

Chapter 1015 Transformation

Liam had secured a total of seven primogem rocks from Townsend this time around.

Apart from the singular rock allocated for Julie's use, Liam entrusted the remaining six to Shayla.

Having surpassed his previous limitations to attain level six, Liam found himself in no need of the primogem rocks for his own progression.

Shayla received the six primogem rocks from Liam, her face unreadable.

Beneath her stoic exterior, however, she was awash with a deep sense of appreciation. In her mind, Shayla had pegged their relationship as purely transactional, expecting at best a single primogem rock from Liam as a gesture of partnership.

The generosity he displayed was unforeseen, especially in a world where the allure of primogem rocks was universally acknowledged.

"At least, you still have some conscience," Shayla remarked, a hint of jest in her tone, yet she quickly turned away, shielding her tear-filled eyes from Liam and Julie.

In the days that followed, Liam, Shayla, and Julie secluded themselves for the cultivation of power.

For Liam, it was a period of introspection and mastery over the newfound abilities he had unlocked by breaching his previous limits. He also dedicated moments to enlighten Julie about the intricacies of being a Primogem Warrior.

These revelations dramatically transformed Julie's perspective on their world, effectively aligning her closer to the ethos of the Salvation Society.

Although she was nearly a part of the association, Liam chose not to address this shift directly just yet.

Shayla, having been the sole recipient of the six primogem rocks' energy, witnessed a substantial enhancement in her power. Her dedication to absorbing their essence yielded significant advancements in her capabilities.

After three days of rigorous cultivation, the trio emerged from their seclusion, each bearing the fruits of their dedication.

Liam had attained a profound understanding of his newfound strength, confidently positioning himself as a formidable opponent against any adversary at the sixth level of Primogem Warrior status.

Shayla, on the other hand, had her aura intensified remarkably, nearly touching the zenith of the fifth level, thanks to the primogem rocks Liam had generously provided.

She stood on the cusp of a breakthrough, poised to ascend to the sixth level with just the right opportunity.

Julie emerged as the most transformed among them.

Not only had she ascended to the ranks of Primogem Warriors, but she had also restored her beautiful appearance, enhancing her beauty beyond its former glory.

The primogem energy had nourished her skin to an exceptional radiance, instilling a newfound confidence within her.

Upon her transformation into a Primogem Warrior, Julie was determined to stand as an equal alongside Liam, shedding any previous notions of being a liability.

On the day Liam concluded his cultivation, both Julie and Shayla prepared themselves with particular attention to their appearance as if to mark the occasion.

Shayla had chosen a striking ensemble, donning a black lace dress that played to her strengths, accentuated with sleek black stockings. Her choice of attire, coupled with her natural allure, cast her in the role of a queen, commanding attention with her presence.

Julie had also opted for a dress that celebrated her form. The daring cut of her dress barely contained her curves, while flesh-colored stockings emphasized her striking physique. Her choice of bold makeup added a layer of mystique to her look.

Julie's choice of attire was a deliberate response to

the underlying tension she sensed from Shayla.

Even though Liam had never shown any preference toward Shayla, Julie had harbored resentment towards her own previous appearance, which she felt had diminished her standing.

Driven by a mix of defiance and a desire to assert her own appeal, Julie had meticulously selected her outfit to showcase her transformation.

Even Shayla, witnessing Julie's transformation, couldn't help but cast an appreciative glance at Julie's way.

Despite her own confidence in her appearance, Shayla acknowledged Julie's undeniable beauty.

"No wonder Liam hasn't shown me any affection," Shayla mumbled bitterly, her thoughts tinged with envy. "It turns out he already has a beauty by his side."
