I am a quadrillionaire chapter 2388-However, once the two races joined forces, the result would be unpredictable.

And most importantly, the level 9 civilizations controlled by these two races were adjacent to Leila.

So, they knew Leila very well.

Now that they have decided to unite and attack Leila, there was a high probability that they already had a way to deal with the five Leila rulers and invade Leila.

So, Elora had to treat it with caution.

Now, she could only comfort herself incessantly.

'I hope that my recovery can disrupt the plans of the Robotias and Soul Devourers!'

The looming figure disappeared.

When it reappeared again, it was already at the edge of the planet.

Looking at the seal in front of her, Elora was very reluctant to destroy the seal that was used to protect her safety.

It was the last strength of the Emerald Lotus Sword.

However, she had to destroy it as it was an unbreakable seal.

If she did not, she would not be able to get out.

After standing a while, Elora did not hesitate further.

She put her slender hand on the seal.

Maybe it felt Elora's energy, but as soon as it was touched, the seal disappeared automatically.

'Thank you, old friend,' Elora said to herself again.

The moment the seal disappeared, a figure not far away suddenly opened his eyes.

Immediately afterward, his body disappeared instantly.

After the seal was gone, Elora was about to step out.

A figure suddenly appeared in front of her.

Before Elora could react, the figure said in surprise, "Elora, you're finally awake!"

A familiar voice and a familiar face.

Of course, Elora knew the identity of this person.

He was Lufian, one of the five Leila rulers.

Lufian actually found her healing place. This was something Elora did not expect.

In other words, the other three must have known about her situation.

"Lufian, I didn't expect you to be here. I guess Sylvio also knows about my serious injury. Where are they?"

Compared to Lufian's surprise and excitement, Empress Elora was much calmer.

Lufian did not answer Empress Elora but just looked at her blankly.

It was because he noticed something was wrong. The Empress Elora in front of him was a soul.

Under normal circumstances, no one would let their soul out.

After all, there were too many restrictions.

Once the soul was severely injured, it would be difficult to recover.

There were only two possibilities for Empress Elora to use her soul to get out of the healing place.

The first was that her body was too seriously injured and could not be healed in a short time.

The second was that her body had been destroyed and she could only exist in the form of a soul.

Either way, it all showed that Empress Elora had suffered unprecedented damage.

Although he was mentally prepared when Sylvio said that Empress Elora's injuries were serious and might be lifethreatening, he still had a throbbing pain in his heart when he saw Elora appearing in the form of her soul.

A tyrannical energy emanated from him and he almost lost control of his strength.
