000 lavish points. I'll just get it first.

'At least I can break through the Celestial level and raise my mind power to Celestial level 10.

My combat power can reach partial Infinity Rank with my body and mind at Celestial level 10.

'It'll be enough for the time being.

After this thing on Plane Boundless is over, I'll go to the prosperous area of the Milky Way and continue to have Mia keep an eye out for other chambers of commerce.

David was not interested in other businesses.

After all, the increase in his lavish points would be too slow.

This was a drop in the bucket to his requirements right now, which measured in the tens of thousand. He would easily spend hundreds of billions, or even trillions of Galaxy Dollars, buying a chamber of commerce. This was what David needed.

He had to persist in buying chambers of commerce.

Unfortunately, no one would sell a well-run chamber of commerce.

Hence, David needed to pick the poorly managed chambers of commerce and buy them at a premium.

Their business was not good anyway, and they could not make any money. So, David did not believe that they would not sell their chambers of commerce to a spendthrift like him.

A chamber of commerce would cost two or three hundred billion.

Wouldn't it cost him two or three trillion to buy ten? David had determined the following plan in his mind.

"Mia, please finalize the matter regarding the chamber of commerce as soon as possible. There is no need to lower the price. Just buy it at 200 billion Galaxy Dollars. We can't leave Planet Boundless for the time being, so you

can ask your family to get in touch with the seller. After the finalization, I will directly transfer the money," David

said.

"Master David, are you in such a hurry?" Mia asked.

"Yes, I'm in a hurry! I urgently need to make some achievements for some people to see, so I have to speed up. After all, many people are waiting to see me make a fool of myself," David explained.

"Master David, we can actually lower the price. The other party is almost out of business, so they are anxious to sell. I estimate that we can reduce the price by at least one-tenth, and save 20 billion Galaxy Dollars," Mia said.

"No need! It's not easy for the sellers as well. This amount of money is nothing to me. We're doing business, so it's fine as long as everyone can accept the price. Just buy it directly according to the other party's quotation," David refused.

What a joke. He would not even get 2000 lavish points if they lowered the price by one-tenth.

Wouldn't he need to postpone his breakthrough to partial Infinity Rank?

This was absolutely impossible.

"Then... Alright, I'll do it right now."

Mia left after speaking.

Although she had many questions in her mind, she did not think it was appropriate to ask. After all, everyone had their secrets.

David obviously did not want to tell her yet, so she would forget it and do what David asked.

'I guess he really doesn't care about money.'

Now, Mia was even more curious about David's identity.

I'm A Quadrillionaire chapter 1032

Three days later.

Mia finally finalized the purchase of the chamber of commerce.

She asked her family member to contact the seller before finalizing it.

After all, it involved a transaction involving 200 billion Galaxy Dollars, so not only did she have to be responsible for David, but she also needed to be responsible for herself.

David successfully paid 200 billion Galaxy Dollars and got 2000 lavish points.

His mind power immediately broke through to Celestial level 10.

After a slight headache, David felt refreshed.

David shook his head and opened his system panel.

[Host: David Lidell

[Balance: 9999491025000000 (Galaxy Dollars)

[Body: Celestial level 10 (+)

(Mind: Celestial level 10 (+)

[Combat: Partial Infinity Rank

(Combat Skills: Void Punch (Entry Level +), Air Crushing Slap (Entry Level+), Evil-Splitting Sword Technique Entry Level+)

(Skills: Ancient Traditional Medicine (Expert+)

[Lavish Points: 182)

With his body and mind in level 10, David's combat power reached partial Infinity Rank.

Despite this, it would be a little challenging if he wanted to continue to go pass this level and reach Infinity Rank.

It would require 10000 lavish points just to break through.

Besides, David only had 182 lavish points left, which was far from enough.

However, with his combat power at partial Infinity Rank, as long as he did not encounter any grandmasters or giants of the major forces, David would be unbeatable.

The eight prominent families were not his opponents at all, as long as their grandmasters did not come out. Next, David waited for Princess Astrid and the Sangruil Sinners to show up. He wanted to resolve the battle quickly, take Mia from Planet Boundless, and head to the most prosperous part of the Milky Way so he could continue looking for a poorly managed chamber of commerce.

His time was still very tight. Grandmaster Tuffin's

Infinity Rank combat power was like a knife hanging over David's head, which may fall at any time.

Only by resolving the issue with Tuffin family and keeping the Earth in an absolutely safe environment could David be free to stir up waves in the Milky Way.

Outside Planet Boundless.

Princess Astrid and the others finally arrived after taking an alternative route for the previous days.

Right now, they looked battered and exhausted.

Emerald was supporting Ms. Madrigal.

If one looked closely, one would notice that Ms. Madrigal's arm was broken.

Yesterday, they were caught up by one of the Sangruil Sinners.

The Sangruil Sinner who caught up with them was a mid Cosmos Ranker.

He might have seen that the person with the highest combat power among them was only a beginner Cosmos Rank, so he did not notify the others. Instead, he tried to take

down the three himself. Even though Ms. Madrigal was just a beginner Cosmos Ranker, she had all kinds of life-saving trump cards the emperor had gifted to Princess Astrid.

After some intense battle, she finally killed the Sangruil Sinner, who was at mid-Cosmos Rank, by catching him off guard.

Because of this, Ms. Madrigal ended up breaking one of her arms and was severely injured.

They won, but Princess Astrid's heart felt heavy.

This was because she heard from the Sangruil Sinner that they came prepared this time. To prevent any accidents, they even sent a Celestial Ranker to catch her.

Furthermore, her father's support would only arrive a few days later.

Even if they arrived on Planet Boundless...

I'm A Quadrillionaire chapter 1033

Could anyone here fight a Celestial Ranker?

"There is no way.

Astrid shook her head.

The Boundless Region was nothing but a slightly backward region.

They would not have a Celestial Ranker in charge of it.

Furthermore, the Sangruil Sinner passed the news to his companions before he died.

Astrid believed it would not be long before the Celestial Rank Sangruil Sinner caught up with them.

At that time, all of Planet Boundless would be implicated.

It's possible the countless human beings who lived there would be mercilessly killed by Sangruil Sinners because of her arrival.

“Your Royal Highness, we’re finally here on Planet Boundless. We are saved!” Emerald said with a smile, supporting Ms. Madrigal.

The three of them would have been captured by the Sangruil Sinners if it was not for the princess’ life-saving trump card passed to her by the emperor a day ago.

The princess might have been captured alive and used to threaten the emperor, but Ms. Madrigal and Emerald would surely die.

Now, they had finally arrived at the location designated by the emperor.

Emerald and Ms. Madrigal smiled.

Astrid looked at the huge planet with an alluring asteroid belt not far away.

Countless human beings were living there.

Now, those people would all face annihilation because of her arrival.

As Princess Astrid of the Milky Way Empire, Astrid could not be so selfish.

“Your Royal Highness, let’s go! Let’s descend quickly.”

Emerald supported Ms. Madrigal as she prepared to enter Planet Boundless.

“Emerald, I can’t,” Astrid said, shaking her head.

“Why?” Emerald was obviously taken aback and asked in confusion.

“I can’t escape this time. The Sangruil Sinners are obviously prepared, and no one in the Boundless Region can resist a Celestial Ranker. I will only cause disaster to the people on Planet Boundless. As the Milky Way

Empire’s princess, I can’t be so selfish. You should go down with Ms. Madrigal, and I will divert those Sangruil Sinners away,” Astrid said calmly.

“Your Royal Highness, don’t do anything stupid. His Majesty arranged for us to go to Planet Boundless, so we have no choice but to go there so that the people sent by the emperor can find us,” Ms. Madrigal said weakly.

“Ms. Madrigal, don’t deceive yourself. The people my father sent will not arrive so quickly, and the Sangruil Sinners will soon catch up with us. Also, my father’s trump cards can’t deal with a Celestial Ranker. These Sangruil Sinners have already factored everything in their plans. So, I can’t escape this disaster,” Astrid sighed.

“But... But...”

Emerald wanted to say something to persuade the princess, but she could not find anything to say. “Emerald, take Ms. Madrigal down now. I’ll wait for them here, and then lead them away, so you’ll be safe.”

“Your Royal Highness, His Majesty sent me to protect you. If you don’t leave, I will not leave either. Worse comes to worst, we’ll just die together,” Ms. Madrigal said.

“Ms. Madrigal, those Sangruil Sinners only wants to capture me alive, and then use me to threaten the father. So, they won’t kill me if I still have value. However, you’re different. You’ll surely die once they catch you. Go

now!” Astrid urged. She was saying that to persuade Ms. Madrigal and Emerald to leave.

To be frank, Astrid was prepared.

She would not let the Sangruil Sinners get a chance to threaten her father.

If she could not escape, she would kill herself and not put her father in a difficult position.

“Your Royal Highness, we will not leave you here. If you don’t come with us, then we’ll stay here with you. We’ll face this together,” Ms. Madrigal said.

It was not that she did not want to go, it was because she could not.

If the emperor looked into this in the future, her entire family would be wiped out.

“Yes, Your Royal Highness. I won’t leave if you don’t. We grew up together, and you’re like my sister. Plus, you’re also my only family member. I’ll stay here and face whatever problem there is alongside you,” Emerald cried.

She was not the same as Ms. Madrigal.

She was an orphan and grew up with the princess, so the two were very close.

Emerald would not hesitate to sacrifice herself if she could potentially save the princess.

I’m A Quadrillionaire chapter 1034

Astrid did not try to persuade them any further.

She knew that neither of them would leave her behind.

Since the three of them could not escape, they could only wait here for the arrival of the Sangruil Sinners.

Otherwise, those guys would definitely think they were hiding in Planet Boundless, and would then attack Planet Boundless.

At that time, the people on Planet Boundless would be implicated.

Therefore, they could only wait for the Sangruil Sinners to come before they continued to escape. Then, they would try to lead the Sangruil Sinners away from Planet Boundless.

Burke did not know that Princess Astrid had arrived outside of Planet Boundless.

Right now, he was busy laying out various defense systems.

Although these defense systems were useless against the Celestial Rank member of the Sangruil Sinners, they were better than nothing!

Burke was now clutching at anything he could.

He was trying to gamble to the best of his ability.

David was still leisurely resting his eyes while lying on a chair in his courtyard.

'It's been several days.

'Why isn't Princess Astrid here yet?

'Was she captured on her way here? 'If she was, then why am I still wasting my precious time here on Planet Boundless?

'It's none of my business if she was captured while on her way here.

The emperor of the Milky Way Empire should not hold us accountable for that.'

David was going to wait another day.

If Princess Astrid still did not come, he would ask Burke tomorrow. If Princess Astrid was captured midway through her journey, then he would take Mia away from Planet Boundless.

After half a day of waiting, Astrid and the others saw more than ten lights moving toward them at lightspeed outside Planet Boundless.

"They're here," Astrid muttered after seeing that.

Ms. Madrigal and Emerald also spotted them.

At this moment, they were feeling nervous.

There was no escaping fate.

"Ms. Madrigal, Emerald, let's go."

After Astrid said that, she walked next to the two and smashed a glass ball in her hand.

A light shield appeared and covered the three of them.

They were about to leave in another direction to lead the Sangruil Sinners away from Planet Boundless.

However, before they could do anything, a black-robed man appeared in another direction and blocked them.

This person was hidden under a wide black robe.

Not only was his face hidden, but the robe also hid his limbs.

Astrid and the rest were shocked.

They were blocked.

"You're Princess Astrid from the Milky Way Empire, right?" The black-robed man asked.

His voice sounded very unpleasant, and it sounded like nails on a chalkboard to Astrid.

However, Astrid still answered, "Yes, that's me."

"Good. Follow us," the black-robed man continued.

"Sure, but you have to let Ms. Madrigal and Emerald go first," Astrid said. "Your Royal Highness, we won't leave!" Ms. Madrigal and Emerald said at the same time.

"You don't have the right to discuss terms with me now."

“If you want to capture me alive, you must let them go. If not, I’ll kill myself right before you,” Astrid threatened.

“Tch tch tch, what an unyielding lass. As expected of Princess Astrid of the Milky Way Empire, daughter of Emperor Nimbus. Unfortunately, you’ve threatened the wrong person. If you dare to kill yourself, I’ll give them a fate worse than death, and then I’ll destroy the planet in front of you so that everyone will die because of you,” the black-robed man said with a chuckle.

However, his chuckle sent a shiver down their backs.

“Really? You have to think carefully. If I die here, your mission will fail. When that happens, you won’t be able to make it up no matter how many people you kill. Your master will not forgive you. Do you think you can handle the consequences of your failure?” Astrid said, not affected by the threat at all.

The black-robed man did not say anything. Instead, he stayed silent for a while.

At this moment, dozens of bright lights also arrived, all dressed in black robes.
