

Read Married At First Sight Chapter 2465

Married at First Sight Chapter 2465-Alice hugged her son and kissed her several times, then smiled: "I gave birth to it; of course it resembles me, and the mouth looks like it has no trace."

She glanced at Clive and said, "The baby belongs to both of us and resembles me. Like you, but more like me."

Clive said dotingly, "I don't look as good as you do, but I look better like you."

Everyone laughed.

Whether it was Alice or Clive, they were both attractive. The baby was still too young to tell, but as he grew older, he would. He was a very attractive little doll.

Alice needed to rest after giving birth, so everyone left after staying in the hospital for half a day.

Clive and Mrs. Lafayette stayed at the hospital to take care of Alice and the baby.

After coming out of the hospital, Liberty, Serenity, and Zachary went to the supermarket.

Both Serenity and Liberty bought a lot of nutritional products and sent them to the Stone family.

Audrey was talking about her two nieces: "My home has everything, yet you still bought so many supplements. The supplements that everyone had brought weren't complete when Alice was just pregnant. There was nowhere to put all of the supplements because there were so many."

Alice also ate a lot of supplements during her pregnancy, but there were too many and she couldn't finish them all.

When she learned that Serenity was pregnant, Alice asked Audrey to bring a lot of supplements from home to give to Serenity.

Serenity laughed and said, "Auntie, your family belongs to my aunt's family. My sister and I gave a little love from both of us. My cousin is giving birth now,

so she won't vomit anymore, so she can make up for it. During the whole pregnancy, my cousin has a long belly, and she doesn't gain weight herself."

Alice vomited so much that she couldn't eat, and although she didn't vomit every meal in the later stage, she didn't gain weight after a long pregnancy, and she didn't gain weight as a mother.

Now that she had unloaded the goods, she needed to take some supplements during the confinement period, so it was best to send supplements.

"I'd like to thank you both on behalf of Alice."

Audrey thanked Serenity and Liberty on behalf of her daughter-in-law.

She asked Serenity again with concern: "Do you still vomit recently? If you vomit too much, go to the hospital and let the doctor see if he can prescribe some medicine to relieve it. Alice took the medicine prescribed by the doctor. Fortunately, she only vomited once at night in the later stage, and the mother and son grew better."

Audrey was also worried that Alice vomited a lot and that the baby would be very thin.

Serenity: "I won't vomit after the wedding. I can eat and sleep now, so I don't have to envy Jasmine."

After Jasmine became pregnant, she didn't vomit and could eat and sleep. If her belly didn't start to grow, she wouldn't be able to tell that Jasmine was pregnant.

The Bucham family no longer concealed the fact that Jasmine was pregnant, as the pregnancy had been confirmed.

Although Serenity didn't explicitly say that she couldn't drink at the wedding, everyone guessed that she was pregnant, so they didn't drink and went back to the room early to rest.

Those who were still waiting for Serenity's infertility to be kicked out of the York family would be disappointed.

It's not that Serenity couldn't have children; she hadn't been pregnant before. Maybe it's really like Zachary said, thinking about the world of two people.

Audrey said, "That's good. I haven't seen you for half a month. Now you look much ruddier and look much better than before the wedding."

Audrey looked at Serenity's complexion, relieved her heart, and said to Zachary: "Zachary, you will take care of Serenity in every way. Try to keep her happy. Serenity can eat and sleep now, but don't let her eat too much. If the fetus gets too big, it won't be easy for her to give birth.

Spend more time with her, take her out to relax, walk around, and let her do what she wants to do as much as she can, and it will be easier to give birth in the future. Alice went for walks every day while she was pregnant. In the back yard, there are a lot of fruits and vegetables."

Zachary said gently, "Auntie, don't worry; I will take good care of Serenity. I always support her in whatever she wants to do."
