

Chapter 1104 Go All Out

Liam considered revealing his identity but deemed the risks too high.

After all, he was on the Saint Society's most wanted list. He wasn't naive. Just because he fought alongside Rodney and the others, they wouldn't become his trustworthy allies.

The moment they learned his true identity, they would betray him for Adamson's hefty bounty.

So, Liam decided to assess their strength further, waiting for the perfect moment to strike.

His plan was to eliminate not just the Zephyr Ape, but all Saint Society members present, securing his escape.

With that in mind, Liam subtly reduced his power output.

He also signaled Laura to find an opportunity to bring Shayla out of Garrett's team, fearing the Glyn family might target Shayla.

But before Liam could act, the Zephyr Ape let out a thunderous roar.

It pulsed with a blinding purple light, revealing its true power.

This was no ordinary beast. It surpassed even the Ghost Wolf King, having awakened a powerful and brutal special power.

With a surge of power, the Zephyr Ape shattered all surrounding electric energy with a single punch.

The force sent Rodney and the Doug brothers flying, seriously wounded.

Liam, positioned at a safe distance, was the only one unscathed.

Free and brimming with disdain, the Zephyr Ape sneered at Rodney and the others. "Foolish humans! How dare you oppose me? Your pathetic lives end now!"

Its eyes flashed with killing intent. It was hell-bent on wiping out everyone present.

Realizing there were no other options, Liam stopped holding back.

A red glow engulfed him, and his red armor appeared.

He maximized his control over his earth element special power, unleashing a powerful gravitational field to slow the Zephyr Ape.

With a surge of adrenaline, he charged at the giant beast, activating his life-draining ability at full force.

Liam's life-draining ability was particularly effective against large targets. The bigger the foe, the stronger

the pull.

Against the colossal Zephyr Ape, the ability proved effective. The massive beast struggled in vain to break free from Liam's grasp.

The battle intensified, and the Zephyr Ape roared in fury, its voice dripping with venom. "Coward! Fight me like a warrior!"

Liam ignored the taunt. Because right now, a new problem had emerged.

The sheer volume of the life force draining from Zephyr Ape was overwhelming. Absorbing that, Liam's body began to swell alarmingly, limbs ballooning as if inflated.

This was unprecedented.

Sweat slicked Liam's forehead. The fight wasn't unfolding as planned.

It seemed Liam might have bitten more than he could chew.
