Married at First Sight Chapter 2380-Her mother's secretary informed her on the phone: "Vice President Farrell, President Farrell is looking for you and asks you to put down your work and come over right away."

"okay, I got it." Kathryn hung up the phone, stood up, walked around the desk, and exited her vice president's office. She was now the vice president of the Farrell Group.

No matter whether everyone accepted her or not, she was the successor of the Farrell family. This was an indisputable fact. The Farrell Group and the Farrell family would all be headed by her in the future.

This was on the bright side.

Secretly, Kathryn wanted to return the Farrell family to her aunt's descendants, which belonged to them in the first place.

Her cousin had been silent all this time, not even Liberty.

Kathryn guessed that there was still no movement in Wiltspoon, and she probably wanted to wait for Zachary and Serenity's wedding to end.

It's quiet before the storm.

She hoped that in the end, she could still be sisters with her cousin, and the Liberty and her sister could call her aunt.

Kathryn soon arrived at the door of her mother's office.

She knocked on the door.

After getting a response from her mother, she opened the door and entered.

Kathryn: "President Farrell, you are looking for me."

In the company, Kathryn was generally not called mother.

Unless Matriarch Farrell called herself a mother, it was a mother and daughter, not a subordinate.

“Um.” Matriarch Farrell was sitting at the desk, and in front of her was an invitation card.

This invitation was not sent just now, it was sent long ago.

“sit down.” Matriarch Farrell said calmly.

Kathryn sat down opposite her mother, and when she saw the invitation, she asked her mother: “Did it come from the York family in Wiltspoon?”

Matriarch Farrell hummed.

“Young Master York’s wedding is coming soon. Those who received the invitations, as long as they are not from Wiltspoon, will start to go to Wiltspoon. How lucky our family is to receive invitations from Young Master York!”

Matriarch Farrell really did not expect that Zachary would send invitations.

The two had no intersection.

Because Shiloh liked Hayden, she even became a love rival with the third young master of the York family.

Suddenly receiving an invitation from Zachary, Matriarch Farrell had been thinking about whether to go to Wiltspoon?

Would Zachary’s wedding be a grand banquet for her?

Matriarch Farrell had a guilty conscience, and was worried that her two nieces would really end up in Wiltspoon. When she went to Wiltspoon, she would meet her nieces.

People in the clan passed it on in a clear and orderly manner.

She thought that her two nieces did not die back then.

It was really in Wiltspoon.

Just didn’t know how they live?

Knowing that the York family didn't know the past situation of the Farrell family, Matriarch Farrell still thought that way. Was it not because of a guilty conscience?

"Mom, when will our family leave?" The discussion was about a personal matter, so Kathryn no longer called her mother "President Farrell."

Matriarch Farrell: "Mom called you here to tell you about this."

"Kathryn, ever since you came back, mom has been training you and giving you opportunities to learn. Usually, mom scolds you a little harshly, but she also wants to see you well. By the way, she will act for others to see and let go of other people's shame. Only by guarding your heart can you discover the truth behind many things. It's been more than a year—nearly two years. Mom wants to see if you have the ability to take over our Farrell family." Matriarch Farrell looked directly at her biological daughter and said, "Young Master York's wedding; just go and attend by yourself, and I don't have to go."
