

An Understated Dominance by Marina Chapter 1988

An Understated Dominance by Marina Chapter 1988

Chapter 1996

“Damn it! Where did this monster come from? Why is it so scary?”

“There is a wolf in front and a tiger in the back. Now we are in trouble!”

“Don’t fight! Deal with these monsters first!”

” ...”

The sudden change made everyone tremble.

The mutant wolves are already very troublesome, and now a mutant tiger has appeared.

The two monsters were attacking from the front and back, and no one could remain calm.

If we continue to fight among ourselves at this time, there will only be a dead end.

Coincidentally, all forces stopped fighting and began to act in unison, preparing to face the impact of tigers and wolves.

“It’s dark, and now this place has become a paradise for monsters.”

Margaret narrowed her eyes slightly, and her face became more serious.

The current situation is beyond everyone’s control.

First there was a struggle between various forces, and now monsters have joined the battlefield. The unknown changes are so great that no one knows what will happen next.

“Ouch~!”

At this time, the Silver Wolf King roared.

Dozens of giant gray wolves, as if they had been ordered, kicked off the ground with their limbs, instantly ejected, and rushed towards the crowd at extremely fast speeds.

In their eyes, these humans are the best blood food.

“Roar~!”

As soon as the wolves moved, the red mutated tiger couldn't hold it any longer.

With a low roar, he sprang out like lightning and pounced on the nearest person.

“Kill these beasts!”

When the tigers and wolves launched their attack, the warriors were not to be outdone. They raised their weapons and attacked them head-on.

These monsters are full of treasures, and if they are all killed, it will be a windfall.

After a short sprint, the two sides quickly fought together.

There are many wolves in the pack, and under the leadership of the Silver Wolf King, they are even more ferocious. When they run into the crowd, they start biting and attacking like crazy.

In just one encounter, more than a dozen warriors fell into a pool of blood.

Fortunately, there were a large number of warriors, many of whom were innate masters, and the situation was quickly stabilized.

Although there were casualties from time to time, the wolves were also falling one by one.

Only the mutated tiger covered in red was somewhat unstoppable.

This mutated tiger is extremely powerful and invulnerable. Ordinary weapons can't hurt it even if it cuts on its fur.

On the contrary, it will arouse the ferocity of the tiger and make it more cruel.

In front of this mutant tiger, ordinary Houtian warriors have no ability to resist at all and can only be slaughtered.

Even ordinary innate warriors can only barely protect themselves and cannot do anything to the tiger.

“Damn it! Isn’t this giant tiger too fierce? It can’t be killed at all!”

The mutated giant tiger rampaged through the crowd, killing all directions. In just two minutes, it had torn apart more than a dozen people.

For a moment, the warriors were so frightened that they did not dare to step forward.

“Of course it’s no match for it if you fight alone. If you ask us to join together, we’ll hack him to death!”

Fellow martial arts comrades, stop hiding your secrets and get rid of these monsters as soon as possible to make a fortune, so as not to have long nights and dreams!
