

## **Read I am a quadrillionaire**

I am a quadrillionaire chapter 2675-As soon as Spencer said that, Lucia and her master immediately looked at David.

Since this person was the helper hired by Spencer, he must have some tricks up his sleeve.

Otherwise, Spencer would not have said that.

Immediately, Lucia's master, Reva Marwood, took action.

She had a very simple idea in her mind.

No matter who this person was or what his abilities were, they must subdue him first.

Other than that, there was another key reason.

After arriving here, Reva carefully observed everyone in the room.

No one could keep secrets from her, but she could not see through this young man.

It was as if there was a layer of fog blocking her vision.

She was an Eternal Realm Beginner Ruler Ranker and she actually met someone she could not see through in this living planet that was at the edge of the Boundless Galaxy.

Reva felt a little incredible.

So, after learning that this person was the helper hired by Spencer, she chose to take action without thinking.

She did not want to give the other party a chance to react.

Because among all the people here, only this kid was an uncertain factor.

So she must resolve this uncertainty.

When an Eternal took action, of course, it was as fast as lightning.

In just a blink of an eye, Reva came to David's side. She then stretched out her long, fair, and extremely beautiful right hand and aimed at David's most vulnerable neck to subdue him directly.

During this process, David did not move at all. He just stood there in a daze, quietly waiting for the other party to arrive.

Just when Reva's right hand was still five centimeters away from David's neck, she suddenly stopped moving forward.

An invisible barrier blocked her right hand.

"Huh?"

Reva was shocked.

Then, she increased the strength of her hand.

In the end, she still failed to break through the invisible barrier.

This made Reva even more certain that this person was not simple.

No wonder she could not see through him.

It turned out that he had a special method that even she did not know about.

Reva was just an Eternal Realm Beginner Ruler Ranker, so naturally, she did not know much about the existence of mind power.

That was something that only existed in Eternal Realm Sovereign Rankers and there was no Eternal Realm Sovereign Ranker in the entire level 4 civilization Boundless Galaxy.

Boom!

A powerful energy burst out from Reva.

In order to quickly deal with the person in front of her, she used a bit of her Eternal strength. She did not want to give David a chance to resist.

Although David was the target of this energy, the aftermath alone left the entire building in a crumbling state.

Fortunately, another force appeared at this time to stabilize the situation.

Only then could the building be saved from collapse.

If Reva displayed all of her Eternal energy without any reservation, the palace of the Great Quinn Empire and even the entire Planet Brechen could not bear it, let alone the building she was in.

One must know that Eternals had been recognized by the laws of the universe and could have a lifespan of at least

one epoch.

Planet Brechen was just a living planet on the edge of the Boundless Galaxy.

So it would be easy for Eternals to destroy such a planet.

However, generally speaking, Eternal would not cause random killings.

After one reached Eternal Realm and still could not reach Saint Realm in one epoch, they would face the Eternal Catastrophe.
