I am a quadrillionaire chapter 2287-The Elven Forest in the level 9 civilization Leila.

This was where all the Elves lived.

Elven Queen Isa and Elven Princess Evie had returned.

They were much faster than David and others that traveled in carriages.

After they returned to the Elven Forest, Isa began to deal with various affairs accumulated during this period.

Evie was taken for education by the elders of the Elves.

She sneaked into The Spirit Cage, causing a sensation in the Elf clan and making the elders of the Elves very angry.

They thought their education for the Elven Princess after so many years had failed and now, they had to do it all over again.

Although Evie did not want to go, there was no other way. The elders had high prestige among the Elves and all of them had served as the Elven Queen before.

Evie had to go even if she did not want to.

In the face of these respected, but stubborn, old women, even Elven Queen Isa had no choice.

After finishing her affairs, she started to inquire about David. However, despite utilizing all the connections of the Elves and mobilizing every possible force, David's specific identity could not be confirmed.

It was evident that this young man, with his remarkable soul power, had concealed himself deeply.

It must be that David's allies did not wish for his premature exposure.

Since it was impossible to confirm, Isa stopped wasting time and went to find Evie, who was being lectured.

When Evie saw her mother, she had a sad face.

“What? Are you having a hard time?” Isa sounded like she was gloating.

“Mother, I don’t want to stay here. I want to go back with you.” Evie said sadly.

“Don’t even think about it. Stay here obediently for a while, and when the elders’ anger has dissipated, I will come to put in a few good words for you. I can’t save you now.” Isa rejected Evie’s request without hesitation.

“My ears are so tired after listening to them for so many years. Yet, it still doesn’t work, no?”

“It doesn’t matter if you think it’s useless. It’s good enough as long as they think it’s useful. When you get older, you have to find something to do, right? Otherwise, you’ll be bored every day.”

“Mother, since you didn’t come to take me away, why are you here?” Evie said angrily, puffing her cheeks.

“Nothing, I just wanted to ask you about David.”

“Master David?”

“Yes. Tell me about David’s deeds. The more detailed, the better. You have been together for so long, you should have a certain understanding of him, right?” Isa asked.

“Of course, I do! Mother, Master David is a very good person. He is not at all the same as those disgusting men you speak of...”

When she spoke about David, Evie chattered happily like a magpie.

She kept saying how great David was and did not say anything to belittle him.

Throughout, Isa did not interrupt.

She also wanted to know everything about David, so she did not want to miss any detail.

Someone destined to become the overlord of Leila in the future deserved the attention of Isa, the Elven Queen.

When Evie finished, Isa spoke.

“Evie, I can tell you like David very much.”

“Ah? N-No way! M-Mother, you... you misunderstood,” Evie stammered.

David was the one who rescued her from her predicament. He was handsome, friendly, and strong. It would be impossible if Evie did not have a fondness for him.

Evie was still a little shy after being told so by her mother.

Furthermore, as the Elven Princess, she had to accept the inheritance and become Elven Queen.
