

## **Sign In To Become a God**

### **#Chapter 14: Yangzhou City - Read Sign In To Become a God Chapter 14: Yangzhou City**

Before June 1st, Wang Yi finally persuaded his parents to leave at six o'clock early on June 1.

Under the instruction of his parents, he walked out of the house and took the subway train in the city. It took more than two hours to go from Jiujiang City to the center of Yangzhou City.

As for why I went to Yangzhou City Hall instead of Jiujiang City Hall, I was of course to meet the legendary npc chief instructor Wutong, and then to see if I could check in something good at this special place, and I went to Luofeng to see how the plot progressed. Which step.

Although he usually communicates with Luo Feng through the Internet, it is not as convenient as in reality to understand the situation.

'Assessment for Quasi-Martial Artists' are generally only conducted on the first of each month.

The 'Warrior's actual combat assessment' is held on February 1st and August 1st every year, which is equivalent to being held once every six months.

Only by passing the 'quasi-warrior assessment' and the 'warrior actual combat assessment' can you be regarded as a real 'warrior'!

Yangzhou City.

"This is Yangzhou City, and Luo Feng's home is also in the Yi'an District of Yangzhou City." Wang Yi thought, looking at the more crowded and bustling streets than Guqing District. "According to the original plot, Luo Feng will be fainted on the last day of the college entrance examination for about a week, and then he will truly awaken his mental power."

To be honest, Wang Yi still admires Luo Feng's mental power.

When Wang Yi thought of this, a thought suddenly appeared in his heart.

Would you like to visit Luo Feng's house and sign in?

Maybe you can sign Luo Feng's mental power.

Wang Yi felt excited when he thought about this.

In the original work, Luo Feng has the talent of the number one spiritual teacher among the people of the earth, and his brain width reaches '21', which is stronger than the strong one of the first spiritual teacher among the earth people, 1st.

The intelligent life 'Babata' from the spacecraft of the 'Meteor Star' that crashed onto the earth from the universe also received Luo Feng as the 'Heir of Meteorite' because of this.

Although Wang Yi didn't have the idea of seizing opportunities with Luo Feng.

But it would be great if you could sign the mental power talent of "Luo Feng".

After all, this sign-in is actually equivalent to 'copy'. It does not mean that Wang Yi's sign-in is gone.

However, there is no need to go to Luo Feng's house in a hurry. Now let's pass the 'quasi-warrior assessment' first.

Wang Yi suppressed his excitement and walked towards the center of the city.

The Yangzhou City Hall of the Xtreme Martial Arts Center is located in the "Mingyue Community", which is also called the Wuzhe Community. Only when you become a martial artist can you have your own house in the community. A single-family villa was allocated separately.

Looking at the quiet environment of the community and the exquisite villas outside the community, Wang Yi was a little greedy, thinking silently in his heart. "I'll be able to move in soon." Wang Yi actually wanted his family to move to Mingyue Community in Yangzhou City. Although Jiujiang City also has its own Wuzhe Community, it is impossible to be a neighbor with Luo Feng, the protagonist of the original novel!

Wang Yi was reluctant to let go of the opportunity to get in with Luo Feng, and even secretly gave Luo Feng a lot of ideas to chase Xu Xin.

It is very easy to draw the friendship between men in chasing girls.

Although Wang Yi is still blank in this respect, he can check the information, and then package himself as a love expert, with a set of different things in his mouth, so that Luo Feng, the first brother in love, and the boy Lengtou can be taken aback. I was stunned, but I didn't know if Luo Feng did what he said.

But I guess Luo Feng's character and sense of responsibility would not easily fall in love in high school for the sake of his family and the college entrance examination.

When Wang Yi, who was unfamiliar in appearance, walked over, the line of soldiers guarding the main entrance with guns looked over at the same time.

One of the soldiers stepped forward and shouted: "This is the Wuzhe Community, this gentleman, please stay away from the yellow line."

Wang Yi knew that these soldiers were all well-trained, and they were all real guys in their hands. If anyone dares to provoke, the guys in their hands don't recognize people.

"I am a senior student in the Extreme Martial Arts Gym. I am here to participate in the quasi-martial examination on the 1st of each month." Wang Yi stopped outside the yellow line to explain.

The soldiers did not relax their guards. The soldier who spoke first looked at Wang Yi and said, "You wait a moment." Then he walked quickly to the guard lounge at the back, and soon, a gray-haired old man walked from inside. Coming out, rubbing his eyes, and yawning again, he looked at Wang Yi who was standing outside the gate of the community and smiled. "Here is another one. The young people are here quite early now. Show me your ID card and senior student ID."

Wang Yi took out his student ID and ID card and handed it to the old man, thinking to himself that this is the old npc janitor who appeared in most of the devouring starry sky fan novels.

But compared with the elite NPC "Wutong" of the chief instructor of the Yangzhou City Guild Hall, this old janitor seems unknown.

Wu Tong, the protagonist of flowing water. This is not fake.

Unexpectedly, I also have the treatment of the protagonist now, Wang Yi sighed in his heart.

He looked at the grizzly old man who was checking his information with his handheld computer in front of him, and he thought to himself, this old man has worked so hard, and I have to give him his name.

"May I ask the old man's last name?" Wang Yi asked politely.

The gray old man raised his eyelids and glanced at Wang Yi. It seemed that because he had a better attitude, his old face also showed a smile. "My last name is Zhang, you can call me Lao Zhang, or Uncle Zhang will do."

Wang Yi gave a thumbs up. "Father, you are really strong."

Lao Zhang was a bit inexplicable. He thought this young man was a bit too familiar, but he smiled when he saw Wang Yi's pleasing to the eye.

"Huh? Eighteen years old?" Lao Zhang also saw the identity information displayed on the computer, and was a little surprised. "You are pretty good young man. You dare to come to participate in the quasi-martial examination at the age of 18. I hope you can pass it."

"Okay, the identity information matches, you can go in." The old man waved his hand, and the guard soldiers immediately put away their guns, and the electric sliding door of the community opened automatically.

"Uncle Zhang, we'll see you later." Wang Yi waved to Lao Zhang before being taken into the community by a soldier.

Lao Zhang watched Wang Yi being taken in by the soldiers, and muttered, "This young man seems to have a good personality and looks good. He dare to come to participate in the quasi-war fighters assessment at such a young age and has a promising future... It's a pity that my granddaughter is still too young. Otherwise, I'll introduce him... well, the difference between the age of thirteen and the age of eighteen doesn't seem to be very big."

Not to mention that Lao Zhang was thinking wildly, Wang Yi followed the soldier in charge of leading the way into the Mingyue community, looking at the beautiful and peaceful scenery of the community, and looking at the single-family villas hidden in the trees, full of expectation in his heart.

"Immediately, our family can move in soon."

"My sister's home conditions are not very good, so I can improve it when the time comes."

"You can also pay back money from relatives and friends."

"Mom, Dad doesn't have to work so hard anymore."

Wang Yi's heart was ups and downs, and many thoughts came to mind.  
hope.  
eager.

This is the foundation of human nature and the driving force for continuous progress.

Soon, the soldiers and Wang Yi led the way to a building in the middle of the community. UU reading [www.uukanshu.com](http://www.uukanshu.com)

The soldier stopped and said politely to Wang Yi: "Sir, inside is the Extreme Hall. As long as you go in, someone will help you with the next assessment process."

"Thank you." Wang Yi said, watching the soldier turn and leave, he strode into this legendary hall.

Well, Wang Yi suddenly felt a sense of witnessing history in his heart.

"Speaking of which, Luo Feng estimates that he won't come over to participate in the quasi-martialist assessment until July 1. I have already stepped ahead of him."

Wang Yi felt a little regretful.

After all, he originally wanted to join Luo Feng to participate in the quasi-war fighter assessment, and by the way, he would get closer.

Although Wang Yi has been in this world for many years, nothing has changed. After all, he didn't have any gold fingers before. He was just an ordinary person with the original memory of this world.

So Luo Hua's leg is still broken, and Luo Feng's family has been sad for a long time because of this.

Wang Yi couldn't help it, and he was too young at that time, a child, what can you expect him to do.

In fact, Luo Hua's broken leg is also one of Luo Feng's driving forces, but this motivation is only for Luo Feng, and it is really hard to say for Luo Hua.

Because of this, he was still discriminated against and looked down upon him. He pointed out and talked about a girlfriend, but was opposed and accused by the other's parents. Finally, he couldn't bear to commit suicide by jumping into the lake.

"Forget it, this is the private matter of Luo Feng's family, let them solve it by themselves." Wang Yi was too lazy to think. Anyway, Luo Hua finally came to the end of the hardship, and he could be regarded as the pinnacle of his life.

But these two brothers are both dedicated enough. No matter how much they achieve in the future, there is only one wife, and their descendants are full of the Milky Way.

"I don't know if there will be another day in the future."

Wang Yi thought about it, and walked into the hall of the hall.
