I am a quadrillionaire chapter 2131-“Who are you? Why did you sneak up on me? Is there any beef between us?” Beanie asked, staring at the masked man in black who had snuck up on her.

The person being questioned did not say anything. However, Linus said with a smile, “Beanie, how can you ask this kind of question? I really wonder how you got to this position in the Nacht family. There is one thing in the world that drives people’s hearts more than hatred, and that is interest. As long as there are enough interests, a husband can be separated from his wife, brothers can turn against each other, and father and son can even become enemies.”

‘You have to be alive to enjoy the benefits!’ Beanie replied coldly.

“Are we going to die? Beanie, I’m afraid you don’t understand the current situation! Listen to me, don’t even think about leaving this place today. I have long wanted to touch your attractive body. Hahaha!” Linus laughed lewdly after he finished speaking.

He had his eye on Beanie since a long time ago.

It could be said that many men around Nightingale City had their eyes on this flirtatious woman.

However, no one had succeeded so far.

Since he was about to be the first, Linus felt excited just thinking about it.

It was a pity that he had to kill such a beautiful woman after he enjoyed her.

This was an order from his family, so Linus could only execute it.

Otherwise, he would have liked to imprison Beanie so she would be his slave that he could enjoy whenever he wanted.

“Linus, you must be dreaming!” Beanie was furious at Linus’ words.

“Beanie, let me tell you the truth! Do you think that you can hide from everyone by sending the Silver Flood Dragon away first? How naive! Don’t you know that everything is under the control of the Chez family? Accept your fate! This is just an appetizer. The main dish will be served soon.”

Beanie’s heart sank when she heard this.

Sure enough, the Chez family had planned this long ago.

She had no idea how the two elders were doing.

Judging by Linus's triumphant look, everything was pointing to disaster.

This time, the Nacht family had completely miscalculated.

They never expected that the Chez family would dare to unite with other forces to attack the Nacht family.

"Linus, what exactly do you want?" Beanie asked through gritted teeth.

"What do I want? Of course, I want your body first, and then... your life!"

After Linus finished speaking, he moved his feet and rushed toward Beanie.

He would take her life while she had her guard down.

His task was to kill all the people sent by the Nacht family and weaken the family.

No one would be allowed to escape.

The masked men in black standing with Linus also followed.

Beanie suffered an attack just now and she was injured.

If the two took action together, they could easily defeat Beanie.

However, since they had not enjoyed Beanie's body, which was the dream of countless men, they would not let this stunning woman die too soon.

Beanie watched the two charging at her quickly. She knew this would end badly for her, so she grabbed the shoulders of Nas and Nivia beside her, pulled them back, and rushed forward.

At the same time, she shouted, "Nas, Niv, run! Run as far as you can! I will try my best to hold them back to buy time for you. Go back and tell the family that this is the Chez family's dpomg. Tell them to look out for the Chez family and avenge me."

Nas and Nivia were caught off guard when Beanie pulled them back, so they staggered and fell to the ground.

Upon hearing Beanie's voice, they got up and ran without thinking too much.

The two knew that Aunt Beanie would fight desperately to buy them time.

If they did not run, the Nacht family would be wiped out.

When the time came, the Nacht family would not be able to find the murderer even if they wanted to take revenge.

Now, they had to inform the everyone of the Chez family's ambitions to the family so that the family was prepared and not be caught off guard by a sudden attack.

Linus and the masked man in black rushed over while Beanie ran over to them.

Seeing that the three of them were about to collide and start a life-and- death battle.

Two grain-sized stones reached Linus and the masked man in black at a speed that was indistinguishable to the naked eye and penetrated their shoulders without the two of them even noticing
