I am a quadrillionaire chapter 2300-Blue looked at Sid, who was quiet all this while, coldly.

Sid only felt the pressure on his body increasing sharply, and just as he was about to speak...

“Pfft!”

He vomited a mouthful of blood.

His body flew backward and hit the wall.

“Bang!”

Sid immediately collapsed on the ground.

The inheritance of divine power caused him to lose his combat power.

He struggled to stand but could not.

Slightly raising his head to look at Blue who was standing there without any movement, Sid’s eyes were filled with fear.

This was his first time experiencing how powerful the Divine Realm was.

It was indeed something that the Saint Realm could not stand up against.

Both parties were incomparable.

He did not even see Blue’s movements and he already lost his combat power.

It was total suppression.

Even if Zenon did not submit and all six of them were together, it would be pointless to fight.

The battle took place out of nowhere.

Before the others could understand what had happened, Sid was already done for.

All of them stared at the scene in front of them blankly.

'Is this the capability of a Divine Realm master?'

In just a moment, a late Sacred Saint lost his combat effectiveness.

It was indeed terrifying!

Luckily they managed to speak beforehand.

Otherwise, the one that was on the ground would be them.

Looking at Sid who was struggling to stand up, Zenon felt happy in his heart for some reason.

'Weren't you feeling prestigious earlier?'

'Aren't you David's spokesperson?'

'Why don't you call him to save you now?'

'That kid is probably hiding in some corner of the Star Kingdom now!'

'How can a partial Divine Realm compare to Master Blue?'

In fact, Blue wanted to show his dominance as well by

making a move on Sid.

He needed someone who knew about every secret of the Star Kingdom to stay.

The rest could just go to hell.

It was just a matter of time anyway.

The Star Kingdom seemed to be doing well for now.

There should be plenty of resources and was worthy enough for the Feather family to send someone over to take over.

All of the Saint Realm population would be cleaned up by then.

They would not allow the Star Kingdom to have even a bit of possibility to resist.

The ones ranked below the Saint Realm could be kept as they did not impose any threat.

Zenon did not know what Blue was thinking.

If he did, he would be able to be happy.

He thought that he would be able to become a true Divine Realm master by following the Feather family.

Yet he did not know that Blue had no intentions of letting them go.

He was only keeping them solely to retrieve all the necessary information he needed.

“Others have declared their allegiance to my Feather family, why don’t you speak up? Are you trying to lead the Star Kingdom to resist until the end? Or are you looking down on the Feather family and thinking that your Master David is stronger? Do you think that I won’t kill you?” Blue looked at Sid lying on the ground and asked.

Sid did not answer and continued to struggle.

After tremendous effort, he finally managed to sit up and leaned against the wall behind him.

The hit did not cause any damage to him.

It was the Divine Power that inherited his body which caused damage to Sid’s combat effectiveness.

Saint Power against the Divine Power was like a three-year- old kid facing an adult.
