

I'm A Quadrillionaire Chapter 1109

Chapter 1109 "David, we promised Her Royal Highness that we'd go see her in Planet Royal. You can't go without me. Won't this make me look bad?" Mia said, feeling aggrieved. "Mia, I will take care of something and then drop by to see Her Royal Highness. I am not going there intentionally to visit her," David explained.

"I don't care. You have to take me to Planet Royal. If not, Her Royal Highness will say I am not a woman of my words."

Two days passed.

An Octagon left Blue Star.

Ultimately, David could not win against Mia and agreed to take her with him. In those two days, Mia had arranged everything for her family. At the same time, she told the empire that they started a new chamber of commerce named East League Chamber of Commerce. Then, they would merge the previously purchased chamber of commerce with this one.

The Concord family would be very busy during this period. However, they were happy to live this busy life. David did not care about the specific procedure. He was not concerned about that. As long as he got the lavish points, nothing else mattered. On the Octagon. "Where are we going, David?" Mia asked happily. She would be in a good mood as long as she could stay with David. "We're going to the Tuffin family, one of the eight prominent families," David answered. "The Tuffin family? Why?" Mia asked in confusion. "I have a grudge against them, and I'm going to get rid of them." "Huh? You have a grudge against them? How big is this grudge? I heard they're going to drop, out of the eight prominent families. However, their grandmaster is still around so no one dares to provoke them." "It's a huge one. One of us has to die."

"What? D—David, you're not joking, are you?" Mia asked in shock.

This was the Tuffin family, one of the eight prominent families! Even if they were going downhill now, not everyone could afford to provoke them. Plus, the most important factor to consider was their grandmaster. He was one of the giants in the Milky Way, and an Infinity Ranker.

Although David was also strong, those two had such a huge age difference between them. Mia did not think David had the power to fight a giant like that. "Do you think I would joke about this? Mia, you don't have to go if you are scared. I'll send you to Planet Royal before I go to the Tuffin family. What do you think?" David said.

He was not bothered about this.

He did not care about the Tuffin family anymore.

However, Mia came from a small family, so it was normal for her to be scared of a big family like the Tuffin family.

However, David infuriated Mia by saying that. “David, are you looking down on me? Even though I am weak in my background and strength, I am not scared of death. I might have faced a fate worse than death if it weren’t for you. So, I will go with you. Worse comes to worst I’d just die. Plus, from what I know about you, you would never do anything you’re not confident in,” Mia said seriously.

David shook his hands and explained, “Don’t misunderstand me. I didn’t mean that. It’s just that it might get gory and violent. I’m worried you’d be scared, so that’s why I wanted to send you to Planet Royal.”

“I’m not scared.”

“Let’s go then.”

“David, the Tuffin family was at a temporary deficit in manpower or resources. Soon, they will be replaced by the Dallarosa family and lose their place among the eight prominent families. However, Grandmaster Tuffin is the tricky one. After all, he’s one of the giants of the Milky Way, and he became famous very long ago. He should be thousands of years old now.”

“Do you know much about Grandmaster Tuffin?” David asked.

“No. He’s always in seclusion, and it’s been a long time since news about him had come out. However, anyone who can be a giant in the Milky Way will at least be an Infinity Ranker.”

David knew this.

Next, Mia used her connections and contacted the people she knew to help David understand the Tuffin family’s strength from all angles.

I’m A Quadrillionaire Chapter 1110

Chapter 1110

over Mis had announced that she would withdraw from the four fairies, and she stopped accepting invitations.

Right now, a lot of them would first ask her about this.

After they got confirmation from her, most of the men would stop paying attention to her. They said she was nuts and must be confused. How could she withdraw from the four fairies for a man? They said she had broken their hearts before hanging up their communication devices.

Only some women would give Mia their blessings and continue to talk to her. David saw all of this.

Honestly, with his current strength, he would not need to know this. All crafty plots and machinations were nothing to absolute power.

The Tuffin family or Grandmaster Tuffin would not be able to handle David's attack.

However, David did not stop Mia. After all, she was doing this out of kindness. Only by doing this could Mia feel like she was helping David, and she could show her value. If David rejected this, Mia would feel useless.

Hence, David decided to let her do her thing. After asking around, Mia finally got a piece of important information about the Tuffin family. Mia spent a lot of effort to get this piece of information from a trust fund kid who admired her.

The Dallarosa family would take action against the Tuffin family soon, and they would kick the Tuffin family out of the eight prominent families. They had eyed this position for too long.

Then, Mia did more research after she got this piece of information, and it seemed to be true. "David, what should we do now?"

Mia looked at David and asked him after she had made sure the Dallarosa family would take action.

"It's fine. It's their business if they want to take action against the Tuffin family. We don't have to worry about that. We can just go straight to the Tuffin family," David said indifferently.

"David, I think we should wait for a bit. Amazingly, we have the Dallarosa family to test the waters for us. There will be a fierce battle between the two families when the time comes. Regardless of who wins or if both sides lose, it will be the best time for us to take action against the Tuffin family," Mia advised. "But how long do we have to wait? We don't have time. The Dallarosa family has been eyeing that position for so long. Who knows when they will actually do it? What should we do if they're waiting until the day

Grandmaster Tuffin dies? I don't have so much time to waste," David said while shaking his head.

"I don't think it will take long. From what I know, the Dallarosa family will take action in these few days. Why don't we wait and see? It'll take us a few days to go there anyway." "Alright, we'll decide when we get there." "David, may I ask if you have a way to defeat Grandmaster Tuffin? He's an Infinity Ranker," Mia asked curiously.

She was indeed very curious.

On the surface, David seemed unbothered by the Tuffin family.

However, Grandmaster Tuffin was still alive and well. There had been no news of his death.

If not, how would David stand a chance?

The Dallarosa family would not wait to wipe out the Tuffin family if this was true.

None of the giants of the Milky Way was easygoing. If not, the Dallarosa family would not have endured their position for so many years.

"Of course, I have a plan," David answered calmly.

It was just an Infinity Ranker, and David was not at all bothered by him.

Before going to Blue Star, David was apprehensive. Back then, he was just a partial Infinity Ranker.

However, he had a transformation during those days in Blue Star.

Mia looked at David in admiration.

No matter what David had in mind that made him look down on such a person, he was already ranked among the top in the Milky Way to Mia. Moreover, David was so young. She had such a good eye. No matter what, she had to stay with David. If not, she would not meet someone as good as him ever again if she missed out on him.
