

Read I Am A Quadrillionaire Chapter 2329

I am a quadrillionaire chapter 2329-After they decided on what to do, everyone got ready to leave.

‘Then I’ll go first. If Elora wakes up, I will notify you as soon as possible.’

After Lufian finished speaking, he waved his hand.

A space crack appeared on the left side of the planet in front of him. It was as if a giant sky-swallowing beast had opened its mouth and was trying to swallow everything in front.

The planet sealed by the Emerald Lotus Sword was directly sucked into the space crack. Then, Lufian followed closely behind before stepping in.

Immediately after, the space crack closed.

Then, Sylvio and the others glanced at each other and left separately.

As emperors of Leila, they all had their own matters to take care of.

Shortly after, Lufian and the planet that sealed Elora appeared in another place in Leila, which was where Lufian usually stayed in seclusion.

After settling the planet that sealed Elora, Lufian looked at the distant planet.

He then exuded an extremely terrifying energy.

If the other three Overlords saw Lufian at this time, they would be too shocked to speak.

Even the sky could not handle the energy displayed by Lufian and it trembled slightly.

This was far from what a Supreme Overlord that had just entered Overlord Realm could have.

Not even an ordinary Ancient Overlord could do this.

If Sylvio was around, he would definitely be able to tell.

Lufian had already touched the threshold of Heavenly Overlord Rank.

Heavenly Overlord Rank was the last rank in Overlord Realm.

A lot of Overlords in the universe dreamed of getting to this rank.

Once at Heavenly Overlord Rank, they could be said to have stood on top of the universe.

It was hard to imagine Lufian achieving it.

Among the five Leila rulers, Sylvio's strength had always been a mystery and no one knew how strong he was.

The remaining four were all peak Supreme Overlords or partial Ancient Overlords.

Of course, it did not rule out that everyone was hiding their strength.

After all, no one would expose their trump cards as it could save their lives during critical moments.

Yet, even if they were hiding their strength, no one could touch the threshold of Heavenly Overlord Rank as Lufian did.

Even if it was just a little, it was still a height that countless Overlords could not reach.

Looking at the sealed dead star in front of him, Lufian's eyes revealed a killing intent and he muttered to himself, "Elora, you should focus on recuperating inside! Don't worry, no matter who hurt you, I will avenge you and make the person who hurt you pay the price. I don't care whether it is the Robotias or the Soul Devourers. Since they dare to hurt you, those two races will perish and disappear from the universe.

"But now is not the time. I still need some time to prepare! Wake up quickly! At that time, I will dominate the world with you. We will go to the Robotias and the Soul Devourers' lair and completely destroy them."

After he said that, the killing intent on Lufian reached its peak.

Even the surrounding sky made a whooshing sound as if it was frightened.

In just a split second, Lufian turned and left, retracting his killing intent.

When Lufian's killing intent reached its peak, Sylvio, who was far away from Leila, suddenly raised his head and looked in Lufian's direction.

He felt a terrifying killing intent flashed by.

'Am I hallucinating?

'Or is it real?

'If it's real, who did that?'

When Sylvio wanted to sense it more, the other party disappeared.

For a moment, he thought that he was just hallucinating.

He could not find his target so Sylvio did not continue to investigate further.

What happened to Leila had nothing to do with David.

No, it was not completely unrelated.

If one really wanted to talk about it, it was still related to him, but only a very small connection.

It was just that David had no idea right now.

He was still at ease in The Spirit Cage.

Thor was very capable.
