

Read I Am A Quadrillionaire Chapter 2426

I am a quadrillionaire chapter 2426-In fact, the plan to return to Earth has long been in place.

However, that incident with Azul happened.

Then, the family behind Azul came as well.

If the threat of the Feather family had not been completely removed, David would not dare to leave.

Fortunately, he had created a clone that could fight autonomously. Otherwise, it would be too early to want to return to Earth!

He would never put Star Kingdom in danger.

“Pack up. I’ll inform Nova, and then I’ll take you all home,” David said to the crowd.

“Okay!” Everyone replied in unison.

“David, let me go with you! I want to say goodbye to Lady Dream too,” Celeste said.

“Okay! Celeste, let’s go together!”

David and Celeste went to Nova to say goodbye.

The others stayed and happily packed their things.

To them, being able to go home was something joyous.

The head of the sect’s study in the Iridescent Sect.

David and Celeste explained their purpose to Nova.

“Are you leaving Star Kingdom?” Nova was taken aback for a moment and asked uncertainly.

“Yes, Nova! It’s been a long time since I’ve been out here, so I should go back and have a look. I am assured that Lord Sid will be looking after Star

Kingdom. He also has the clone I gave him so he won't have any problems dealing with the Feather family," David replied.

"Elder Red, are you going with them too?" Nova looked at Celeste.

"Yes, Lady Dream. I want to go and clear my head."

"Then how soon will you be back?"

"Not sure. It shouldn't be too long."

"When are you leaving?"

"I came to say goodbye to you. After this, I'll go to the Fellowes family, take some resources, and then we'll leave."

"Well, I wish you all the best of luck!"

"Thank you, Nova! Celeste, you should have a chat with Nova. I'll go to the Fellowes' residence. I'll come to get you when I come back."

"Sure."

David got up and went to the Fellowes' residence in the Central Sacred Continent.

When he was planning to return to Earth, he asked Alba to prepare some resources for Celia and the others to use on

their return to Earth.

Although the appearance of Azul delayed his trip, the Fellowes family had already prepared the resources.

After David left, Nova suddenly said, "Elder Red, congratulations!"

"Why are you congratulating me?" Celeste asked curiously.

"I'm congratulating you for finding a man of your dreams of course! Not everyone can meet a man like David."

"Lady Dream, what are you talking about? There's nothing between David and me! He has a girlfriend!"

'That's enough, why are you pretending to me? Do you think I'm blind? Whether David has a girlfriend doesn't matter. With David's status, those women are not that many. Those direct descendants of the major forces in Star Kingdom have so many women to carry on their bloodline. You don't really care about this, do you?'

"I don't care, but David does! I don't know what he has in mind. He's surrounded by so many outstanding women, but he's only intimate with Celia! He won't even look at us even if we go to him," Celeste said helplessly.

"Really? Do you think David is..." Nova looked surprised as if she had discovered a new continent.
