

Read I am a quadrillionaire

I am a quadrillionaire chapter 2800-f not, both sides would lose out.

Aside from the safe resources, some dangerous ones did not belong to anyone.

Hence, anyone could take them, for example, the beasts in the old-growth forest.

However, once someone entered the old-growth forest, their life or death would

be unpredictable. Humans wanted to capture the beasts for food, and the beasts also wanted to eat humans. Naturally, they were not as gentle as fish.

If one were not careful, they might become a beast's meal.

No one was willing to gamble with their life if they had a choice.

Therefore, C/s worries were not without reason.

Village Pescado had made a living by fishing for generations. So, it could also be said that they knew nothing but fishing. 1

Letting them go to the old-growth forest to capture wild beasts would be asking

them to die.

Only people who had been living near the old-growth forest and had inherited the hunting skills and experience of their ancestors from generation to generation dared to venture into the forest to capture wild beasts.

However, even the most experienced hunters could not be absolutely safe.

“Grandpa, don’t worry too much. Even if we don’t steal other people’s resources,

the world is so big, so there will always be a place for us,” Peach comforted.

She was still young and had always been well protected by Cy. As a result, she

was naive and unaware of the dangers of this world.

“Hopefully!” Cy replied.

He knew his granddaughter’s character, so he stopped talking about this because there was no way Peach could give him any good advice.

“Come on, let’s row to the center of the lake to have a look.”

“Okay, Grandpa!”

The two of them rowed the boat and slowly headed toward the center of Lake Pescado.

Lake Pescado was not big.

Even if it was called a lake, it was actually just a larger fish pond.

Along the way, the lake was extremely calm. Apart from the ripples caused by the oars paddling on the water, there was no other movement. This was completely different from before.

“Grandpa, this lake is so quiet that it’s scary,” Peach said.

“Almost all of the fish and aquatic creatures are dead, so of course it’s quiet,” Cy

replied.

“Grandpa, what fell into the lake that caused so many fish to die?”

“I don’t know yet! But if my guess is right, it should be a meteor.”

“A star from the sky?” The little girl’s eyes immediately showed surprise.

A star fell into the lake?

Did it mean she could touch a star, then?

Girls had no resistance to beautiful things like stars.

“Not a star, a meteor! The two are different. According to some ancient documents, the stars are huge and also very far away from us. Once they fall on

our planet, all living things on Planet Gorgon will perish, while meteors are rocks

floating outside the planet. They are very small, and they don’t produce a lot of

force when they fall, just like what’s happening now. Similar situations have happened in other places before,” Cy explained patiently.

He was not only the most prestigious person in Village Pescado but also the most knowledgeable. Cy left Village Pescado to travel, so that was how he got into contact with the wider world outside.

“I see! Grandpa, you know so much,” the little girl praised while rowing the oar.

“I also learned this knowledge when I was studying abroad as a boy.”

The grandfather and grandchild chatted with each other.

Suddenly, Peach shouted, “Grandpa, look! There is something ahead!”
