

Read I am a quadrillionaire chapter 2690

I am a quadrillionaire chapter 2690-“Master, you didn’t throw away those two wooden boxes, right?”

“Of course, not! It’s just that I don’t think they’re of any use. Our enemy is Diablo, a partial Sovereign Ranker. Even the Grandmaster is no match for him. He is still the strongest man in the Boundless Galaxy.”

“Master, look at the situation we’re in! This concerns the life and death of the entire Divine Snow Mountain. Regardless of whether it works or not, you can always give it a try, right? Even if it doesn’t work, we have nothing to lose, right?”

While the master and disciple were discussing, Diablo had completely lost his patience.

“Madam Nubia, if you still want to be stubborn, you can’t blame me for being heartless.”

After Diablo finished speaking, his Eternal Realm Partial Sovereign Rank energy burst out in full force, making everyone below Eternal Realm on the top of the Divine Snow Mountain feel breathless and almost suffocated.

This was the strength of an Eternal Realm Partial Sovereign Ranker, and only the people in Eternal Realm could resist it.

“Diablo, you are going too far!” Madam Nubia shouted.

The same energy burst out to fight against it.

The two of them exchanged blows in the air.

Boom!

The powerful shockwave spread, causing people on the top of the mountain to flip over instantly.

Some people with low strength were directly stunned to death.

Reva quickly retreated while protecting Lucia.

Even she could not get close to the battle of two partial Sovereign Rankers.

“Master, take out the wooden boxes David gave you now. Try unlocking the seal to see if it has any effect,” Lucia urged.

“Let’s wait a little longer,” Reva replied.

“Grandmaster will be defeated if we wait any longer.” Lucia became anxious.

“Don’t worry! Grandmaster and Diablo are both partial Sovereign Rankers. Even if Diablo is stronger, he can’t kill Grandmaster. Besides, Grandmaster still has a trump card that she hasn’t used.”

“What trump card?”

“Just watch! Grandmaster won’t be able to take this any longer”

The people on the top of the mountain retreated to the edge, leaving room for the two powerhouses representing the strongest combat power of the Boundless Galaxy to fight.

Madam Nubia and Diablo were at war again.

There was a constant rumble on the top of the mountain, causing everyone’s blood to surge.

All of them were clutching their chests in pain.

Lucia’s strength was also very low, but she was not affected because her Master Reva had been protecting her.

Diablo punched Madam Nubia away but did not pursue her. Instead, he stood in the air, exuding a domineering aura.

“Madam Nubia, you are already old and are no match for me. Accept your fate! Hand over the treasure or I will crush the Divine Snow Mountain.”

Madam Nubia showed a scary grin after she got up from the ground.

“Really? Diablo, I know what you are waiting for. If that’s the case, then I will do as you wish. I want to see how you can resist the treasure of the Divine Snow Mountain.”

As soon as she finished speaking, Madam Nubia raised her head and spurted out a mouthful of blood.

The blood condensed in the air, forming a strange rune that emitted bursts of red light.

Madam Nubia then kept changing her gestures, and finally, she stretched out her finger.

The blood runes flew towards the only raised peak on the top of the Divine Snow Mountain before disappearing in front of everyone.

Immediately afterward, the mountain peak rose from the ground. It emitted a red light and began to slowly change. Eventually, it transformed into a super giant ax.

Diablo looked at the bloody giant ax and his face immediately showed excitement.

He had been waiting for this moment so that was why he did not make any ultimate moves.

The Divine Snow Mountain's Divine Ax that suppressed luck finally appeared.
