

## Read Married At First Sight Chapter 2453

**Married at First Sight Chapter 2453**-Serenity followed Sonny out of the house and shouted at his back: "Sonny, don't run so fast, be careful of falling."

"Auntie, I won't fall. I'm going to play." Sonny carried a large bag of toys and ran away with a group of children.

The sound floated back from afar.

Serenity turned to Zachary who also followed Sonny out and said, "Sonny is so familiar that he can play with anyone. Isn't that good? If he can't play with anyone and sticks to adults all day long, everyone will have a headache again."

Zachary smiled and said, "It's hard to be a human being, and it's not easy for children either. They are called naughty when they are lively and active, and they are called dull when they are quiet. No matter what they do, adults can find excuses to criticize them."

Serenity: "..."

Apparently, it really is. Being a human being, well, is quite difficult.

"Do you still want to catch up on your sleep?" Serenity asked Zachary.

Zachary took her hand and led her out, smiling as he walked: "I'm not a sleeper. I've been sleeping all morning. If I continue to sleep, I won't be able to sleep at night. Do you need some rest?"

Serenity hummed, "I'll go to bed later. I've just eaten now, so I'll go to sleep right away. I feel uncomfortable."

Zachary: "It's just right, I'll take a walk with you, digest food, and come back for lunch later."

Serenity naturally had no objection.

She first walked in search of the children's laughter. A group of children were all playing in the children's amusement park. The large bag of toys Sonny brought out was thrown aside.

The young couple did not come near.

They didn't want to disturb the children's play.

If they passed by, the children of the workers would appear cautious and would not be able to enjoy themselves.

"Go sit under the pavilion and enjoy the breeze. The weather is really cool today. The sun is on holiday and the sky is not too dark. There is still wind. It is comfortable and cool."

Zachary led his beloved wife to a gazebo not far away, and sat down in the gazebo.

After sitting for a while, she took out her mobile phone, checked Moments, and then checked the trending news.

Zachary: "Don't look at your phone too much, it will hurt your eyes."

"I just watch it when I'm bored, and I won't watch it for too long." Serenity scrolled down while talking to see more trending searches.

At the bottom of the hot search, she saw a piece of news related to Analia Dawson.

Analia Dawson, this rival in love, Serenity almost forgot.

Suddenly seeing a trending news item related to Analia Dawson, Serenity curiously went in to read it.

The Dawson Group could cooperate with the York Corporation, which was a powerful group. In their city, the Dawson Group was also a well-ranked company with great influence, so Analia competed with her cousin Kingston Dawson for the president. Only things related to her position could be hotly searched.

The brief news article stated that the successor of the Dawson Group was now unknown.

Analia was her father Jasper Dawson's only daughter, despite being his secretary. Jasper taught Analia while he was with her.
