Chapter 746 Revenge

Liam's mind reeled from the doctor's revelations, each piece of information reshaping his understanding of the world.

The mysterious primogem discovered in his body was intricately tied to his parents' vanishing from over two decades ago!

Questions swirled inside Liam, but he etched the name Cloud Harbor into his memory. He vowed to visit that place someday.

If it had any connection to his parents' whereabouts, Liam wouldn't rest until he unraveled the truth.

Collecting himself, Liam addressed the doctor calmly, "Given your insights, you're welcome to stay with the Hoffman family to further your research. But cross me with any hidden agendas, and it'll be your end."

The doctor nodded, taking his leave. For him, the allure lay in the science, not the setting.

Fatigued, Liam allowed his heavy eyelids to close, succumbing to sleep.

Meanwhile, exhausted, Sergio passed out in the car, awakening hours later.

When he heard from Julie that Liam was safe, relief washed over him, allowing him to finally relax.

In his absence, Julie, with Theo's assistance, tirelessly managed the Hoffman family matters. She ran back and forth between two villas. Sleep became a luxury for her until exhaustion overcame her one day.

The Dark Night Organization members quickly whisked Julie to a hospital, only to discover she was pregnant! And she'd been expecting for a while!

Once she regained her strength, an ecstatic Julie couldn't wait to share the joyous news with Liam.

Julie passed the report to Liam, her eyes glistening with tears. "Liam, we are going to be parents again!"

Liam, taken aback, scanned the report several times as if reading was a challenge for him.

His voice filled with elation, he exclaimed, "Am I truly becoming a father again?"

They embraced tightly, both of their eyes moist with the thought of the child they had longed for.

Liam decided to resolve every issue in Invone and exact revenge on his enemies before his child's birth.

The tragic loss of their previous child haunted both Julie and Liam. Liam was determined not to experience such heartbreak again.

Liam's swift recovery was nothing short of remarkable. Now, it was time to face his enemies head-on.

His initial target was the part of the Hoffman family that was currently under Demetrius's influence.

Before embarking on this mission, Liam honed his skills in the training room.

The doctor's prognosis had been accurate. The setback had unexpectedly turned into a blessing. Liam's physical prowess had escalated, and both his agility and might had amplified significantly.

Empowered by this newfound strength, Liam was confident that even facing Rohan would be a manageable challenge.

His mission was to reclaim his rightful power. Accompanied by Sergio and Julie, he rallied members of the Dark Night Organization and swiftly encircled the Hoffman family's residence.

Yet, Demetrius remained blissfully unaware of the imminent threat. His entire family, preoccupied with the prestige of leading the Hoffman family, convened in the main hall.

Suddenly, a flare pierced the sky, followed instantaneously by a chorus of alarmed screams.

Catching Demetrius off guard, a dark silhouette

swiftly emerged from the shadows, infiltrating the main hall within moments.

With his spear at the ready, Liam's gaze swept across the panic-stricken faces before him, as though he was staring at corpses.

Taken aback, Demetrius challenged, "Liam, I spared you once. Yet, you dare return. Do you still desire the Hoffman family leadership?"
