

I am a quadrillionaire chapter 2587-Five days later, David opened the system.

[Body: Ancient level 10 (You may upgrade one level using 10 million lavish points)

[Mind: Ancient level 10 (You may upgrade one level using 10 million lavish points)

[Combat: Partial Heavenly Overlord

[Lavish points: 10016235

[Special skill: Cloning (level 6)]

Looking at the numbers in the lavish points column, David beamed immediately.

It had finally reached the 10 million point mark.

In other words, he could increase his mind power.

Once he had a breakthrough in mind power, he would be even more confident in The Spirit Cage.

If he met that mysterious powerhouse again after his mindpower breakthrough, David felt he could beat them in seconds.

He would take action the moment he thought about it.

David told Pebbles that he was going into seclusion again.

Then he locked himself in the room.

Meanwhile, the little girl guarded the outside, not allowing anyone to approach this place and disturb Davey.

After more than two months, Pebbles had grown to 15 or 16 years old.

She was a teenager now.

Her chubby little porcelain-doll face had disappeared.

Instead, it was replaced by a delicate but youthful, heroic face.

Her womanly characteristics were also gradually showing and this was troubling to David.

When David proposed that Pebbles keep a distance from him as she had grown up, Pebbles rolled her eyes at him. She ignored him and turned a deaf ear.

She still did what she wanted.

In the little girl's heart, David was the person closest to her.

Pebbles would resent any other man who looked at her more than once.

Inside the room, David sat on the bed, turned on the system, and opted out of The Spirit Cage.

His soul disappeared and returned to his body in the real world.

As soon as he came back, he could not wait to upgrade.

After he opened the system and chose to upgrade his Mind, a window popped up.

[This upgrade will consume 10 million lavish points. After the upgrade is completed, the host's mind power (soul power) will increase from Ancient level 10 to Heavenly level 10. Please confirm whether to proceed.]

Two options.

'Yes' and 'No'.

David directly chose 'Yes'.

The system's screen turned black, a prompt appeared above.

[Upgrading mind power. Please wait a moment, host...]

Gritting his teeth tightly, David waited for the pain from his soul to come.

Every time he upgraded his mind power by a relatively large level, he would suffer severe pain that felt as if his soul was torn and reorganized.

Even though he had become accustomed to it, David still had lingering fears every time he had to go through it.

However, it was worth it for a greater strength.

At least David knew that it would be fine as long as he gritted his teeth and powered through, He would not fail anyway.

If it were someone else, without the system, it would be hard to say whether they would have succeeded after enduring the pain.

No matter how much pain David endured, he would get rich rewards.

This might not be the case for others.

Many would fail.

Indeed, just as David was getting ready mentally...

"Hiss..."

He suddenly took a deep breath.

His soul felt as if it was torn into countless pieces.

Then, the pieces were assembled to obtain more powerful soul power.

It would take longer to break through a larger level.

David could only grit his teeth and power through.

He was trying his best to keep himself conscious.

He did not know the consequences if he passed out. He did not dare to try either.
