I am a quadrillionaire chapter 2311-Star Kingdom.

The Iridescent Sect.

Inside David's tightly closed secret room, time passed by the seconds.

Seeing that David showed no sign of waking up, Nova was about to have a nervous breakdown.

A Deity was waiting outside.

If David did not wake and escape as soon as possible, there would be no chance for him to do so when Blue lost his patience and arrived.

If caught off guard, David would still have a glimmer of hope of escape if he used his speed of a partial Deity.

Once the Deity Blue was alerted, it would be impossible for David to escape.

The other side.

A few minutes after Nova left, there was still no sign of David.

Blue's face darkened more and more.

His patience was also wearing thin.

This whole time, only others waited for him. He never waited for others.

If he did, it would be for one stronger than him.

For example, the head of the Feather family.

Was a partial Deity worth waiting for?

When Nova left, Blue's mindpower followed her.

He already knew the location of David's seclusion.

"Is it so hard to get a partial Deity? Who does he think he is?"

I wonder how powerful he is and if it's worthy of his arrogance.”

After Blue finished speaking angrily, he stepped out. Then, his body appeared above the courtyard where David was in seclusion.

Space was not an obstacle for him.

A Deity could ignore the distance of space, even in highdimensional spaces.

Otherwise, he could never arrive in Leila, so far away from the Star Kingdom, in just one year.

Seeing that Blue had disappeared, Sid and the others rushed over in a hurry.

The seniors and disciples of the Iridescent Sect could only walk behind the team. They were the weakest and so also the slowest.

“David, come out! You killed someone in my family so you must be prepared to pay the price. Go back with me like a good boy and accept the trial of the Feather family. Don't

even think about escaping. You can never do that in front of me. I'll give you ten seconds, if you still don't come out, don't blame me for not showing you mercy,” Blue said loudly in the air.

When his voice reached the ground, it directly stunned the two Iridescent Sect disciples outside the small courtyard.

Even with their strength, they could not withstand a Deity's voice.

In the secret room, Nova sat down on the ground when she heard what Blue said.

Her face became pale again.

Her eyes were glazed as she muttered to herself.

“It's over! It's over! It's over!”

When Blue saw that his words had no effect, anger welled in her heart.

‘Well, well, well, David.

'You're just a partial Deity, so how dare you not take me seriously.'

Because of how impatient he was, Blue should have made a move when he found out where David was.

It was not his style to wait for others.

He took peaceful measures before using force and did not act immediately because he heard from Zenon that David was young and legendary, and he had never appeared in Star Kingdom before.

As soon as David showed, he descended in such an invincible way.

Moreover, he also had a secret technique that Zenon had never seen before.

David could summon three clones whose strength was similar to the main form.

It was this trick that killed Azul by surprise.

After thinking about what Zenon said, Blue figured that David must have had some kind of fortuitous meeting or inheritance.

His ability to improve so quickly must have something to do with this fortuitous meeting.
