

Chapter 1103 Fight With Zephyr Ape

A grin spread across Rodney's face as he saw that Doug agreed.

Then, he turned to Liam and said, "Kolton, are you cool with your share?"

Liam gave a slight nod without uttering a word.

He didn't reject Rodney's offer. The Universe Crystal Dew was too tempting for him to pass up. Even though Rodney only planned to give him ten percent, Liam was okay with it.

After all, if he could beat Zephyr Ape, it would bury his past, wiping away any lingering threats.

Plus, after taking down the Zephyr Ape, Liam would be able to show his true power. If he could catch the others off guard, he was sure he could snag all the Universe Crystal Dew for himself!

And if they failed against the Zephyr Ape, Liam could still rescue Shayla and make a run for it.

So, Liam wouldn't lose out on this deal.

Seeing no objections, Rodney nodded and said, "Let's roll!"

He took out a ball wrapped in crackling thunder and lightning from his pocket. When he swallowed it, the lightning crackled even brighter around him!

Simultaneously, Rodney's strength shot up to eight stars of level six!

This was his trump card for survival, but with the Universe Crystal Dew on the table, Rodney couldn't hold back anymore.

After all, even without reliance on anything else, Rodney would be more powerful than he already was if he could absorb the Universe Crystal Dew!

Just like Rodney, Doug also had something up his sleeve. Doug pulled out a treasure and swallowed it whole. His strength also surged to eight stars of level six!

Liam, Doug, Huxley, and Rodney remained on high alert. They fixed their gaze on the Zephyr Ape, ready to strike at any moment.

Seeing Liam and the others standing firm, the Zephyr Ape felt its pride wounded. It pounded its chest furiously and let out a deafening roar.

"You humans! Your choice is not too smart! Prepare to die here!"

The Zephyr Ape swung a punch, creating a sonic boom with its terrifying power and speed. Liam and the others hastily stepped back, none daring to face the Zephyr Ape head-on.

They all remembered the sight of Mateo getting hit by that punch.

As its first missed, the Zephyr Ape launched another attack.

But this time, Liam was ready. The Zephyr Ape was soon subjected to the gravitational magnetic field from Liam's special power.

The gravitational magnetic fields slowed down the Zephyr Ape.

Meanwhile, Rodney seized the opportunity to unleash a barrage of lightning, enveloping the Zephyr Ape. The crackling electricity danced around the beast, intensifying the assault.

Seeing this, Doug and Huxley both used their special power to unleash attacks on the Zephyr Ape.

Near the Lotus Lake, the violent surge of unworldly energy erupted. Despite their efforts, the attacks only seemed to annoy the Zephyr Ape.

It had a sturdy defense as an unworldly beast, making their assaults minor.

They were only trading blows, far from enough to drive the Zephyr Ape away or even injure it severely.

Liam could see it, but Rodney couldn't.

Watching the Zephyr Ape thrash around in the thunder and lightning, Rodney became convinced they could

outlast it.

Ecstatic, Rodney shouted to the others, "Hang tight!
I'll keep the Zephyr Ape pinned down until it gives up!"

Now, Liam pondered whether to use his full strength.

He had been holding back since the start of the fight.

He was only using a fraction of his earth element
energy, barely slowing down the Zephyr Ape. And the
energy he was using wasn't at its peak.

Liam was lost in thought.

Maybe if he unleashed his full strength, he could truly
finish off the Zephyr Ape!
