

The Wolf's Bride by Coffee's Tea

Chapter 1396

Chapter 1396

“Just be mentally prepared to accept everything ”

The siblings were stunned before being struck by a realization.

Right!

The final price for Horizon Moon was five billion!

If Andrius could easily come up with five billion, it was absolutely impossible to say that he had no influence or status.

“Okay!” Scott calmed down and said with glimmering eyes, “Thank you, Andrius!”

“Andrius, Kate, you guys keep chatting. I'll go cook!” Liliana called out and walked into the simple kitchen.

At 8 p.m., a simple dinner was ready.

Potatoes, greens, and soup..

Although it was simple, Liliana indeed had some culinary skills and managed to make a delicious meal with basic ingredients.

“Andrius...”

After she served up the last bowl of soup, she said somewhat embarrassedly, “The food here is a bit simple. I hope you don't mind.”

“Of course not.” Andrius waved his hand and smiled. “I liked simple yet delicious dinners like these.”

“That's great!”

The siblings felt relieved.

Then, the four of them enjoyed the meal. Everything seemed harmonious under the faint moonlight.

However, a wisp of haze floated across the sky, shrouding the cold moon.

Outside the courtyard, a convoy was slowly approaching on the winding muddy road.

In the lead was an off-road vehicle, and on it were Jasper and Justin.

“Today is the time to put an end to the Jones family...’

Chapter 1396

2/3

Jasper jumped out of the car and looked at the rundown houses not far away, his eyes flashing with strong murderous intent. Cold words were uttered from his mouth.

“Jasper.” Justin also snorted coldly. “If you asked me, none of this would have happened. today if they had been wiped out earlier...”

Just as they were talking...

Swoosh...

A team of thugs jumped down from the cars behind.

They were all armed to the teeth, holding peculiar -looking firearms in their hands. These were specially made firearms designed to deal with martial realm experts!

The bullets loaded inside were also distinctively different from ordinary ammunition.

The reason why the Conways could act as they pleased in Jurith was because they took in many exiled martial realm experts over the years..

The Conways supported them, and in return, they ignored the rules of the ancient martial world and worked for the family.

However, they had always kept it secret and were far away in Argos, so the families in Kiyoto

did not know.

Therefore, the Conways had a considerable understanding of the martial realm and inner energy, as well as how to deal with them.

“Young Master!”

The people quickly assembled behind Jasper.

“Proceed according to the plan!” Jasper held his hands behind his back and ordered without looking back, his expression cold.

“Team One, surround the perimeter and prepare to set the

fires!

“Teams Two, Three, and Four, seal the front, left side, and right respectively. Don't give them any chance to escape.

“When the power goes out for an instant, the people inside the house will definitely rush out. At that time, open fire without hesitation.”

The bullets were specially made for an indiscriminate blanket attack...

Jasper did not believe that Andrius could survive this!

“Yes, sir!”

Chapter 1396

Everyone acknowledged and began to move. The siege operation started!
