I am a quadrillionaire chapter 2313-Over the courtyard, a terrifying giant finger gathered by wind and clouds swooped down.

From a distance, one could see lightning and thunder in the finger.

It also contained the terrifying Divine Power of Blue the Deity.

Anyone below partial Deity Rank would die if they touched it.

A Sacred Saint was no exception.

Even a partial Deity would be seriously injured if hit directly.

This was the power of a Deity.

Everyone stared blankly at this scene.

There was nothing but powerlessness in their hearts.

They did not even have the desire to resist.

In the secret room, Nova exhausted all her strength, so she lay on the ground and waited quietly for death.

She did not even have the strength to breathe.

At this critical moment, David, who was sitting there motionless, suddenly opened his eyes.

All the pressure pressing on Nova's body suddenly disappeared without a trace. It was as if nothing was there before.

'Hmm?

'What happened?'

Nova felt lighter and her strength was back.

She could breathe and talk again.

However, she did not get up right away.

Gasping for air, she lifted her eyes to look at David.

She saw that David had opened his eyes.

Immediately, she felt joy in her heart.

“David, you woke up! Get out of here now! Blue’s attack is coming. If you don’t leave, it will be too late. Hurry up! Don’t worry about me. You should escape first and don’t confront the enemy when you go out. He is a Deity, so you are not his opponent. Escape as soon as possible. The farther you can escape, the better. Only come to avenge us when you have strength.”

After saying so much in one breath, Nova’s breathing quickened again.

David had just returned to the real world and opened his eyes. Before he could figure out what was going on, he saw Nova lying on the ground.

Before he could ask, he heard Nova rambling on.

As for the disappearance of pressure on Nova, David did not do it on purpose but it disappeared by itself.

Because David’s combat strength had reached partial Overlord Realm upon his return.

He was much stronger than Blue the Deity.

The two sides were completely different.

If Sid, Zenon, and others were ants to Blue.

Then, Blue was not even an ant to David.

Even if David sat there and did not move, a Pre-Deity like Blue would not dare to get close to him, let alone the energy he emitted.

Upon feeling the attack above him and combining it with what Nova said, David finally understood his situation.

A Deity named Blue was going to attack him.

So, Nova had come to wake him so he could escape.

As for who this Blue was, David did not need to think. He knew that Blue was in the same family as Azul and from the Feather family.

However, David could not understand one thing.

'Didn't Azul say that the Feather family will take three hundred years to reach Star Kingdom?

'How come he's here in just one year?

'Forget it. Let's settle the matter in front of us.'

At this time, the giant finger in the air was about to touch the building of the small courtyard, but it suddenly stopped as if standing still.

David ignored the attack. He got up and went to Nova's side, trying to lift her.
