

Chapter 717 Real Reunion

After their long discussion, Liam began to grasp the animosity from the past.

However, this story dated back over ten years. With time, many leads and pieces of information had faded. Through the years, any trace of his parents remained elusive.

Patience was essential.

Rising, Liam inhaled deeply, then declared with conviction, "Grandpa, I appreciate your revelations today. Rest assured, I will settle the animosities of the past!"

Upon saying this, he bade farewell to Sergio and left hastily.

Once outside the lounge, Liam promptly reached out to Fiona. Once he learned of her location, he hurried there.

Once outside the lounge, Liam promptly reached out to Fiona. Once he learned of her location, he hurried there.

In one of the Hoffman family's houses, he reunited with Julie and Sarai.

A torrent of emotions surged within him.

Liam instinctively moved to embrace Julie.

Yet, Julie retreated a step, purposefully avoiding his touch.

Taken aback, Liam soon perceived her reasons. Julie hadn't yet found it in her heart to forgive him.

Liam's eyes glistened with tears. With genuine emotion, he pleaded, "Julie, I beg your forgiveness. I've been tirelessly searching for you. I was nearing desperation. Now that we're reunited, I can't bear the thought of losing you again. Please, stay with me, so we may never part, alright?"

Their bond remained as strong as ever.

When Julie heard Liam's heartfelt words, her eyes brimmed with tears.

Indeed, since the events at the party, she realized that Liam's affection for her remained unwavering.

As they confronted each other now, their suppressed feelings surged forward uncontrollably.

In an instant, Julie found herself enveloped in Liam's embrace as they held onto each other tightly.

Observing their intimate moment, Sarai scoffed, "Such a spineless woman!"

Then, wearing a displeased expression, Sarai nudged Fiona. "Are we leaving or what? I refuse to be the third wheel here!"

Feeling out of place, Fiona promptly led Sarai away.

The room was left with just Julie and Liam, deeply lost in each other's arms.

With moist eyes, Liam murmured, "Julie, where've you been? Why haven't you come back to me?"

As Julie motioned with her hands, confusion clouded Liam's face.

Although he had been trained in numerous languages, including sign language, he was puzzled by Julie's gestures.

But as Julie communicated her story through sign language, the revelation left Liam seething with rage. His beloved, whom he cherished deeply, had suffered such ill-treatment. Overwhelmed by a violent urge, he wished he could exact revenge on the imposter Julie at that very moment.

Resting in Liam's embrace, Julie conveyed her remorse. "I should never have blamed you. I've been
